the mine.

The letter probably went to Allan Skinner.

Monty will do some checking and call me
back.

9/16/03 I got a call back from Scott Sprug and
he said there is no irrigation from Dry
Creek. Scott has been there since 1986 and
since 2003 at the site. Monty was their prior
to Scott and also said no irrigation has occurred.
In-stream stock only.

Scott will send me a letter acknowledging that
do not irrigate and agrees that, that portion of
the right has been abandoned.

Notice of Claim No. 27-2050
Notice of Claim No. 27-2053

Dear Ms. Bird:

This letter is a follow up to our discussion regarding the two referenced claims. As we discussed the water in Dry Valley Creek is used for stock watering. There is no evidence that this water was used to irrigate the pastures except the areas near the creek where flooding could occur and irrigation could occur near the banks. We will continue to lease this land for use by cattle ranchers and request that this water right be protected.

If you have any questions regarding this information, please contact me. I can be reached at 208-547-3210 or on my cell phone (303-883-1184).

Sincerely,

Re: Snake River Basin Adjudication (SRBA)
Notice of Claim No. 27-2050
Subject: Changes in the POD
Response Date: September 29, 2003

Dear Claimant(s):

Our office is reviewing your above referenced Notice of Claim and need some additional information to recommend your claim to the SRBA Court.

A water right owner who has made changes in the Point of Diversion (POD) of a water right prior to the commencement of the SRBA without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the change not result in injury to another water user. The licensed POD is SWNE Section 5, T8S, R44E and SWSE Section 31, T7S, R44E. The claimed POD is SWNWSW, Section 32, T7S, R44E.

Before we can recommend your claims, you must provide us with the date the change was made and some evidence tending to support the change. If the changes occurred prior to November 19, 1987, then the date must include the month, day and year the change occurred. If the change occurred after November 19, 1987, then no date or evidence is required and the claim will be recommended as it was prior to November 19, 1987.

Your response must be received by this office by the response date shown above. If no response is received then your claim will not be recommended to be decreed.

If you have any questions please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

Dear Claimant in the Snake River Basin Adjudication (SRBA):

About 13 years ago you or your predecessor filed with the Idaho Department of Water Resources a claim to water right in the Snake River Basin. The investigation phase of this process is now focused on your area, Basin 27.

You are invited to attend a **public meeting to be held on March 11 at 7:00 p.m. in the Eastern Idaho State Fairgrounds, Needle Craft Building, at the corner of Park and Maple streets.** The purpose of this meeting is for (1) the Department to update you on how the adjudication process works, and (2) for you, the claimant, to express concerns or discuss problems relating to water delivery in your area. This will help us to understand from an historical perspective the use and delivery of your water right.

Throughout this summer our adjudication staff, primarily from our Eastern Regional Office but also at times from Boise, will be contacting various water users in Basin 27. We ask for your cooperation in this process – the better we understand your water rights the better chance of you receiving an accurate decree from the SRBA Court that fully describes your water rights.

This investigation effort is being conducted by an experienced and successful staff. During recent years, this staff has accurately investigated and reported water rights in neighboring basins including the Big Lost River, the Little Lost River, Birch Creek, Camas Creek and the Portneuf River.

Please contact the Idaho Falls Office with any questions.

Sincerely,

Ernest Carlsen
Adjudication Supervisor, Eastern Region

Enclosure: Information Brochure

Questions and Answers:

Q: Why now? I adjudicated my water rights in 1989.

A: You filed your claims in 1989. Now we are investigating those claims to make accurate recommendations to the Fifth District Court.

Q: If I furnish more information will you take away my water right?

A: The State does not want your water right. We ask for additional information so that we may make accurate recommendations of Beneficial Uses of the water rights. Our schedule is very tight – we need the info ASAP.

Q: How much more money do you want?

A: You paid for your claim in 1989, or so. There might be additional fees only in extenuating circumstances, such as additional acres or new claims.

Q: How come you want me to file another claim?

A: If we suggest you file additional claims it means we have found

additional uses of water to which you may be entitled, or we have identified additional acres.

Q: What about my Domestic well and Stockwater?

A: There is no statutory requirement to file either; but IDWR accepts your Domestic and/or Stockwater claims.

