

7-30-02: Stopped by home and talked to kids. Said they don't have a pump in Rapid Creek. Left Name and # to have parents call me.

: In Field

8-12-02: Called and left a message that I would stop by and try to find the POD and POU or they can call me.

8-13-02: Note Stay away From brown dog on Chain
FE

: Pump Info: Briggs + Stratton
5 HP
Red - Portable

1) Pic of red Army
2) Pic of red outflow
line
3) POU with Red
Pipe next to shed
4) Claimed POU
No Sprinklers

: Pump intake line not hooked up.

: Stock - yes

12-30-02: Conversation with Ivan Spraker ^{on 11-8-02} confirmed that main field west of Horse Corral is dry farmed.

1-6-02: I do not know why Mr Kent only Claimed a portion of the Rotational Right. If Historical Practice is to use water outside of the rotation, Claimant could Claim Portions of 29-00297 + 29-00314.

: Diversion Rate Proportioned out amongst users.
Claimant Gets 1/4 share.

4-17-03: Spoke with Wes Kent. He said he hasn't used water on main Pasture for about 5 years. When he does POD is on Stewart Nelsons Place. I told him I would research other water rights (besides Rotational) and get back to him possibly with a new Claim. Meanwhile he is getting pictures of rivers and sprinkler pipe to send to me along with affidavits from himself or neighbors.
