STATE OF IDAHO

Water License No. 66.

decree

WHEREAS, On the 26th day of March, 1903, D. W. Ross of Boise, Idaho, for and in behalf of the Honorable, the Secretary of the Interior, duly made application to the State Engineer of the State of Idaho, for a permit to appropriate Two Thousand Six Hundred (2600) cubic feet per second of time of the waters of Snake River for irrigation and domestic purposes, and,

WHEREAS, On the 23rd day of June, 1903, Permit No. 66 was issued to said applicant for the diversion of said water and providing for the completion of works of diversion therein described on or before June 23, 1908, and for the application to beneficial use of said water on or before June 23, 1912, and,

WHEREAS, J. G. Camp, acting in behalf of the United States Reclamation Service, duly made proof of completion of adequate works for the diversion of One Thousand Seven Hundred Twenty-six (1726) cubic feet per second of time of said waters as evidenced by Certificate of Completion No. 66, dated the 6th day of January, 1909, issued by the State Engineer of the State of Idaho, confirming the completion of works of sufficient capacity for diverting and conveying said waters to the place of intended use with date of priority of March 26, 1903, and,

WHEREAS, On the 18th day of June, 1912, P. M. Fogg, project engineer of the United States Reclamation Service, acting as agent of and on behalf of the United States of America, filed with the State Engineer of Idaho an application for amendment to said Permit #66, which said application was duly approved by the State Engineer, said application amending the list of lands to be irrigated under said permit No. 66, said lands being described as follows, to-wit:

WHEREAS, On the 20th day of June, 1912, satisfactory proof of application to beneficial use of water to the lands hereinafter described as required under the terms of said permit was duly submitted to the State Engineer as by law provided.

NOW, THEREFORE, By virtue of authority vested in me by the laws of the State of Idaho, I hereby grant this license to the United States Reclamation Service in trust for the use and benefit of all parties who have established or who may hereafter establish a right to participate in such use and benefit, confirming a perpetual water right dating from March 26, 1903, to the use of 1726 cubic feet per second of time, or so much thereof as may be necessary for irrigation and domestic purposes, subject, however, to the laws of the State of Idaho, applicable to a license for the use of the water of the state, and subject, also, to the local or community customs, rules and regulations, which have been or may be adopted

from time to time by a majority of its users from a common source of supply, canal or lateral, from which such water may be taken, when such rules and regulations have for their object the economical use of such water, said license and perpetual water right being hereby granted and confirmed, for the purposes above set forth, to said United States Reclamation Service, whose postoffice address and chief place of business is Washington, D. C., said water having been shown upon said proof of application to beneficial use to have been used beneficially by the following named entrymen upon the following specified acreages situate respectively within the following described subdivisions of land, to-wit:

QUITCLAIM DEED

THE UNITED STATES OF AMERICA, hereinafter **GRANTOR**, acting by and through the Bureau of Reclamation, Department of the Interior, pursuant to the provisions of the Minidoka Project Act of November 3, 1998 (Public Law 105-351, 112 Stat. 3219), and for good and valuable consideration as detailed in said Act, does hereby **REMISE, RELEASE, AND FOREVER QUITCLAIM** to **BURLEY IRRIGATION DISTRICT**, an irrigation district duly organized under the laws of the State of Idaho, of 246 East, 100 South, Burley, Idaho 83318, hereinafter **GRANTEE**, all of its right, title and interest, without warranties, in and to those portions of the natural flow, waste, seepage, return flow, and groundwater rights held in the name of the **GRANTOR** for the benefit of the Minidoka Project or specifically for the **GRANTEE**, situated in the County of Cassia, State of Idaho, to wit:

1. Water Right No. A01-00211

This natural flow water right held by The United States has a priority date of March 26, 1903 for the diversion of 1,726 cubic feet per second (cfs) from the Snake River for the irrigation of lands within the Minidoka Project, under the canals of the Minidoka Project in Minidoka and Cassia Counties, Idaho.¹ The United States conveys a portion of this right (hereafter A01-00211B) to Burley Irrigation District (hereafter Burley) and retains a portion of the right (hereafter A01-00211A) for Minidoka Irrigation District (hereafter Minidoka) to be used as provided by contract with The United States.

- a. The water right conveyed to Burley, Right No. A01-00211B, is defined with the following elements:

Source is the Snake River.

Priority Date is March 26, 1903.

¹ This natural flow water right was established by decree of the Fourth Judicial District of Idaho on June 20, 1913 in the case of Twin Falls Canal Co. v. Charles N. Foster as Right No. 3 of The United States at p. 31.

Quantity is for the diversion of a maximum of 1,200 cfs from the Snake River. In the event Burley and the Secretary of the Interior on behalf of Minidoka do not agree on a distribution of water that the districts are collectively entitled to under rights A01-00211B and A01-00211A, for whatsoever reason, the water will be divided proportionately with Burley entitled to the delivery of water equivalent to thirty-eight percent (38%) and Minidoka entitled to the delivery of sixty-two percent (62%) of the total water available under said rights up to a maximum of 1,726 cfs.²

Season of Use is a period each year beginning April 1 and ending October 31 of that year.

Nature of Use is for irrigation.

Place of Use is 48,000 acres within the boundary of Burley.

Points of Diversion are

2. Water Right No. A01-00214.

This natural flow water right held by The United States has a priority date of August 6, 1908, for the diversion of 1,000 cfs from the Snake River for the irrigation of lands within the Minidoka Project.⁴ The United States conveys a portion of this right to Burley (hereafter A01-00214B) and retains a portion of the right for Minidoka (hereafter A01-00214A).

- a. The water right to be conveyed to Burley, A01-00214B, shall be defined with the following elements:

Source is the Snake River.