The Tools We Use:

In the evaluation of water right claims and preparation of recommendations the adjudication staff utilize:

- State-of-the-art computer technology.
- High resolution 1987 NAPP photography to identify the place of use.
- Global Positioning System (GPS) used to pin-point points of diversion or detail significant features.
- Prior decrees, licenses and transfers.
- Water measurements for claims based on beneficial use.
- Watermaster records
- Historical records
- Claimant input and participation

Re: FMC/Astaris Water Rights Change in Ownership

Dear Dave and Jennifer:

Your letter dated May 2, 2000, indicating the changes in ownership made to the Department's records, does not reflect accurately the change in ownership reported by the Notice of Change in Ownership submitted by Astaris Production LLC. The following paragraphs describe how the water rights ownership should be reflected in the Department's and SRBA's files:

1. **A27-02050** and A27-02053. You indicate that these are owned by FMC, NuWest DBA Agrium, and Astaris Production LLC. This is not correct. In 1998, FMC and NuWest purchased undivided interests in the Holmgren Anderson ranch and these water rights. FMC owned an undivided 23% interest in these rights, and Agrium owns the other 77%. A Notice of Change in Ownership was filed at that time, and we received confirmation from the Department of ownership in these percentages. Astaris Production LLC has now acquired all of FMC's interest in these water rights (i.e., FMC's undivided 23% interest) and the underlying property. Accordingly, as reflected in the Notice filed with you on April 21, 2000, and in the Special Warranty Deed submitted with the Notice, **these two water rights are owned 77% by Agrium and 23% by Astaris Production LLC.** FMC has no further interest in these water rights. Please correct your records to accurately reflect the parties' recent transaction.

2. Similarly, ^{P-2} 27-02162 was owned 50% by FMC and 50% by Agrium. Astaris Production now has purchased FMC's 50% undivided interest. Accordingly, **this water right is now owned 50% by Agrium and 50% by Astaris Production LLC.** FMC has no further ownership interest in this water right. Please correct your records (and the records in the SRBA court and Boise office) to accurately reflect the parties' recent transaction.

Dave Carlson
Jennifer Crabtree
May 8, 2000
Page 2

3. FMC owned, and Astaris Production now owns, 100% of water right A29-02255C. Please correct your records to reflect **ownership 100% by Astaris Production LLC**. ✓

4. FMC owned, and Astaris Production now owns, 100% of 27-04063 (partially decreed) and 27-07057 and 27-07058 (licensed). You indicated that you had sent the Notice to Boise for processing. Please forward a copy of this letter to the appropriate person in Boise, so that the records for these water rights/licenses accurately reflect 100% ownership in Astaris Production LLC.

The changes made to the other four water rights, from FMC to Astaris Idaho LLC, are correct and we will add your new profiles in our files.

Please give me a call if you require further clarification.

Sincerely,

RE: WATER RIGHT OWNERSHIP CHANGE FOR FMC - ASTARIS

Dear Ms. Jones:

Our office received the above referenced request on April 21, 2000 and have processed it as follows:

Adjudication claims A29-02301, A29-02255E, A29-02284, and A29-11342 have been processed and are in the name of **Astaris Idaho LLC**. Enclosed are copies for your files.

Adjudication claims **A27-02050** and A27-02053 have been processed and are in the name of **FMC, NuWest DBA Agrium, and Astaris Production LLC**. Enclosed are copies for your files.

Adjudication claim A29-02255C has been processed and is in the name of **FMC and Astaris Production LLC**. Enclosed is a copy for your files.

27-04063 and 27-02162 are domestic and stockwater rights that have been partially decreed by the Snake River Basin Adjudication court. Our state headquarters in Boise, Idaho processes these documents. I will forward a copy of your request to them.

27-07057 and 27-07058 are licensed water rights (not adjudication claims) and are also processed at our state office. Again, I will forward your request to them.

If you have questions about the domestic and stockwater rights or the licensed water rights, please contact IDWR, Allocations Bureau in Boise, at (208) 327-7900. If you have questions about the other claims, please contact Senior Water Right Agent Dave Carlson in our office at (208) 525-7161.

Sincerely,

SPECIAL WARRANTY DEED

FOR VALUE RECEIVED, **FMC Corporation**, a Delaware corporation, the Grantor, does hereby grant, bargain, sell and convey unto **Astaris Production LLC**, a Delaware limited liability company, the Grantee, whose address is 10300 Olive Boulevard, St. Louis, MO 63166, the following described real property, to-wit:

The property described in Exhibit A attached hereto and, by this reference, incorporated herein as if set forth in full, which property is located part in Power County and part in Bannock County, State of Idaho.

TOGETHER WITH all of Grantor's right, title and interest in and to mineral and oil and gas rights thereon and thereunder,

TOGETHER WITH all water rights appurtenant thereto, including but not limited to water right number 29-02255c,

TOGETHER WITH i) all other and singular tenements, hereditaments, appurtenances and improvements thereon or thereunto belonging, ii) all reversionary, underlying or other right, title and interest of Grantor in and to the rights-of-way of all public roads, streets, or ways, and of all railroads or easements, abutting upon said premises or any part thereof, and iii) all right, title and interest of Grantor in and to any and all lands lying beneath, or constituting the bed of any waterway or body of water, abutting upon said premises or any part thereof.

SUBJECT TO:

(i) existing building and zoning regulations, easements, rights-of-way, subdivision and deed restrictions and reservations, and all other matters of record similar to the foregoing;

(ii) matters which a survey or inspection of the premises would reveal;

(iii) the lien for local real property taxes for the current year which are not yet due and payable; and

(iv) unpatented mining claims and reservations or exceptions in patents or in Acts authorizing the issuance thereof.

