Re: Evidence of Priority Date #75-14092

Dear Ms. Brown:

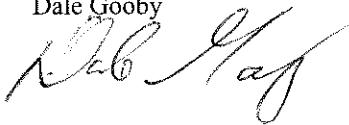

In support of my Statutory Claim #75-14092, April 17th, 1923 priority date, I am providing the following documents:

1. Ariel photo from 1968 showing ground to be irrigated by a well established ditch. (please review annotations on photo).
2. Affidavit from Robert C. Anders stating that his grandfather acquired the property serviced by the ditch in 1929 and performed maintenance on the ditch at that time.

This evidence suggest that the claimed priority date of April 17th, 1923 is reasonably accurate. Today there is still remaining portions of old ditches that were used to flood irrigate the property. The property has been under gravity sprinklers since the mid 1950's.

Sincerely

Dale Gooby

1. Photo taken 7-25-68
2. Note M. time Vegetation on ditch.
3. This supports a 1923 priority date
4. Original photo available for
closer inspection.

Re: Wallace Creek Ditch

To Whom It May Concern:

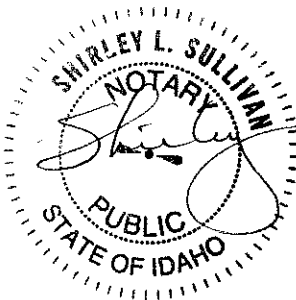

My grandfather, William Henry Anders, either built or rebuilt the Wallace Creek Ditch.

According to my father, Esmond W. Anders, they acquired the property in 1929 and worked on the ditch while they owned the property. At that time, there were no trees along the ditch bank, contrary to the present, where the trees are almost solid along the ditch bank.

Sincerely,

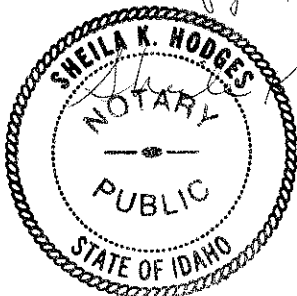

Robert C. Anders
