INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

REAL ESTATE EXCHANGE AGREEMENT

~~April~~ ^{May} THIS Agreement is made and entered into this 1st day of ~~April~~, 1995, by and between GRANT JOHNSON and MABEL A. JOHNSON, husband and wife, and CARL JOHNSON, a single man, the parties of the first part, hereinafter referred to as "JOHNSON" and JAMES E. YOUREN and JANET M. YOUREN, husband and wife, the parties of the second part, hereinafter referred to as "YOUREN".

Johnson and Youren understand and intend that this transaction is to qualify as an exchange according to the rules of Sec. 1031 of the IRS Code to the extent of the qualifying like kind property being exchanged.

1.0 EXCHANGE PROPERTIES: Johnson does hereby agree to transfer and convey to Youren all of their right, title and interest in and to the real property located in Owyhee, County, Idaho, containing 720 acres more or less, and known as the JOHNSON RANCH together with all of the improvements located thereon. The legal description is on Exhibit "A" as parcels 1, 2 and 3 attached hereto and by reference made a part hereof in exchange for the transfer and conveyance by Youren to Johnson all of their right, title and interest in and to six (6) parcels of real property located in Boise county, Idaho, containing a total of 71 acres more or less, and known as the Youren property. The legal description is on Exhibit "B" as parcels 1, 2, 3, 4, 5 and 6A and by reference made a part hereof. In addition Youren will pay Johnson the sum of \$97,700.00 in cash at the closing of this transaction.

2.0 EXCHANGE MARKET VALUE OF PROPERTIES:

2.1 Exchange Market Value of Johnson's Property: T h e parties hereto agree that the total reasonable fair market value of the property to be transferred by Johnson to Youren hereunder is \$695,000.00, allocated as follows:

A. Land, Buildings and Real Property Improvements: The reasonable fair market value of the land, buildings and real property improvements thereon is \$560,000.00.

B. Personal Residence: The reasonable fair market value of the personal residence located on Parcel 2 on Exhibit "A" is \$135,000.00.

2.2 Exchange Market Value of Youren's Property: The parties hereto acknowledge that they are unable to reach an agreement at this time as to the total reasonable fair market value of the six (6) parcels of property to be conveyed by Youren to Johnson hereunder, and that there is now a bona fide good faith difference of opinion between the parties as to the same, except that the

parties do agree that said reasonable fair market value is in no event less than \$597,300.00, or more than \$635,000.00, as of the date of this exchange transaction, and said parties do further agree that whatever the total actual reasonable fair market value of said parcels may be at this time, the reasonable allocation of said fair market value to the respective parcels is as follows:

<u>Parcel No.</u>	<u>Percentage Allocation</u>
Parcel No. 1	33.6%
Parcel No. 2	15.9%
Parcel No. 3	15.9%
Parcel No. 4	15.9%
Parcel No. 5	18.7%
Parcel No. 6A	00.0%

However, for the purpose of enabling the parties to complete the transfer and exchange of the subject properties, despite their present inability to agree on the said fair market value, Johnson agrees that subject to the adjustments and modifications provided for under the terms and provisions of paragraph 4 the total fair market value of the properties to be transferred to them by Youren hereunder is, for the purpose of this Agreement, \$635,000.00.

3.0 EXISTING LIENS AND ENCUMBRANCES: The properties to be transferred and exchanged by the respective parties hereunder shall be conveyed subject to:

A. Gas, oil, geothermal and mineral right reservations and leases now of record.

B. Reservations in patents, use restrictions, zoning regulations, easements and rights of way now of record or visible on physical inspection.

C. General taxes for the year 1995 and all subsequent years.

D. The encumbrances as stated in paragraph 3.1 and 3.2.

3.1 Johnson Property: The Johnson property is subject to the following liens:

A. A mortgage to Connecticut General Insurance Co. (CG) on parcel 1, with an unpaid principal balance of \$154,000.00.

B. A mortgage to Farmers Home Administration (FmHA) on parcel 2 with an unpaid principal balance of \$7,973.14.

C. A contract of sale with Farm Credit Service (FCS) on parcel 3 with an unpaid principal balance of \$14,050.39.

3.2 From the cash proceeds Johnson will receive at the time of closing Johnson will satisfy, in full, the FmHA mortgage and the FCS mortgage.

