Findings of Fact

On November 24, 1998, the Director of the Idaho Department of Water Resources filed his *Director's Report, Irrigation and Other Uses, Reporting Area 6, Volume One (IDWR Basin 51)*. The Director recommended the claim to Bert and Paula Brackett, Flat Creek Ranch, Rogerson, Idaho 83302, for 1.6 cfs from Big Flat Creek for year 'round stockwater use and to irrigate 301.7 acres from April 1 to October 31 with a priority date of April 15, 1906, based on a decree.

The United States of America, Department of Interior, Bureau of Land Management, filed an *Objection* on March 31, 1999, objecting to place of use. However, on June 22, 2000, the claimant, the United States and IDWR filed a *Standard Form 5*.

Conclusions of Law

Bert and Paula Brackett are entitled to a partial decree adjudicating a water right under claim 51-00096 as described in the *Standard Form 5* and the *Special Master Recommendation for Partial Decree for Water Right 51-00096*.

Description	
1. The first step in the process of creating a new product is to identify a market need.	
2. Once a market need has been identified, the next step is to develop a prototype.	
3. After developing a prototype, the entrepreneur must conduct market research to determine if there is sufficient demand for the product.	
4. If the market research indicates a strong demand, the entrepreneur can proceed to develop a business plan.	
5. Finally, once a business plan is complete, the entrepreneur can seek financing from investors or banks to launch the new product.
