Audit: 09/14/98 KWALKER

9-21-98

Ditch Capacity from Big
Jacks & Little Jacks = 14.41 cfs

$$51-04024 = 375.5 \text{ acres} \times 0.02 = 7.51$$
$$\text{conveyance loss} = \frac{0.93}{8.44} \text{ cfs}$$

$$51-04003 = 206.5 \text{ acres} \times 0.02 = 4.13$$
$$\text{conveyance loss} = \frac{1.15}{5.28} \text{ cfs}$$

$$\begin{array}{r} 8.44 \\ + 5.28 \\ \hline 13.72 \text{ cfs} \end{array}$$

(0.69 cfs left in ditch)

Since both claimants requested excessive flow for these rights and its the common practice for Bureau Valley, recommend allowing 0.03 cfs/acre and conveyance loss as projected above. Limit rights to ditch capacity when both being diverted.

$$51-04024 = 375.5 \text{ ac} \times 0.03 = 11.27 \text{ cfs}$$

$$\text{conveyance loss} = \frac{0.93}{12.20 \text{ cfs}}$$

$$51-04003 = 206.5 \text{ ac} \times 0.03 = 6.20 \text{ cfs}$$

$$\text{conveyance loss} = \frac{1.15}{7.35 \text{ cfs}}$$

$$\begin{array}{r} 12.20 \\ + 7.35 \\ \hline \end{array}$$

19.55 ← will exceed ditch capacity - use EOI on both claims & limit to 14.41 cfs (ditch capacity)

**NOTICE OF ERROR
REPLY**

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

**YOUR DEADLINE FOR RETURNING A
NOTICE OF ERROR REPLY IS:**

Water right number: 51-04003

Daytime Telephone Number:

Evening Telephone Number:

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

2. Describe the changes you wish to make in the proposed recommendation:

*include conveyance loss
add pld in SWSENE, S28 (shares pld with
Dave Lahtinen)
add additional land as shown on ASCS photo*

3. Give a brief explanation as to why you disagree with these portions:

 I AGREE with this proposed recommendation; no changes need to be made.

TRIB: BRUNEAU RIVER Jacks Creek					—	—
REVIEWED BY: <u>fw</u>					—	—
DATE: <u>7/13/98</u>					—	—
SYSTEM DESCRIPTION:						

Water is used from drain ditch which originates at Sec. 28, T5, 4E ← I believe this ~~is~~ should be recommended as wastewater for the source. This water mostly consists of early flood water. There is a direct diversion from Jacks Cr. which is a shared diversion with Sellman.

MANNING EQUATION CHANNEL CAPACITY RESULTS

10-25-1993

File Number: A5104003

Claimant: PAUL MILLER

Channel measured: DITCH FROM JACK'S CREEK

Date of measurement: OCTOBER 12 1993

Measurement location:

SENE SEC 18 TWP 7S RGE 5E

Calculation prepared by: KAY WALKER

Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 344 feet.

The upstream and downstream rod readings are 4.65 and 7.01 feet.

The channel cross section is 2.67 ft-sq.

The wetted perimeter is 4.53 feet.

The hydraulic radius is 0.59 feet.

The slope is 0.0069

The roughness coefficient is 0.0300

The flow velocity is 2.892 ft/sec.

The rate of flow is 7.72 cfs.

CROSS SECTION NUMBER 1

For File Number A5104003 for the DITCH FROM JACK'S CREEK

Number	Rod Reading	Water Depth	Distance
1	0.00	0.00	0.40
2	0.50	0.50	1.00
3	0.90	0.90	1.50

RE: Notice of Claim to a Water Right No. A51-04003

Paul &/or Jessie Miller
HC 85, Box 168
Bruneau, ID 83604

Dear Claimants:

We are currently in the process of reviewing and preparing Notice of Claim No. A51-04003 for court decree in the Snake River Basin Adjudication. During this review a question arose concerning the flow rate claimed for the 240 acres of irrigation from Jacks Creek and an unnamed ditch.