TO HAVE AND TO HOLD the same, together with all rights and appurtenances to the same belonging, unto Grantee and its successors and assigns forever.

3-2

Grantor does hereby covenant that it and its successors shall and will WARRANT and DEFEND the title to said premises unto Grantee and its successors and assigns forever against the lawful claims of all persons claiming by, through or under Grantor but none other, excepting, however, the matters above set forth.

IN WITNESS WHEREOF, the Grantor has hereunto set its hand effective as of the 12th day of April, 2000.

Re: Change in Ownership of Water Rights

RECEIVED
APR 21 2000
Department of Water Resources
Eastern Region

Dear Ms. Crabtree:

Enclosed on behalf of Astaris Production LLC and Astaris Idaho LLC are executed Notices of Change in Water Right Ownership forms and copies of the recorded Special Warranty Deeds conveying title to the respective companies. These transfers are part of a joint venture between FMC Corporation and Solutia, Inc., pursuant to which FMC has transferred its phosphate production assets in Southeastern Idaho to the two Astaris companies. Astaris Production LLC now owns FMC's Dry Valley Mine and Silica Mine properties, and Astaris Idaho LLC now owns FMC's Pocatello phosphate processing plant.

The Pocatello plant and Silica Mine properties are located in Power and Bannock Counties. The Silica Mine water right (A29-02255c) was recently transferred to the Silica Mine from property owned by FMC and located near the Pocatello Plant. We refer you to that recent file for more details and a map of the place of diversion and use of this water right. The Pocatello plant uses most of its water for industrial and not irrigation purposes. We attach a recent profile of these water rights. A recent survey of the Pocatello plant property is of record in Power and Bannock Counties (Instrument No. 20003575, Bannock County, and Instrument No. 174692 for Power County, seven sheets). We will send you copies of the surveys at your request.

We filed with the Department about a year ago a map of the Dry Valley Mine irrigated property (located in Caribou County) and points of diversion and use. This was in connection with the acquisition of certain property by FMC and Agrium from the Holmgren-Anderson partnership. The points of diversion and

Ms. Jennifer Crabtree

use of those water rights remain the same. Water rights not used for irrigation or stockwater (Nos. 27-07057 and 27-07058) are used for mining purposes. A survey of the Dry Valley Mine property is of record in Caribou County (Instrument No. 161069 - 5 sheets). The map in your file showing the Holmgren/Anderson water rights provides more information about place of diversion and use of these water rights than would the survey. We will provide you with a copy of the survey at your request. We attach copies of recent profiles of these water rights.

Please let me know if you require further information in order to transfer these water rights of record with the Department and the SRBA Court.

Re: Notice of Change in Water Rights Ownership

Dear Sirs:

Enclosed please find a Notice of Change of Water Rights Ownership signed by NuWest Industries, Inc., doing business as Agrium Conda Phosphate Operations, noticing the change in owner of the listed water rights. Also enclosed is a copy of the Deed by which NuWest/Agrium obtained title to the land and appurtenant water rights. Our Adjudication Source Summary printout indicates that these water rights are listed in the Adjudication under Clair Holmgren's name. The other undivided interest in the water rights is owned by FMC Corporation, and a Notice of Change in Ownership for that portion of the water rights was filed previously. FMC and Agrium have each purchased portions of the Holmgren-Anderson parcel shown in the enclosed map, with a proportionate undivided interest in the appurtenant water rights.

Please let me know if there is anything else required by us in order for you to process the change in ownership of record with the Department and with the SRBA Court. Following the change, please send to me a copy of your revised DWR and SRBA summary computer printouts or other documentation of the change in ownership.

Thank you for your attention to this Notice.

Sincerely,

Re: Notice of Change in Water Rights Ownership

Dear Sirs:

Enclosed please find a Notice of Change of Water Rights Ownership signed by Gary Resh on behalf of FMC Corporation, noticing the change in owner of the listed water rights. Also enclosed is a copy of the Deed by which FMC obtained title to the land and appurtenant water rights. Our Adjudication Source Summary printout indicates that these water rights are listed in the Adjudication under Clair Holmgren's name. The remaining undivided interest in the water rights is owned by Agrium/Nu-West, and a Notice of Change in Ownership for that portion of the water rights will be filed separately. FMC and Agrium have each purchased portions of the Holmgren-Anderson parcel shown in the enclosed map, with a proportionate undivided interest in the appurtenant water rights.

Please let me know if there is anything else required by us in order for you to process the change in ownership of record with the Department and with the SRBA Court. Following the change, please send to me a copy of your revised DWR and SRBA summary computer printouts or other documentation of the change in ownership.

Thank you for your attention to this Notice.

Sincerely,

HOLLAND & HART LLP
