STANDARD FORM 4

MOTION TO FILE:

- ☒ **LATE NOTICE OF CLAIM**
☐ **AMENDED NOTICE OF CLAIM**

INSTRUCTIONS

This form is used to file a late Notice of Claim or an amendment to a Notice of Claim in a reporting area where the Director's Report has been filed. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even-number pages upside down.

The water right number for your late or amended claim must be indicated above in the blank space following "Subcase." You must use a **separate form for each** late or amended Notice of Claim.

This form has been adopted by the court in *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

By filing a *Motion to File a Late Notice of Claim* or a *Motion to File an Amended Notice of Claim*, you certify that it is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation.

☒ I have read *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996).

My name is _____

My address is _____

My phone number is: Work _____ Home _____

I am an attorney representing Idaho Water Resource Board

My name is Steven Strack

My address is P.O. Box 44449, Boise ID 83711-4449

My phone number is (208) 334-4143

MOTION TO FILE A LATE NOTICE OF CLAIM

A Motion to File a Late Notice of Claim will require a hearing before the Presiding Judge.

☒ I did not file a Notice of claim to the use of water in the SRBA because:

These minimum stream flow water rights were not established until March 24, 2005, when the Governor signed House Bill 154 (2005), which provides for a new code section 42-1507, that implements, in part, the Snake River Water Rights Agreement of 2004 by establishing minimum stream flows for the stream reaches identified by resolution of the Idaho Water Resource Board adopted February 8, 2005, and directs the Board to file claims in the SRBA for the minimum stream flow water rights.

☐ I filed a Notice of Claim and elected to defer judicial proceedings on my domestic or stock watering use. I desire to reinstate my Notice of Claim for domestic or stock watering use.

☒ I am providing legal and factual documentation for my claimed use of water. You must describe these documents and attach a readable copy. (You do not need to fill this out if you are reinstating a Notice of Claim for domestic or stock watering use, but you **must** attach a copy of your Notice of Claim.)

These water rights were adopted by resolution of the Idaho Water Resource Board dated February 8, 2005(see Attachment 2 hereto), and established by the Idaho Legislature in House Bill 154, 2005 Idaho Sess. Laws Chapter 150 (Attachment 3 hereto).

I have attached:

- ☒ A fully completed Notice of Claim (available from IDWR).
- ☐ A claim filing fee for a domestic and stock watering use. IDWR may charge this fee pursuant to I.C. § 42-1414. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ _____.
- ☐ A claim filing fee and a late claim fee for those claims other than a domestic or stock watering use for which a notice of claim was not filed. To determine this amount, contact IDWR at (800) 451-4129. I have enclosed a check payable to: State of Idaho Department of Water Resources in the amount of \$ _____. **[NOTE: No filing fee is enclosed. These water rights are exempted from filing fee requirements. See 2005 Idaho Sess. Laws Chap. 150, to be codified as I.C. § 42-1507(2)].**

Follow these instructions regarding the hearing on this motion.

1. Contact the Clerk of the SRBA Court (208-736-3011) to request a hearing date and time.
2. Fill in the following information: This motion will be heard on [see State of Idaho's Motion for Expedited Hearing, filed concurrently with this Motion to File Late Notice of Claims]

(Insert Date and Time)

at the SRBA courthouse, 253 Third Avenue North, Twin Falls, Idaho.

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A *Motion to File an Amended Notice of Claim* may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires.

- ☐ I must amend my Notice of Claim to the use of water in the SRBA because:

- ☐ I am providing legal and factual documentation to support my amended Notice of Claim.
You must describe these documents and attach a readable copy.