Priority Date is August 6, 1908.

Quantity is for the diversion of a maximum of 544 cfs from the Snake River. In the event Burley and the Secretary of the Interior on behalf of Minidoka do not agree on a distribution of water that the districts are collectively entitled to under rights A01-00214B and A01-00214A, for whatsoever reason, the water will be divided proportionately with Burley entitled to the delivery of water equivalent to thirty-eight percent (38%) and Minidoka entitled to the delivery of sixty-two percent (62%) of the total water available under said rights up to a maximum of 1,000 cfs.⁵

³ This percentage division of water rights is in accordance with the Repayment Contract between The United States and Minidoka, No. 14-06-100-1833, dated February 2, 1960.

3. Water Right No. A45-00512

This is a natural flow water right held by The United States with a priority date of April 9, 1909, for the diversion of 150 cfs from Marsh Creek for the irrigation of land of the Minidoka Project within Burley.⁷

- a. Right No. A45-00512 is conveyed to Burley subject to the following elements:

Source is from Marsh Creek, a tributary of the Snake River.

Priority Date is March 26, 1903.

Amount is for the diversion of 150 cfs.

Season of Use is a period each year beginning April 1 and ending October 31 of that year.

Nature of Use is for irrigation.

Place of Use is 48,000 acres within the boundary of Burley.

Section 30: SESE, SWSE

4. Foster Decree Return Flows

⁷ This natural flow water right was established by decree of the Fourth Judicial District of Idaho on June 20, 1913 in the case of Twin Falls Canal Co. v. Charles N. Foster as Right No. 8 of The United States at p. 33.

a. Allocation of Foster Decreed Return Flows Credits

In reliance upon the Foster Decree (Twin Falls Canal Company v. Charles N. Foster, et al., in the District Court of the Fourth Judicial District of the State of Idaho, in and for the County of Twin Falls, dated June 20, 1913), The United States claims a credit against the use of stored water for increased flows in the Snake River attributable to the operation of the Gravity Division and the Southside Pumping Division of the Minidoka Project as determined by the State Engineer of the State of Idaho (Director, Idaho Department of Water Resources), or his duly authorized agent.⁸

The United States conveys that portion of the right arising from the operation of the Southside Division (approximately thirty-eight percent [38%]) to Burley. The use and accounting of the return flow shall continue in a manner that will not injure the rights of the Minidoka Project or its water users. Current practice for the division of the right considers the proportionate diversions of Burley and Minidoka after ad hoc agreements on the monthly division of waste and losses from the Minidoka Southside Canal. If Burley and Minidoka fail to agree on the division of waste and loss or on the procedure to be used, thirty-eight percent (38%) of the credit will accrue to Burley, and sixty-two percent (62%) to Minidoka.

5. Domestic & Stock Groundwater Rights

a. Water Right No. A45-10389

This Snake River Basin Adjudication (SRBA) partial decreed water right has a priority date of June 19, 1909, for the diversion of 0.12 cfs of ground water for domestic purposes. The United States conveys the entire right to Burley.

b. Water Right No. A45-10391

This SRBA partial decreed water right has a priority date of June 19, 1909, for the diversion of 0.08 cfs of ground water for domestic purposes. The United States conveys the entire right to Burley.

6. Snake River Basin Adjudication Claims (SRBA)

a. Domestic Water Right Claim No. A45-10390

The United States filed for a statutory beneficial use claim in the SRBA. It has a priority date of June 19, 1909, for the diversion of 0.24 cfs of ground water for domestic purposes. The United States conveys its claim to water right, No. A45-

⁸ Decree of the Fourth Judicial District of Idaho on June 20, 1913 in the case of Twin Falls Canal Co. v. Charles N. Foster at p. 34.

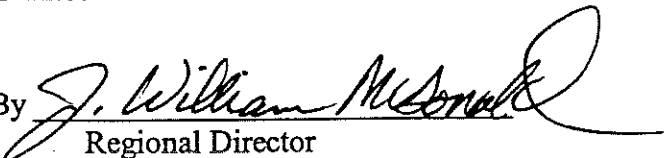

10390, to Burley. However, Burley shall then be responsible for its ultimate confirmation as a water right in the SRBA proceedings.

b. Groundwater Water Right Claim No. A01-04047

- (1) The United States has filed for a groundwater recharge storage claim in the SRBA. It has a priority date of June 19, 1909, and is for the diversion of groundwater and Snake River surface water for the purpose of recharging and storage of groundwater. Because this water right is still necessary to sustain pumping flows for the B Unit of the Northside Pumping Division of the Minidoka Project and any change in ownership could injure project operations, The United States shall retain this right if decreed in the SRBA for the benefit of Minidoka Project Operations, except as provided by the following section.
- (2) The United States conveys to Burley its interest in water withdrawn from wells or captured by drains within Burley's boundaries that are used for either the purpose of improving or preserving the utility of land by draining them or for the purpose of recovering groundwater resulting from irrigation by Burley for further irrigation use on or drainage of lands to which the water rights of Burley are appurtenant.

Re: Notice of Change of Water Right Ownership

Dear Allen:

I have enclosed five (5) duly executed Notices of Change of Water Right Ownership. The Notice of Change of Water Right Ownership for Water Right Nos. 01-00211 and 01-00214 is a split of water rights held by the United States. Water Right No. 45-00512 is a water right that is completely transferred to Burley Irrigation District. The claim to Water Right No. 01-04047 is the entire claim being transferred to Burley Irrigation District, and the three domestic water rights are being transferred completely to Burley Irrigation District, as the land where these water rights are used has also been transferred to Burley Irrigation District, as shown by the Deed attached to the Notice of Change. If you have any questions in regard to these transfers, please feel free to contact this office.

Very truly yours,
