RE: 51-02209 & 51-02210

Dear Mr. Black:

Enclosed are two computer generated profile reports and one GIS imagery map that describe my proposed recommendations for your two groundwater irrigation rights referenced above. Please review these documents and let me know if you have any questions or concerns.

You will note that I have combined the two rights into one 585 acre permissible place of use. Because both of your wells can deliver water to any and all of the land in the two licenses, I think this is the most realistic way to describe the place of use for the licenses. If we use this concept and you sell any part of the place of use, the new owner would receive a prorated share of each license. It is my intention to recommend both licenses using the permissible place of use unless you direct me to the contrary.

Call me at the number below if you have any questions.

Sincerely,

Mel Schulte

ADJUDICATION MEMORANDUM

CLAIM NO.: A51-02209 & 02210 SUBJECT: Exam recommendations
EMPLOYEE: Linda Wormer DATE: 2-10-94

Mr. Black came in as a result of my letter dated 2-8-94

We discussed total acres irr. & he agreed w/ my findings of acres in Section 6. He thought, however, that 38 acres in Sec. 7, Subsec. was a more accurate assessment of what was irr.

We also discussed water quantity & how decreasing the acres would also decrease quantity & he was agreeable to this on the basis of accuracy accurately representing the use.

I also gave him a copy of 2 well logs & it appears the well driller had the wrong legal description for the well in SESE, Sec. 1.

RE: Claims filed in the Snake River Basin Adjudication.

Dear Mr. Black;

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in April. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this season, we request that you contact our office at 334-2190 within one week to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be beneficial.

To make an appointment, or if you have any questions or problems with scheduling the exam verification, please contact me as soon as possible.

Sincerely,

Linda A. Werner
Sr. Water Resource Agent