This claim was filed claiming 9.0 cfs for 240 acres, which is approximately 1.88 inches of water per acre. Idaho water law states that the normal duty of water in Idaho be limited to 1 inch of water per acre, unless it can be shown that more water is needed. In order to determine if more water is necessary, the enclosed Irrigation Flow Rate Questionnaire must be completed. Once this form is completed and returned, the Department can then determine if more than 1 inch per acre is needed. Please complete the questionnaire and return it to this office within 30 days. If we do not receive the completed questionnaire within this amount of time, we will recommend 1 inch per acre for the lands to be included under our recommendations.

If you have any questions in regard to this matter, or feel that you need more time to complete the excessive flow form, please do not hesitate to contact me.

Sincerely,

KAY WALKER

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that Clarence A. &/or Virginia M. Miller
(name of claimant)

of Box 168 Star Route B, Bruneau, ID 83404, claims a right to the diversion and beneficial use of
(mailing address)

the public water of the State of Idaho

The extent and nature of said claim is as follows:

- (1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Jacks Creek and
drain ditch, tributary to, Bruneau River

- (2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount	9.0	Use Irrigation	Period of Use: From April 1 To Oct. 31
--------	-----	----------------	--

Amount	Use	Period of Use: From	To
--------	-----	---------------------	----

Amount Use Period of Use: From To
(cfs, gpm (dom., irri., (both dates inclusive)
or a/f) stock, etc.)

- (3) Total quantity of water claimed: 9.0 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.

- (4) Priority claimed: (the date water was first applied to beneficial use) 1880

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

- (5) A) Point of diversion: (give location of point where water is diverted from its source)

SE ¼ NE ¼, Sec. 28 Twp. 7S Rge. 4E B. M. County of Owyhee

Additional points of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$ - Sec. 18, T. 7 S, R. 5 E, SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 18, T. 7 S,
R. 5 E from drain ditch

- B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Gravity diversion from both points of diversion

