RE: Amendment of Snake River Basin Adjudication (SRBA) claim 29-00294F and new Jackson Creek claim.

Dear Ben and Louise,

As Ben and I spoke about on the phone on July 3, 2002, enclosed is a Jackson Creek claim. Look over the claim and initial any changes you wish to make. When satisfied, sign the claim in front of a notary and return it to this office with the \$50 filing fee. As we spoke about on the phone, it is your decision whether to file the claim or not. Keep in mind that I need to come to the claimed property and verify that the ditch water can make it to your property in order to recommend either the Jackson Creek claim or the Rapid Creek claim. I plan to be in the field during the 16th, 17th, and 18th of July.

I am also enclosing an amended Rapid Creek claim. I found that the claimed point of diversion was listed in the wrong legal description. I made that change on the amended claim. Please look over the amended claim and initial any changes you wish to make. When satisfied, sign the claim in front of a notary and return it to this office. There is no filing fee for the amendment.

In addition, I need a copy of your deed trail showing conveyance of the property from Jeff Webster to yourself. This is for two reasons (I forgot to mention one on the phone). One to confirm that 29-07109 was licensed for your parcel. Two in case the deeds say anything about how much Rapid creek water is applicable to your property when the property was subdivided.

Please feel free to contact me if you have any questions.

Respectfully submitted,

Craig L. Saxton
Sr. Water Resource Agent
Adjudication Bureau