3.3 Youren and Johnson agree that because there is not enough cash being paid to Johnson at closing to satisfy, in full, the CG mortgage Youren will accept parcel 1 subject to the CG mortgage but the mortgage will not be assigned to them. Johnson will be responsible for making such payments that are necessary to keep the mortgage current and satisfy the mortgage in full before the maturity date. Johnson will satisfy the (CG) mortgage from the cash proceeds received from the sale of property they are receiving in exchange from Youren excepting for the sale of parcel 6A which the proceeds from that sale Johnson will keep. The CG mortgage becomes due and payable in full in December 1997. Should for some reason beyond Johnson's control there is not enough cash received from the sale of the said properties to pay this mortgage in full by the maturity date then in that event Youren will loan Johnson enough money to pay the remaining balance due and Johnson will pay back the loan received from youren from the proceeds of the sale of the said properties as soon as the sales are made and closed. The said proceeds could be all cash or cash and secured notes.

3.4 Youren and Johnson agree that the net proceeds from the sale of any of the said parcels prior to the CG loan being paid in full, excepting for parcel 6A, shall be paid to CG until the CG note is paid in full. The net proceeds shall then be paid to Johnson until Johnson has received the sum of \$597,300.00, which is referred to in paragraph 4.1. The net proceeds then remaining after the \$597,300.00, plus any adjustments, referred to in paragraph 4.1, are paid to Johnson, up to \$635,000.00, shall be paid to Youren. Any amount received from the sale of the said parcels over \$635,000.00, shall be paid to Johnson.

3.5 YOUREN PROPERTY: The Youren property will be conveyed to Johnson subject to the following items:

A. The various items referred to in paragraph 3 A, 3 B and 3 C.

B. A mortgage in favor of Youren in the amount of \$37,700.00, payable in accordance with the terms of this agreement.

4.0 ADDITIONAL CONSIDERATION: The difference between the equity in the Johnson Property after credit is given for the cash payment of \$97,700.00, from Youren, as set forth in paragraph 2.2 being \$597,300.00, and the \$635,000.00, also set forth in paragraph

2.2 being the sum of \$37,700.00, shall bear no interest and shall be paid or reduced in amount, as the case may be, as follows:

4.1 Annual Reduction Without Payment: Unless sooner paid or discharged in full, said difference shall be adjusted and reduced by the sum of \$18,850.00 per annum, as of the end of each of the first two anniversary years following the date of the close of this transaction; each of said reductions shall be made effective as of the first day of the next succeeding anniversary year; at the end of the third anniversary year, the entire remaining balance of said difference, if any, shall be reduced to zero (-0-), and all obligations for the payment of reduction thereof shall be fully discharged and terminated.

4.2 Payment Upon Sale: If Johnson sells any or all of the properties to be received by them hereunder at any time or times during said three (3) anniversary years, the net proceeds from the sales shall in each instance be paid according to the instructions set forth in paragraph 3.4.

The parties hereto agree that the above-set-forth \$18,850.00 adjustments are made for the following reasons: That the parties recognize that during the three (3) years that Johnson's are granting Youren the opportunity to establish the higher fair market value of the properties to be transferred by Youren to Johnson hereunder, as provided for herein, it can be expected that said properties will appreciate in value and that said appreciation in value should rightfully inure to the benefit of Johnson; that therefore the parties hereto agree that for the purpose of this agreement, and in order to permit the parties to complete this exchange transaction at this time, said appreciation shall be \$18,850.00 per year and that Johnson shall receive the benefit of said appreciation in value by the method of crediting provided for above.

Therefore, the following shall be the per anniversary year allocation of value to each of the parcels to be transferred by Youren to Johnson hereunder:

<u>Parcel No.</u>	<u>Per- Cent</u>	<u>Minimum Value</u>			<u>Maximum Value</u>
		<u>1st Yr.</u>	<u>2nd Yr.</u>	<u>3rd Yr.</u>	
1	33.6%	175,812.	177,906.	180,000.	180,000.
2	15.9%	77,751.	81,375.	85,000.	85,000.
3	15.9%	77,751.	81,375.	85,000.	85,000.
4	15.9%	77,751.	81,375.	85,000.	85,000.
5	18.7%	88,235.	94,117.	100,000.	100,000.
6A	00.0%	100,000.	00.	00.	100,000.
Total	100.0%	597,300.	516,148.	535,000.	635,000.

The amount of the appreciation adjustment made between the first and second year and the second and third year will be prorated on a monthly basis as of the date the sale of any of the parcels is closed.