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

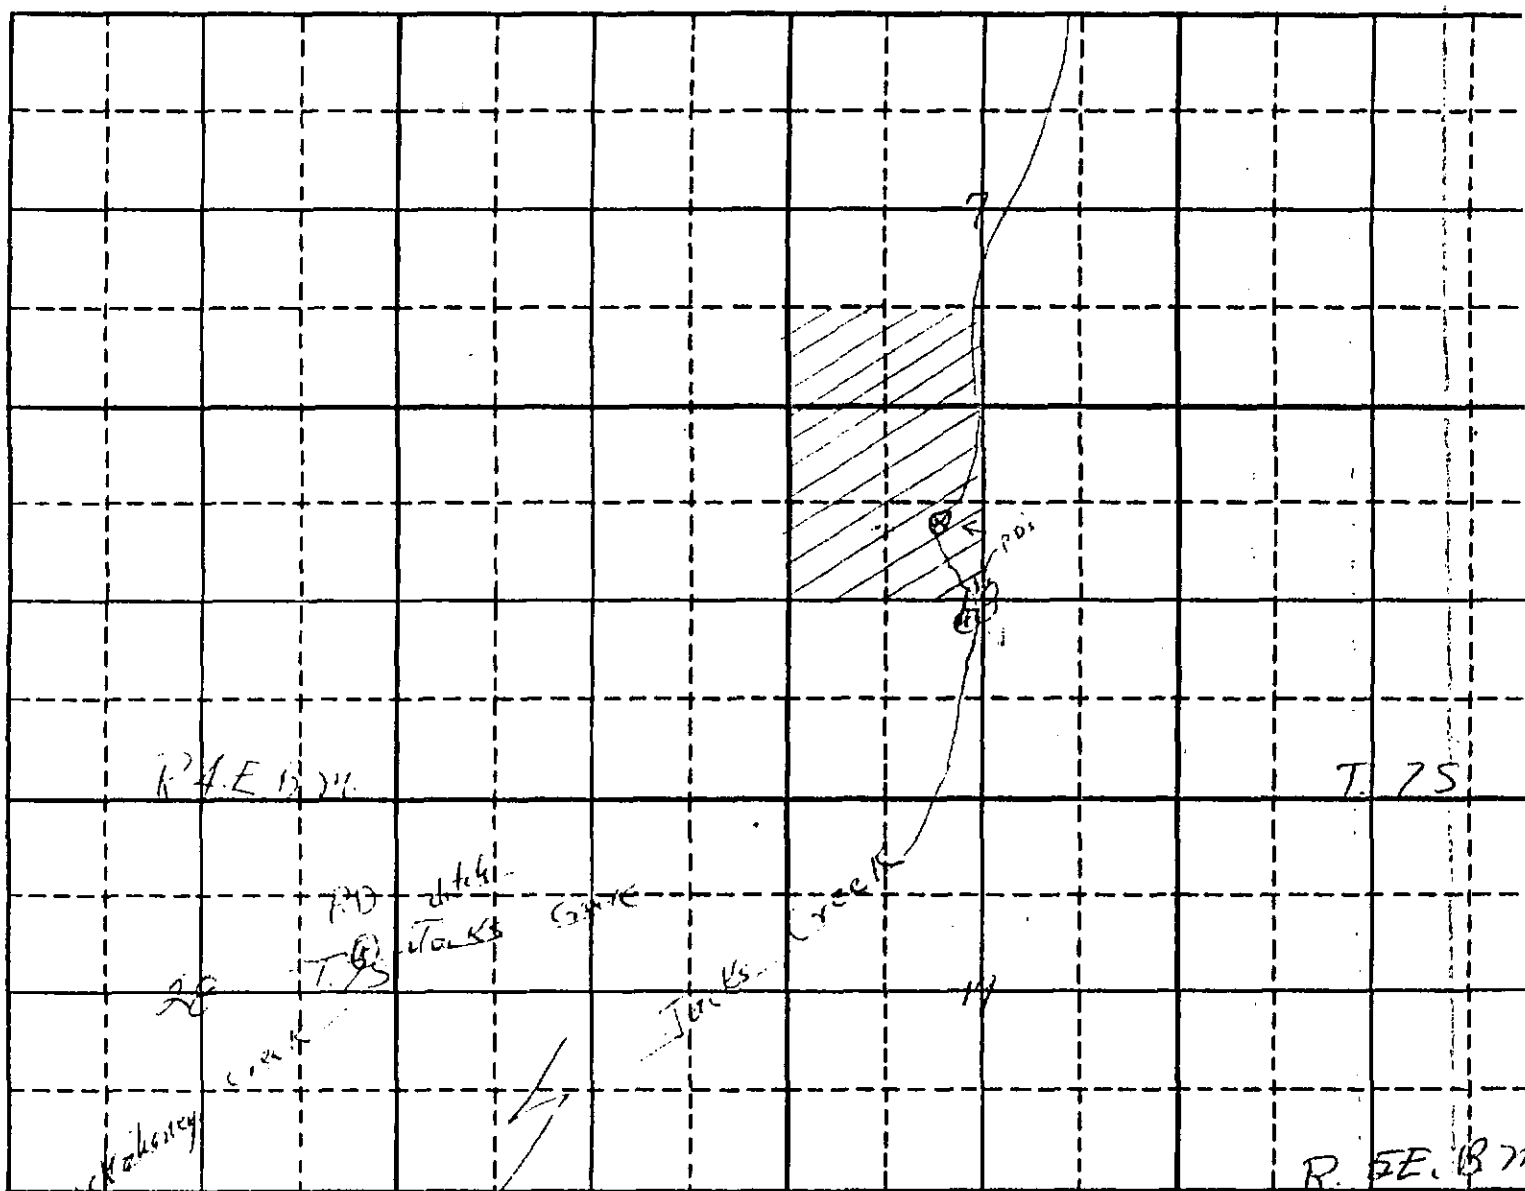

Total No. of acres 240

- B) If the water is used for other than irrigation, fully describe that use, being as specific as possible:** _____

- (7) If you are claiming water as a member of an organization, list name of organization: _____

(8) Remarks

51-4004-20 SAME P/d

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

State of Idaho)

County of Ada)

ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiants knowledge.

