RE: In reviewing all the water rights from
P.D. 45 SE NW Sec 22 T14N3W it appears
that only 2 rights 02-2198 & 02-2167 need
to be limited. They are the latest rights
in the system belonging to S's Inc.

It appears that the only measurement
taken of the total capacity of the system
was measured with a "H H" meter in
a ~~the~~ concrete ditch. The majority of
the rights were calculated from the
number of sprinkler holes or spacing
meter out of the canal.

Since there are only three users from
the system, there shouldn't be any
problems.

It wouldn't hurt to have another
measurement for this system