Johnson shall be obligated to sell any or all of the parcels to any purchaser or purchasers who makes a bona fide written offer to purchase for an amount equal to or in excess of the maximum value set forth above. If the offer to purchase one or more of the six (6) parcels is for an amount less than the maximum value set forth above Johnson shall notify Youren and receive Youren's consent to sell the parcel(s) at a lower price, Youren would have the option of accepting or rejecting the lower price offer. If the sale is not an all-cash sale Johnson may accept the terms providing that they do not conflict with the payment to Connecticut General. Youren agrees to work with Johnson on term sales and will participate with Johnson to receive any payments due them as set forth in paragraph 3.4.

5.0 SECURITY: The obligation of Johnson set forth above shall be secured by a blanket mortgage upon the properties to be received by Johnson hereunder. In the event of the sale of any of said parcels during the three (3) anniversary years set forth above, said properties shall be released by a partial satisfaction of the mortgage. If any of the properties remain unsold upon the expiration of said three-year period, Youren shall forthwith satisfy the mortgage in full.

6.0 PENDING OFFER TO PURCHASE: Youren has received an offer to purchase parcel 6A for the sum of \$100,000.00, cash subject to the sale closing on the buyers property. Johnson will accept the offer from the buyer and sell parcel 6A for the \$100,000.00, purchase price. This agreement is subject to the sale of parcel 6A closing within 30 days from the close of this transaction.

7.0 EQUITY ADJUSTMENT: To adjust the equities Youren shall pay Johnson the sum of \$97,700.00, in cash, referred to in paragraph 1, at the close of this transaction. The said cash is to be obtained by Youren selling a secured note to West One Bank which will net \$84,200.00. Youren will also sell another secured note and obtain a net of \$9,000.00. The balance of \$4,500.00 will be paid by Youren. This agreement is subject to the sale of the secured notes being completed and the cash paid to the closing agent. If the smaller note cannot be sold at this time for \$9,000.00, Johnson will accept it and give Youren credit for the \$9,000.00 payment.

The \$97,700.00 cash payment paid by Youren shall be considered as part of the purchase price of the personal residence on parcel 2 of the property Johnson is conveying to Youren hereunder.

8.0 CONTINGENCIES: This Agreement is subject to the satisfaction, removal or waiver of the following conditions:

8.1 Johnson receiving satisfactory documentation that the sale of parcel 6A, referred to in paragraph 6, will be closed within 30 days from the close of this transaction and the funds dispersed.

8.2 Youren receiving firm commitments that the two secured notes, referred to in paragraph 7, will be sold for \$84,200.00 and \$9,000.00 cash respectively.

8.3 If the sale of parcel 6A does not close in the time allowed or such other time that is satisfactory to Johnson, or if Youren cannot sell the secured notes for the amounts set forth in paragraph 8.2 or such other amounts that are acceptable to both Johnson and Youren then this Agreement will be null and void and of no further binding effect on the parties hereto.

9.0 TITLE INSURANCE: Johnson shall furnish to Youren a title insurance policy in the amount of \$695,000.00 on the property they are conveying to Youren and Youren shall furnish to Johnson a title insurance policy in the amount of \$597,300.00 on the property they are conveying to Johnson subject to the liens, encumbrances and defects elsewhere set out in this Agreement to be discharged or assumed by the other party. As soon as possible after the contingencies have been removed each party shall furnish to the other party a commitment for title insurance showing the condition of the title to the said property. Each party shall have five (5) days from receipt of the commitment of until 48 hours prior to closing, whichever is less, within which to object in writing to the condition of the title as set forth in the commitment. If neither party objects then they shall be deemed to have accepted the condition of the title. It is agreed that if the title of either parties property is not marketable, or cannot be made so within the time set forth above this Agreement shall be null and void and of no further binding effect upon the parties.

10.0 ATTORNEY FEES: In the event an action is brought to enforce any of the terms or provisions of this Agreement, or enforce forfeiture thereof for default thereof by either of the parties hereto, the successful party to such action or collection shall be entitled to recover from the losing party a reasonable attorney fee, together with such other costs as may be authorized by law.

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.
2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.
3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

1.
$$\frac{\text{Found Acres} * \text{Irr. Req.}}{\text{AFA}}$$
2.
$$\frac{(22) \text{HP} * 8.8 * (.70) \text{EFF}}{*(10.0') \text{Dyn Level} + (2.3 * \{0\} \text{PSI})} = 13.5 \text{ CFS}$$

Theor. Div. Rate
3.
$$\frac{\text{Theoretical Div. Rate} * \text{Days in season} * 1.9835}{\text{factor}} = \text{AFA}$$

Note: for ~~electrical~~ motors
EFF = 0.70
for ~~diesel~~ motors
EFF = ~~0.60~~

* I measured a S.W.L. of 9.6'. Owner told me the lift was actually 10.0' & that the pump was rated for his usage. Based on this info. I am using 10.0' as the lift.

