

RECEIVED
JUL 18 2005
DEPARTMENT OF
WATER RESOURCES

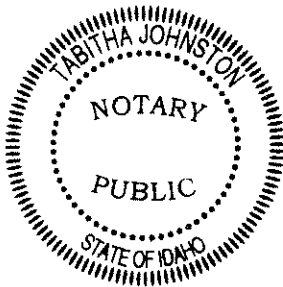

July 8, 2005

I Molly Myers, widow of the late Jake Yakovac, is making a statement for the representation of water right number 75-14172. This is a spring on the ground named as the old Foster Place. We moved next door in 1935. Frank Foster was irrigating with this spring then. How many years before 1935 I don't know. It was several. We purchased this land in 1941.

In regards to the 75-13962, this water right belongs to a piece of ground that was purchased from John H. Jewett, who purchased it from Peterson, then named the Keystone. This water was used back in 1915.

Thank You,

Molly Myers