I have attached:

- ☐ An amended Notice of Claim (available from IDWR).
- ☐ Payment of the following additional fees required by IDWR:

**Legal Documentation for Claimed Use of Water:
Resolution of Idaho Water Resource Board dated February 8, 2005**

BEFORE THE IDAHO WATER RESOURCE BOARD

IN THE MATTER OF THE ESTABLISHMENT)
OF MINIMUM STREAM FLOW WATER)
RIGHTS PROVIDED FOR IN THE SNAKE) RESOLUTION
RIVER WATER RIGHTS AGREEMENT OF)
2004)
_____)

WHEREAS, on December 17, 2004, the Idaho Water Resource Board ("Board") adopted a resolution providing approval of the Snake River Water Rights Agreement of 2004 ("Term Sheet" or "agreement") and recommending Legislative approval; and

WHEREAS, the Term Sheet, among other things, provides for the establishment of minimum stream flow water rights on selected streams to be held by the Board in trust for the people of Idaho; and

WHEREAS, the minimum stream flows reserve opportunities consistent with the Term Sheet as summarized in Attachments 1 and 2, attached hereto and incorporated herein by this reference, for future use in the Salmon and Clearwater Basins; and

WHEREAS, the streams have been divided into "A" and "B" List groups based on land ownership and level of existing use; and

WHEREAS, the "A" list, attached hereto as Attachment 1, will have minimum stream flows and future non-DCMI ("domestic, commercial, municipal and industrial") levels assigned based on categories of ownership; and

WHEREAS, the "B" list, attached hereto as Attachment 2, includes those streams where minimum stream flows and other non-flow-related actions have been developed by the parties, in conjunction with the local stakeholders and communities; and

WHEREAS, the Board held a series of meetings with the local communities and parties, and has collaboratively developed Basin Work Plans which quantify minimum stream flows for the A and B List streams; and

WHEREAS, the estimates used to establish minimum stream flows are based on exceedence values from simulated hydrology and the adjudication process before the Snake River Basin Adjudication ("SRBA") District Court will provide a mechanism for changing the flow amounts if actual stream flow measurement data becomes available; and

WHEREAS, all minimum stream flow water rights will be junior in priority to all existing water rights; and

WHEREAS, any established minimum stream flow water rights that are not capable of being maintained with available stream flows may be satisfied and maintained with the cooperation of local water right holders through voluntary market based mechanisms, including use of the water supply bank authorized by sections 42-1761 through 42-1765, Idaho Code; and

WHEREAS, the State of Idaho retains the authority to change these minimum stream flow rights in the future.

NOW THEREFORE BE IT RESOLVED that the Board approves the minimum stream flow water rights provided for under the Snake River Water Rights Agreement of 2004 in the amounts set forth in attachments 1 and 2 attached to this Resolution and incorporated herein by this reference.

BE IT FURTHER RESOLVED that the Board recommends that the Idaho State Legislature establish these minimum stream flow water rights by law and waive the fees required for submitting claims for the established water rights before the SRBA.

Dated this 8th day of February, 2005

Jerry R. Rigby, Chairman
Idaho Water Resource Board

RELATING TO MINIMUM STREAM FLOW WATER RIGHTS; AMENDING CHAPTER 15, TITLE 42, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 42-1507, IDAHO CODE, TO PROVIDE FOR THE ESTABLISHMENT OF CERTAIN MINIMUM STREAM FLOW WATER RIGHTS, TO AUTHORIZE THE WATER RESOURCE BOARD TO HOLD THE MINIMUM STREAM FLOW WATER RIGHTS IN TRUST AND TO FILE CLAIMS FOR THE RIGHTS IN THE SNAKE RIVER BASIN ADJUDICATION, TO PROVIDE A PRIORITY DATE, TO PROVIDE FOR SUBORDINATION TO SPECIFIED USES, TO WAIVE CERTAIN FILING FEES, TO PROVIDE THAT CERTAIN MINIMUM STREAM FLOW WATER RIGHTS MAY BE SATISFIED AND MAINTAINED THROUGH DESIGNATED METHODS, TO PROVIDE FOR CERTAIN NOTICE AND CONSULTATION IN THE EVENT THE STATE DECIDES TO CHANGE ANY MINIMUM STREAM FLOW WATER RIGHT, TO CLARIFY THE AUTHORITY OF THE STATE IN RELATION TO THE MINIMUM STREAM FLOW WATER RIGHTS AND TO PROVIDE A CONTINGENCY ON EFFECTIVENESS; AND DECLARING AN EMERGENCY.

Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. That Chapter 15, Title 42, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 42-1507, Idaho Code, and to read as follows:

42-1507. SNAKE RIVER WATER RIGHTS AGREEMENT MINIMUM STREAM FLOW WATER RIGHTS ESTABLISHED. (1) The legislature hereby establishes minimum stream flow water rights for the stream reaches identified by resolution of the Idaho water resource board, adopted February 8, 2005. The elements of the minimum stream flow water rights established by this section are as defined by the board's resolution and the attachments thereto. The board shall hold the minimum stream flow water rights in trust for the people of the state of Idaho, and the board shall file claims for the rights in the Snake river basin adjudication. These minimum stream flow water rights shall have a priority date as of April 1, 2005, and shall be subordinated to future domestic, commercial, municipal, and industrial water uses and such other future uses as described in the December 17, 2004, resolution of the Idaho water resource board providing approval of the Snake River Water Rights Agreement of 2004 ("Mediator's Term Sheet" dated April 20, 2004, and submitted on that date to the SRBA Court in SRBA Consolidated Subcase 03-10022 and SRBA Consolidated Subcase 67-13701, with all appendices to the document), as approved, ratified, and confirmed by the 108th Congress of the United States in the "Snake River Water Rights Act of 2004," Pub. L. No. 108-447 (H.R. 4818), 118 Stat. 3431 to 3441 (December 8, 2004).

(2) No fee shall be required in connection with the filing of claims in the Snake river basin adjudication for the minimum stream flow water rights established by this section.

(3) Any minimum stream flow water rights established by this section that are not capable of being maintained may be satisfied and maintained through operation of the water supply bank authorized by sections 42-1761 through

1 42-1765, Idaho Code, inclusive, and other available methods consistent with
2 Idaho law.

3 (4) In the event the state decides to change any minimum stream flow
4 water rights created by this section, it will provide notice of such change
5 and consult with the Nez Perce tribe on a government-to-government basis as
6 provided in the Snake River Water Rights Agreement of 2004. Provided however,
7 nothing herein or in the Snake River Water Rights Agreement of 2004 shall be
8 construed or interpreted to abridge, impair or limit the authority of the
9 state of Idaho to create, modify or terminate any minimum stream flow water
10 right established by this section.

11 (5) This section shall not become effective until the governor issues a
12 proclamation certifying that all conditions for the effectiveness of the Snake
13 River Water Rights Agreement of 2004 have been satisfied.

14 SECTION 2. An emergency existing therefor, which emergency is hereby
15 declared to exist, this act shall be in full force and effect on and after its
16 passage and approval.

STATEMENT OF PURPOSE

RS 14927C1

Passage of this legislation will establish the Snake River Water Rights Agreement minimum stream flow water rights adopted by the Idaho Water Resource Board. The Board shall hold the minimum stream flow rights in trust for the people of the State of Idaho.

FISCAL NOTE

The proposed legislation provides a waiver from fees required to file claims in the Snake River Basin adjudication for minimum stream flows. Enactment of this legislation will have no effect upon the state's general fund or other state or local funds.

OFFICE OF THE
ATTORNEY GENERAL

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF
IDAHO
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM

CIVIL CASE NUMBER: 39576

Ident. Number: **SEE ATTACHMENT 1**

Date Received:

Receipt No:

Received By:

**NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW**

1. Name of Claimant(s):

State of Idaho
Idaho Water Resource Board
Statehouse Mail
P.O. Box 83720
Boise, ID 83720-0098

2. Date of Priority:

April 1, 2005.

Use of water under this right shall recognize and allow the continued beneficial diversion of water under any prior existing water right established by diversions and application to beneficial use or by an application, permit or license on file or issued by the director under the provisions of Chapter 2, Title 42, Idaho Code, with a priority of water right date earlier than the date of priority of this right.

3. Sources: See Attachment 2. Trib. to: See Attachment 2.

4. Points of Diversion: See Attachment 2.

5. Description of diverting works: None (minimum stream flow).

Idaho Water Resource Board
Ident. Nos. (See attachment).

