INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Dear Mr. Ward:

We have received and processed the Change of Ownership form submitted on the original Notice of Claim to a Water Right as referenced above. This change of ownership required a split of the original claim resulting in the renumbering of the original claim by adding alpha suffixes to represent each split. The new Notice of Claim to a Water Right Number for your portion is referenced above. The right holders of the remaining portion have also been notified of this split and renumbering of their original claim.

Enclosed is a copy of this new claim which now reflects your portion of the original water right. Please keep this copy for your files and refer to the new claim number when corresponding with our office. If you have any questions concerning this letter or the enclosed claim, please feel free to contact this office.

Sincerely,

financing institution insisted they had to own
the land the well was situated on, that being the
designated source of water, license NO. 51-2191. We then
sold the Gibsons the additional 8.6 acres of land.

RE: Notice of Claims to Water Rights in the Snake River Basin
Adjudication

Samuel D. Ward
HC 85, Box 141B
Bruneau, ID 83604

Dear Mr. Ward:

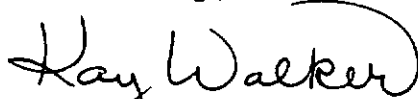

In a review of our records and your warranty deed, which was submitted as evidence of priority for Claim A51-10092, I found that you now own a portion of the land covered under License 51-02163. A claim was submitted on this license by Verna Merrick, who included the lands now owned by you. In order to clear up our records I have prepared a "Notice of Change of Water Right Ownership" form which will "split" your lands from Mrs. Merrick's land description and cover them under a portion of her claim.

In order to "move" the water use of your portion of Mrs. Merrick's claim to the well in the NESWNE, Sec. 3, Twp. 07S, Rge. 04E, we need to know when these lands began using this well. If the water from this well has been used on these lands prior to November 19, 1987, we can assume this is an accomplished transfer and just need some sort of evidence to document our file. If the water from this well has only been used on your lands since you purchased the property we will need to "transfer" this water use to your well. These lands were originally to be irrigated from the well in the SWNWNW, Sec. 3, Twp. 07S, Rge. 04E. Please submit some evidence of when your lands began using this well **on or before September 15, 1993**. An affidavit from Mrs. Merrick describing when the change began would be acceptable. I have enclosed a couple blank affidavit forms for your convenience. An affidavit from can be submitted by anyone with personal knowledge of when the change occurred.

I have inserted the property description of your lands, described as "Parcel No. 2" attached to your warranty deed, into a computer program which indicated that you own 8.6 acres of land in this parcel. I have inserted this information on the Notice of Change of Water Right Ownership form. If you don't have any problems with this, please **sign the form on the line indicated and return it to me.**

.. If you have any questions regarding this information, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker". The signature is written in dark ink and is positioned above the typed name.
