Re: Changes of Ownership--A51-02217A, -02198, -02151A, -07025A

Dear Mr & Mrs Meyers:

Enclosed for your records are copies of the above referenced Snake River Basin Adjudication water right claims. The claims relate to the change of ownership request you recently filed for the property you purchased from the Farm Credit Services.

The original form you submitted did not include claim #A51-02217A relating to a single domestic use. However, the deed included the property for this claim. I confirmed with Farm Credit Services that A51-02217A should have been included as part of the sale so I added the claim number to your form and changed the ownership along with the other claims.

If you have any questions please call me at the number below.

Sincerely,

Mel Schulte

Dear Mr. Meyers;

I am writing in regard to my field exam results from May 6 and the information requested from that exam.

Enclosed you will find a copy of the discharge measurements on the two wells. I believe Mr. Mori asked for these but I'm sending you the copies for your information also and ask that you show them to him too.

I am also enclosing a change of ownership form which needs to be completed so that I can take these claims out of Farm Credit's name and put them in yours. Please send along a copy of the warranty deed. This includes the land appurtenant to A51-02151A, A51-07025A plus the land appurtenant to A51-02217A which is for the house in section 22, NW1/4SE1/4.

In regard to my field exam results, I found the following:

A51-02151A

This claim was originally licensed for the well in section 23 and included the irrigated lands in portions of sections 22, 23 and 27. When this claim was filed the well in section 22 was added.

Before I can recommend this claim with the additional point of diversion I need to know when this well was first used on this land. I am sending along an affidavit for this purpose. It will need to be signed and notarized.

A51-02198

This claim was licensed for the well in section 22 and the lands irrigated are in the NE1/4 of section 22. I found an additional 18 acres now irrigated. This additional acreage can be recommended provided there is no increase in the amount of water. However, before I can recommend it I need more information.

Page 2
5/13/93

The additional 18 acres is considered an expansion of a licensed right. An expansion of acres under a license is permitted under the presumption statutes in the Idaho Code, Section 8, 42-1416(2). You will need to claim these acres by filing a Notice of Claim to a Water Right. The date of priority would be the date the extra acres were first irrigated. The amount of water allowed is a ratio of the total quantity initially licensed to the total number of acres now being irrigated.

I have partially completed a Notice of Claim and have filled in the total acreage and the amount of water based on this acreage. I am also sending a map which outlines the additional 18 acres found. You will need to complete the rest of the claim. This claim will also have to be signed and notarized, and submitted with an additional fee of \$68.00. The fee covers the filing fee of \$50.00 plus a variable fee of \$1.00 for each additional acreage. You will also need to submit evidence supporting the priority date claimed. I am enclosing an affidavit which can be used for this purpose.

There is something else that needs to be considered when filing a claim under the presumption clause in the Statutes. These presumptions are just that, presumptions, and as such may be tested in court. If they are not allowed, your claim for the extra acres will not be recommended. Should this occur there may be other options such as purchasing water from someone who has property in CRP.

I believe this covers everything. Be sure to contact me if you have any **questions** or problems in obtaining the information. I would appreciate it if you would return this information to my attention as soon as possible. This will allow me to complete your claim recommendations.

Sincerely,

Dear Mr. Meyers:

I am writing in regard to three Notices of Claim to a Water Right which were claimed in the Snake River Basin Adjudication. These are numbered A51-02151A, A51-02198 and A51-07025A. These claims were originally listed under the name of the Farm Credit Bank of Spokane. I have been advised that you may now own the property appurtenant to these claims.

These Notices of Claim need to be field examined due to changes in the diversion locations. I would appreciate it if you would contact me as soon as possible, preferably within the next week, so we can discuss the status of these rights. I am enclosing a copy of these claims, for your information.

RE: Claims filed in the Snake River Basin Adjudication,
A51-02151A and A51-02198

Dear Claimant;

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in April. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this season, we request that you contact our office at 334-2190 within one week to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be beneficial.

To make an appointment, or if you have any questions or problems with scheduling the exam verification, please contact me as soon as possible.

Sincerely,