6. Water is used for the following purposes:

Minimum stream flow to preserve fish and wildlife, scenic and recreational values and to protect and enhance water quality.

7. Total Quantity appropriated is:

See Attachment 2.

8. Total consumptive use:

Use of water shall be non-consumptive.

9. Non-irrigation uses:

Minimum stream flows.

10. Place of use:

140 stream reaches, as identified in attached spreadsheet. The places of use are the reaches above the quantification points.

11. Counties in which places of use are located:

Clearwater, Custer, Idaho, and Shoshone.

12. Do you own the property listed as place of use? No (see remarks).

13. Other water rights used:

N/A

14. Remarks:

These are late claims pending acceptance by the SRBA Court.

All minimum stream flow water rights identified in Attachment 2 except the following are subordinated to future non-Domestic-Commercial-Municipal-Industrial ("non-DCMI") development in the amount specified in the attached spreadsheet, or a floor amount equivalent to the unimpaired monthly 80% exceedence flow, whichever is less: 71-10891, 71-10894, 71-10895, 71-10896, 85-15601, 85-15603, 85-15604, 85-15605, 85-15606, 85-15610, 85-

15614, 85-15615, 85-15616, 85-15617, 85-15618, 85-15619,
85-15620, 85-15621, 85-15622.

While the instream flow and the future allocation for non-DCMI uses and floor flows are to be decreed in cubic feet per second (cfs), such quantities are intended to reflect the stated exceedence flows at the quantification point. The exceedence flows were estimated using regional regression equations developed by the United States Geological Service. Upon further finding and order of the director that gaging stations are required to maintain the approved minimum flows under this right, such measuring devices shall be permanently installed and maintained as specified by the director. If actual flow data become available, the quantities in this water right will be adjusted as necessary to give effect to the exceedence assumption state above. Such adjustments do not result in a material change to the water right and are not subject to the notice and hearing requirements set forth in this partial decree, but shall comply with the notice and consultation requirements of Section 42-1507(4), Idaho Code.

The Idaho Water Resource Board, upon receiving a request, or upon its own initiative, may petition the Director for an amendment to this water right after complying with the notice and consultation procedures of Section 42-1507(4), Idaho Code. The petition must set forth any significant change in circumstances and evidence of the public interest supporting the proposed amendment. The Director will notify the general public and specific persons or notify interested parties of the proposed change, and conduct a hearing for the purpose of determining whether the water right should be amended in the public interest.

This water right shall be subordinate to all future DCMI uses.

When this water right is not capable of being maintained using existing flows, Idaho Code Section 42-1507 authorizes the Idaho Water Resource Board to maintain the flow through operation of the water supply bank authorized by Section 42-1761 through 42-1765, Idaho Code, and by other available methods consistent with Idaho Law.

For claims nos. 72-16664 and 72-16668, the water right will be administered in a manner consistent with Wild and Scenic River flows from the North Fork of the Salmon River to Long Tom Bar, and subordinated to the extent necessary to permit full utilization of the future water development preserved by the subordinations contained within the description of the Wild and Scenic water rights for the Salmon River, water right numbers 75-13316 and 77-11941.

that all conditions for the effectiveness of the Snake River Water Rights Agreement of 2004 have been satisfied.

Minimum stream flows for the following streams are quantified in cfs, based on the monthly 30% exceedence level of the estimated unimpaired flow. Flows are subordinated to all future DCM water rights; in addition, 5% of the lowest median monthly unimpaired estimated flow is subordinated to future non-DCM uses; provided, non-DCM uses are to be curtailed at a floor equivalent to the unimpaired 80% estimated exceedence flow.

Attachment 2 : Periods of Use and Quantities (Basins 71, 72, 81, 82, 83, 84, 85 and 86)

Minimum stream flows for the following streams are quantified in cfs, based on the monthly 50% exceedence level of the estimated unpaired flow. Flows are subordinated to all future DCM water rights, in addition, 25% of the lowest median monthly unpaired estimated flow is subordinated to future non-DCM uses, provided, non-DCM uses are to be curtailed at a floor equivalent to the unpaired 80% estimated exceedence flow.
