Notice(s) of Claim No. -- Please see attached list
Change of Address

Dear Claimant,

*all records changed 8-23-94
P. Shuman*

IDWR has been notified by the Bruneau post office the address presently in our claim records is incorrect. Although I have reached you at the address above, I need you to confirm this is your correct mailing address. Future notices related to your SRBA claim can be sent only to the address on your claim or as otherwise changed by you. The staff of this agency must avoid relying upon the word of others about your mailing address.

If the address above is correct, please sign your name at the bottom of this letter, and return it to this office. Otherwise, please make the proper corrections, sign, and return this letter. Thank you for your help to make sure you receive the future notices we intend to send to you that will keep you notified about SRBA matters.

If the ownership of the property to which this water right applies has changed, please call this office toll-free at 1/800-451-4129 to obtain a form to make this required change to the claim record.

Sincerely,

Adjudication Bureau Staff

CLAIM/WR NO: SEE BULL BASIN CLAIMS

AGENT: RON HOWERTON *RHW*

DATE: August 15, 1996

REF: FX August 14, 1996

1. This FX is a follow-up to in-office review.
2. In prior conversations with owner Bill Tindall, he had said that much of the area's were un-reachable except by horseback. Bill Tindall had told me that he left the diversions open for any natural flow and they were all found to be that way. I confirmed my in-office P/D and POU plotting were accurate by this field exam.
3. John Westra accompanied me since he had been to both reservoirs doing Dam Safety inspections and needed to look again this year. We both took our trail motor bikes and parked them just North of Buckhorn Reservoir.
4. We first tried to reach the most Southerly land in sections 14 and 23. The turn-off to the Jeep trail to these lands for the most part has been over grown and we could not locate it until we had walked about a 1/4 mile from the main jeep trail to the diversion to storage in section 34. There we found remnants of a Jeep trail. We checked the area for access with our motor cycles it was overgrown and would have been a cross country trip across big chunk of lava which our motorcycles could barely span. Horseback would be appropriate for the rest of the trip.
5. Two other P/D's we were not able to reach were:
 - * The P/D in section 36. There again, no trail was evident to reach this P/D.
 - * The P/D and re-diversion in section 24, after following a jeep trail for several miles we had to give up.
6. We had success on the rest and I took photo's of each to include the POU on most. The ditches were all clear and the irrigated fields did not look to be abandoned.
7. I feel comfortable after recommending these rights. I also feel the other areas we did not actually reach are ok.

NARRATIVE FOR BILL TINDALL'S BULL CREEK AREA RIGHTS

FIELD EXAMINER: RON HOWERTON
FX DATE: IN-OFFICE
DATE PREPARED: 10-26-94

ATTACHMENT:

Attachment I. "LICENSE VS DECREE TABLE"

This table shows all of the Bull Creek area rights. A question that needed to be clarified was, did the decreed rights supersede any of the licensed rights?

The compared data shows that all of the licenses were submitted with proof during commencement or after the decree end date. Thus, all licenses are valid with their licensed date of priority.

The table also shows shading in the rows. This was used to separate the decreed and licensed rights that go together for consideration if the licenses were valid.

A survey was done of the entire area by an engineer, S.E. Vance. The dates of his survey for each area are listed. These survey maps are included in each of the licensed files. Great detail was put into his maps. Thus, were exceptional information to do in-office review.

MAPS: USGS TOPO'S, ASCS, NAPP, LICENSE FX MAPS AND ENGINEER SURVEY MAPS

Note: Every effort was made to in-office verify these rights with the following maps because of the difficult access to these lands. In our dam safety file for Bull Creek dam (51-2240) it says that the dam is not accessible except with a high clearance 4 wheel drive. A motorcycle would be best. Since the department has neither, I pursued the in-office verification for the entire area.

1. USGS TOPO MAPS: Compared these maps for legal descriptions, direction of water flows, source and tributary names. The entire system is plotted on these maps.

2. ASCS MAPS: These 1988 maps were large enough to see ditch diversions and locations of the irrigated lands. All irrigated acres that were recommended are from these maps. The entire system is plotted on these maps.

3. NAPP: These maps are used to compare vegetation growth. These lands are of wild pasture grass and no irrigation set times are used. This type of irrigation is known to us as wild flooding. The irrigation cycle occurs in early spring with permanent diversions in the creeks or springs. They are checked on each year and repaired as needed according the Bill Tindall. These photos were taken in August 1987. Since early spring flooding is long over by August and our 7 or 8 year drought the areas only appear pinkish on these photos.

4. LICENSE FX MAPS: The Department's field examiner drew up maps of all the area's decreed to be overlapped by the licenses. These licenses were needed to up the amounts of water on the lands already decreed. The licensed field exam dates proved that these lands were being irrigated then even after the date of decree except license 2053. However, it overlaps lands of other rights anyway with the same source and no need to question the irrigation. See overlap review, Attachment II.

5. ENGINEER SURVEY MAPS: These maps were drawn by S.E Vance an Engineer hired to survey the area. Each map is carefully detailed and the date of the survey is listed. These maps were extremely helpful in doing the in-office review. Each map details the points of diversion, legal descriptions and more.

FOLLOW-UP WITH BILL TINDALL:

I had Bill Tindall come in on the 27th of October 1994 to review the new maps I had drawn up for recommendation. We went over the maps and he was in agreement with the points of diversion and irrigated places of use that I plotted before he left.

NOTES:

All licenses were submitted with proof during (09-10-20) commencement or after decree end date (02-14-25). Thus, all licenses are valid with their licensed DOP. License 51-02053 submitted proof after the commencement and was not required to be included in the decree, thus its date of priority is ok.
