INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box, complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

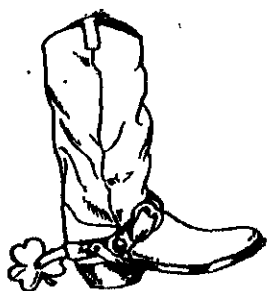

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Dear Mrs. Blossom;

I am writing in regard to our phone conversation of Wednesday morning in which we discussed the Notices of Claim to a Water Right filed by Maxine Faraday.

I am enclosing a copy of the letter I originally sent to her, along with a copy of the map and a profile report outlining the claims as filed. Please review this information to determine its accuracy. If you have any questions or comments be sure to contact me.

If I do not hear from you by October 29, 1993, I will assume that you agree with my findings and the claims will be recommended to the court as outlined on the map. Thank you for your assistance in this matter.

Sincerely,

Linda A. Werner

Dear Ms. Faraday;

I am writing in regard to the Notices of Claim to a Water Right, number A51-00120 and A51-00122, which were filed in the Snake River Basin Adjudication (SRBA). These claims are based on decreed water rights and are for the irrigation of 141 acres from Three creek.

As a process of the SRBA we are sometimes required to conduct a field exam to determine the legal description of the diversion point or the number of acres irrigated. This is especially true of a previously decreed right since many of these decrees did not show the point of diversion and listed the number of acres irrigated by 40 acre section based on acres owned rather than acres irrigated.

I have conducted an in-office exam on the above right. To do this I used a 1974 ortho-photo map and a 1987 satellite map. I believe I have accurately determined the number of irrigated acres and the location of the diversion points. I am sending you a copy of a contour map showing the number of acres irrigated, their location and the diversion points. Please review this information to determine its accuracy.

Should you find a problem, please contact me. I ask that you do so within the next two weeks since a field exam may be necessary and our field season is rapidly coming to a close. If I do not hear from you by October 13, 1993, I will assume that you agree with my findings and your claim will be recommended to the court as outlined on the map.

If you have any comments or questions, feel free to contact me.

Sincerely,

Linda Werner
