Attachment - Remarks on Buckaroo Ditch Company Water Right Transfer

The Perkins Ranch Unit of Owen Ranches has 5,500 shares (220 inches) of third priority Bruneau Buckaroo Ditch Company water (decreed right 51-00005). Owen Ranches seeks to add additional permissible places of use to the Buckaroo third priority right which will allow Owen Ranches to utilize Buckaroo Ditch water in a comprehensive sprinkler irrigation system which will irrigate a portion of approximately 1,311 acres located above the Buckaroo Ditch. Water will be diverted from the Buckaroo Ditch at a new pumping station located in NWSW Sec. 23, T7S, R6E. The 1,311 acres are presently irrigated using several separate sprinkler irrigation systems with water from a combination of the following sources:

- groundwater (648 acres from each of 12 separate licenses involved in Transfer 3324, 190 acres from 51-07082, 168 acres from 51-07119)
- surface water from the Buckaroo Ditch (250 acres from 51-00005), and
- surface water from Pence Hot Springs (55 acres from 51-07293).

The proposed place of use transfer will allow Owen Ranches to utilize the third priority Buckaroo Ditch water on any 250 acre parcel within the 1,311 acre area. The place of use irrigated by this transfer each year will not exceed 250 acres, and the amount diverted will not exceed to 220 inches. Owen Ranches will notify the Buckaroo Ditch Company as to which 250 acre parcel will be irrigated each year; the 250-acre area will be identified on a map or marked in the field.

Owen Ranches will not develop new irrigation lands under this transfer and will not exceed the total quantities appropriated by these rights. This transfer is not expected to result in an impacts to return flows or other water rights.

MEMORANDUM

TO: JAN SHURTE

FROM: STEVE LESTER *SL*

DATE: JANUARY 4, 1994

SUBJECT: TRANSFER APPLICATION NO. 4265, BRUNEAU BUCKAROO COOP. DITCH
COMPANY FOR OWENS SHARES, RIGHT 51-00005

The ditch company recently filed a transfer application regarding Owens shares of right no. 51-00005 (220 inches of third priority water). Owens shares are currently used on 250 acres above (east of) the ditch in S. 9, 10 & 15, T7S, R6E. Owens wants to use the shares for no more than 250 acres per year within a 1,311 acre area above the ditch. These Owens acres are currently irrigated, at least according to the application, by rights listed in page 7 of the attached copy of the application.

In order to complete the transfer analysis, additional information related to SRBA is needed. Here is what is needed:

- 1) The acres to be recommended in A51-00005 for the ditch company.
- 2) The Owens acres to be recommended for the various Owens claims that cover the 1,311 acres described in page 7 of the transfer. I made a smaller copy (see attached) of applicant's map showing Owens 250 acres now served by this right and the 1,311 acre area in which 250 acres will be served per transfer.

The above information is needed since application states that no new lands are being put into production and also since SRBA recommendations are in process. We need to be able to confirm the number & location of acres shown on page 1 of the application to see if that land list is correct and to see if the 1,311 acres are already irrigated by Owens.

I know that Ron is working on some if not all of Owens claims but am not sure who is working on ditch company rights. Can you have your staff provide this information? Is there an idea of when this information will be ready? Is one month a realistic time-frame?

Let me know if I can do anything in this.
