INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

Dear Sirs

Enclosed is a copy of the above referenced claim(s) which reflects the change in ownership of the land and appurtenant water rights covered under the original filing.

We are currently in the process of making recommendations on Basin 51 water rights. I have reviewed your water rights and have talked with Robert Black about the system operation. Mr. Black indicated that the system is integrated and the water is applied to all the lands listed; therefore, I have created a permissible place of use. This means that you can integrate the water from all 4 water rights and apply it to the total recommended acreage. However, if you sell a portion of your property along with the water, then the new owner would get a pro-rata split of all 4 rights.

I have enclosed copies of the water right claims. These claims essentially reflect how the right was filed on. I am also enclosing profile reports, which reflect the recommendations I am making and a map showing the permissible place of use.

Please look over this information and if you have any questions give me a call before July 13, 1998, as the recommendations are going to the Water Rights Judge for decree in late July.

Sincerely,

Susan Bock

ADJUDICATION MEMORANDUM

CLAIM NO.: 51-071102516, 02173, 07110 SUBJECT: Claims

EMPLOYEE: Joe Boer

DATE: 12/1/98

I spoke with Robert Black by telephone today. I wanted to see if he would consent to all 4 claims being listed on PPC. He told me that just fine as both would now come in & cover all the land. However, he had recently sold off some of his land & 1/2 to a John Workentin of Texas.

Jo Mark took Mr Black & Mr Workentin came into the office & spoke with the CD person. They both agreed a PPC would be the way to go. Now we are just waiting for the change of ownership form to come in.

I am going to proceed on Mr Black's claims as ownership change may not come in on time.

I spoke to Mr Workentin's lawyer Prince Hall 587-4412 he said his client had all the forms & had not returned them yet.