Sworn to before me this 26th day of August, 1974.

RE: Claims filed in the Snake River Basin Adjudication

Paul &/or Jessie Miller
HC 85, Box 168
Bruneau, ID 83604

Dear Claimants:

We are now conducting water right claim verification examinations in your area. An examination is needed to verify your water use in order to issue a water right license and/or decree. Information on your claims which may need to be verified include source of water, type of usage, amount of water used and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which must be completed this summer, please contact me at (208)334-2190 to make an appointment at a time that is convenient for you. Although it is not mandatory that you accompany me, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany me it would be appreciated.

If you have any questions in regard to the exam verification, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

To: Idaho Water Resources
By: Albert Black
For: Paul Miller

To whom it may concern;

This is in response to your request for evidence supporting priority of beneficial use for Jack Creek claim #A51-04003 and groundwater source artesian well claim #A51-04004.

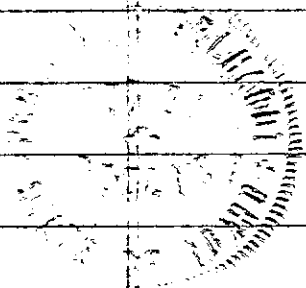

I, Albert Black state that I started farming this place then owned by Dillard Sawyer. Legal description T-07s, R-05e, T 7, T-07s, R-05e, S-18 in 1943. I used water from Jack Creek to irrigate alfalfa hay, alfalfa seed, wild meadow on said property.

In or about the year of 1947 I had Babe Glineski drilled a well which was artesian water. The well was drilled beside the existing well that was there when I acquired the said property. The water from both these wells were used to irrigate hay & seed crops.

And I also have personal knowledge that my uncle James Black owned the

ranch above stated. At the time
I was a boy and used to help
on the ranch. And the creek
water was used to irrigate crops
and water livestock.

By: John Glidden

For: Paul Miller

To whom it may concern;

I John Glidden in 1936 thru the 1950's was employed by Laurie Lahtinen who's place neighbors with what is now the Paul Miller ranch, legal description T 07s, R 05e, S 7, T07s, R 05e, S 18.

I witnessed the water from Jack Creek being used to irrigate alfalfa crops, wild meadow hay and for stock water. It was also my responsible along with the Blackboys to keep the creek ditch maintained cleaned and flowing.

And also on or about 1948 I recall the artesian well being drilled for Albert Black by Babe Glineski. This water was also used for irrigating wild meadow hay, alfalfa and being used for stock water.

To: Idaho Water Resources

By: Ace Black

For: Paul Miller

To whom it may concern;

This is in response to your request for evidence supporting priority of beneficial use for Jack Creek claim #A51-04003 and groundwater source artesian well claim #A51-04004.

I Ace Black to the best of my memory can recall being present when my Father Albert Black had the artesian well drilled on the Kiefer Place, legal description T 07s, R 05e, S 7, T 07s, R 05e, S 18 in 1947. I can also recall having to clean out the creek ditch. Burning weeds and brush to put the water from Jack Creek into the ditch. And later having to pitch weeds and rabbit turds out when it dammed the water. The water in the creek ditch went from Jack Creek to the Kiefer Place. The creek water and the well water both were used to irrigate the Kiefer Place. In the winter the water was used to water the stock which were wintered there.

R. KEITH HIGGINSON
DIRECTOR

PAUL MILLER
JESSIE MILLER
HC 85 BOX 168
BRUNEAU ID 83604

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