RE: Claims filed in the Snake River Basin Adjudication.

Dear Mr. Johnson;

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in April. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this season, we request that you contact our office at 334-2190 within one week to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be beneficial.

To make an appointment, or if you have any questions or problems with scheduling the exam verification, please contact me as soon as possible.

Sincerely,

Linda A. Werner

Dear Water Right Claimant(s):

*Returned 8-19-98 -
No forwarding address*

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Tuesday, August 18th at 7:00 p.m. in the Eastern Owyhee County District Library (across from the post office) in Grand View.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

Dear Water Right Claimant,

To help you with your water right claim(s) in the Snake River Basin Adjudication, this information is sent to you by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. Preliminary Recommendation. This is IDWR's *initial* conclusion about your water right and how it should be reported to the SRBA Court. It is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you filed.

Please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. Error Correction/Settlement Process. This is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the recommendations are filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

Daniel C. Hurlbutt, Jr.
Presiding Judge
Snake River Basin Adjudication

EXPLANATION OF ELEMENTS OF A WATER RIGHT

To assist you in viewing the preliminary recommendation of your claim are the following explanations:

Water right number: This number is assigned by IDWR to identify your claim. The first two digits indicate the sub-basin of the Snake River where your claim is located.

Name and address of claimant: This is the name and address shown on the notice of claim form, or on the most recent *Notice of Change of Water Right Ownership* (see enclosed form if you need to change this information) that was filed with IDWR as required by statute.

Source: The source is the natural water body to which the claimant has a right. For surface water sources, the natural water body to which the source tributary is also shown.

Priority Date: This is the calendar date which is used to determine the relative priority of the right in relation to other rights from the same source, and is determined based on the method of appropriation (see basis of right, below). When there is insufficient water available to satisfy all existing rights, the water right holders with the oldest priorities are entitled to water before right holders with newer priorities are entitled to water.

Purpose of Use: Purpose of use indicates the general type of use made on the water, such as irrigation, domestic, or stockwater.

Period of Use: Period of use is the portion of the calendar year when water may be used for a particular purpose.

Quantity: The quantity of the right is the rate of diversion in cubic feet per second (CFS), the volume of water diverted in acre feet per calendar year (AFY), and/or the volume of water stored in AFY. The quantity for each purpose of use is shown, as well as the total quantity.

Non-irrigation purposes: If your preliminary recommendation includes purposes of use other than irrigation, then this element further describes other purposes of use.

Point of Diversion: The point of diversion is the point at which water is diverted from the source, and is generally described by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot within which the point of diversion is located. In some instances the point of diversion is described by a legal description of the 10 acre tract (1/4 1/4 1/4 section or 1/64 section) with which the point of diversion is located. "B" and "E" suffixes indicate the beginning and ending points of an instream flow right. "I" and "R" suffixes indicate points of injection and rediversion are indicated where water is diverted from one source, then rediverted, or where water from one source is exchanged with water from another source.

Place of Use: Place of use is the location where water is used, which is indicated by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot where the water is used. For irrigation rights, the number of irrigated acres in each 40 acre tract or government lot is listed.

Remarks: Remark if any, further describe the particular right. PLEASE REVIEW THE REMARKS CAREFULLY.

Basis of Right: Basis of right may be a decree (where the water right was previously determined by a court); method of appropriation that is no longer available; beneficial use (another historical method of appropriation that is available only in very limited circumstances); permit (where IDWR has granted an application seeking approval of a proposed appropriation); or license (where an appropriation has been completed pursuant to permit).

RE: A61-00060, A61-00061, A61-00062

Dear Mr Youren:

Enclosed are several documents relating to the above referenced claims filed in the Snake River Basin Adjudication by Grant, Mabel and Carl Johnson. These documents were mailed to the Johnsons but recently returned to us. The claims cover several decreed water rights from the Bruneau River.

According to the Owyhee County Assessor's office you are now the owners of the property to which the decreed rights are appurtenant. Also, enclosed is a Notice of Change of Water Right Ownership form. If you agree that you are now the owner of the land to which the rights are appurtenant, please complete the form and return it with a copy of the deed that conveys the land to you.

If you have any questions please call me at the number below.

Sincerely,

A handwritten signature in cursive script that reads "Mel Schulte".
