IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: **A51-04024**
Date Received: 1/11/1989
Receipt No: C005053
Received By: _____

**NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW**

1. Name: BARBARA LAHTINEN 208-845-2208
Address: HC 85 BOX 167A
BRUNEAU ID 83604

AND/OR

Name: DAVID LAHTINEN 208-845-2208
Address: HC 85 BOX 167A
BRUNEAU ID 83604

2. Date of Priority: JUN 1, 1867

3. Source: LITTLE JACKS CREEK Trib. to: BIG JACKS CREEK
BIG JACKS CREEK JACKS CREEK

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4	Lot	County
07S	04E	28	SW	SE	NE		OWYHEE

5. Description of diverting works:
DAM AT CONFLUENCE OF LITTLE & BIG JACKS CREEK, DITCH-GRAVITY IRR

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
IRRIGATION	03/15	11/15	39.600		

7. Total Quantity Appropriated is:
39.600 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 1320.0 Acre Feet Per Annum.

9. Non-irrigation uses:
NONE

10. Place of Use:

Township	Range	Section	1/4	of	1/4	Lot	Use	Acres
07S	04E	13	NE		NE		IRR	40.0

FACT SHEET

for

Excessive Irrigation Flows

This information is to be submitted with any application for permit or adjudication claim to water right for which the irrigation rate of flow requested/claimed is more than .02 cfs per acre. One exception is that .03 cfs per acre is allowed for up to five (5) acres.

Soil type and soil profile: See attached SES form

Soil water holding capacity: _____

Soil intake family (if known): _____

Field slope: _____

✓ Anticipated crops: All Crops

✓ Method of irrigation: sprinkler and gravity.

ADJUDICATION CLAIM ONLY:

Is this method of irrigation the common local practice? yes

Have you changed the irrigated method from the one first developed? _____

If yes, describe. yes some sprinkler on well.

Remarks Land is a very sandy loam and takes and holds a large amount of water. Also has 4 miles of sandy loam ditch from to the point of useage.

Dear Mr. Lahtinen:

As I told you on the telephone this morning, I have revised the recommendations of your claims as referenced above. Enclosed, for your information, are GIS shape files for each claim and a profile report which describes the rights as I have recommended them.

If you have any questions or comments regarding these new recommendations, we should get together and discuss them before the end of next week. Please do not hesitate to contact me if you find we still have problems with your recommendations.

Sincerely,

A handwritten signature in cursive script that reads 'Kay'.

Estimating Conveyance Loss - the Worstell Method

Claim No (s) : A51-04024

Field Exam Date: June 17, 1993

Prepared by: Roxanne Brown

Formula: $[(W)(I)(0.667)] \times L$

0.0667

where: W = top width of ditch high-water mark (ft)
I = loss rate of soils (ft/day) - from table below
L = length of ditch (mi)

Table:	Type of Soil	Loss Rate (I) ft/day
	medium clay loam	0.5 to 1.5
	impervious clay	0.5
	medium soils	1.0
	somewhat pervious soils	1.5 to 2.0
	gravel	2.5 to 5.0

Calculation:

where: W = 2.0
I = 2.0
L = 3.50

loss = 9.338

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: September 4, 1998

Water right number: 51-04024

BARBARA LAHTINEN
DAVID LAHTINEN
HC 85 BOX 167A
BRUNEAU ID 83604

Daytime Telephone Number:

Evening Telephone Number:

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

This water right has a point of diversion at the confluence of Little & Big Jacks creeks. The earliest right on both creeks combined ~~at~~ ^{is} ~~the~~ ^{Little} ~~ditch~~ ^{diversion}

2. Describe the changes you wish to make in the proposed recommendation:

That the SWNE $W\frac{1}{2}$ SE of sec 13, 75, 5E be added to it. This is part of the 800 inch. right of the Goodall ditch of which we own 100% of.

3. Give a brief explanation as to why you disagree with these portions:

This water right is for both Big & Little Jacks. & covers all of our home Ranch.

☐ I AGREE with this proposed recommendation; no changes need to be made.

Memorandum

To: FILES
From: Kay Walker
Date: 08/17/98
Re: Photographs & field visit notes of 6/17/1993

See file A51-02047 for photographs and field notes from visit at this place on June 17, 1993.

STATE OF IDAHO DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243 Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that David and/or Barbara Lahtinen

(Name of Claimant)

Box 167A, Bruneau, ID 83604

(Mailing Address)

Telephone No. 845-2208

(Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 6/01/1867

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Jacks Creek & Drain ditch tributary to Snake River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed.

	(cfs, gpm, AFA)	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive) (Mo., Day)	
Quantity	2.0 cfs	Use Irrigation	Period of Use From 3/15	To 11/15
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To
Quantity		Use	Period of Use From	To

- (4) TOTAL QUANTITY USED

(cfs, gpm, AFA)

- (5) A) Point of diversion: (Location of point where water is diverted from its source)

SE 1/4 NE 1/4 Sec. 28 Twp. 7S Rge. 4E B.M., County of Owyhee

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Concrete diversion and 3 to 3 1/2 mile ditch

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTAL
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
7S	5E	18									40	40	40	40					160
7S	4E	13	40		40	40								40	40	40	40		280

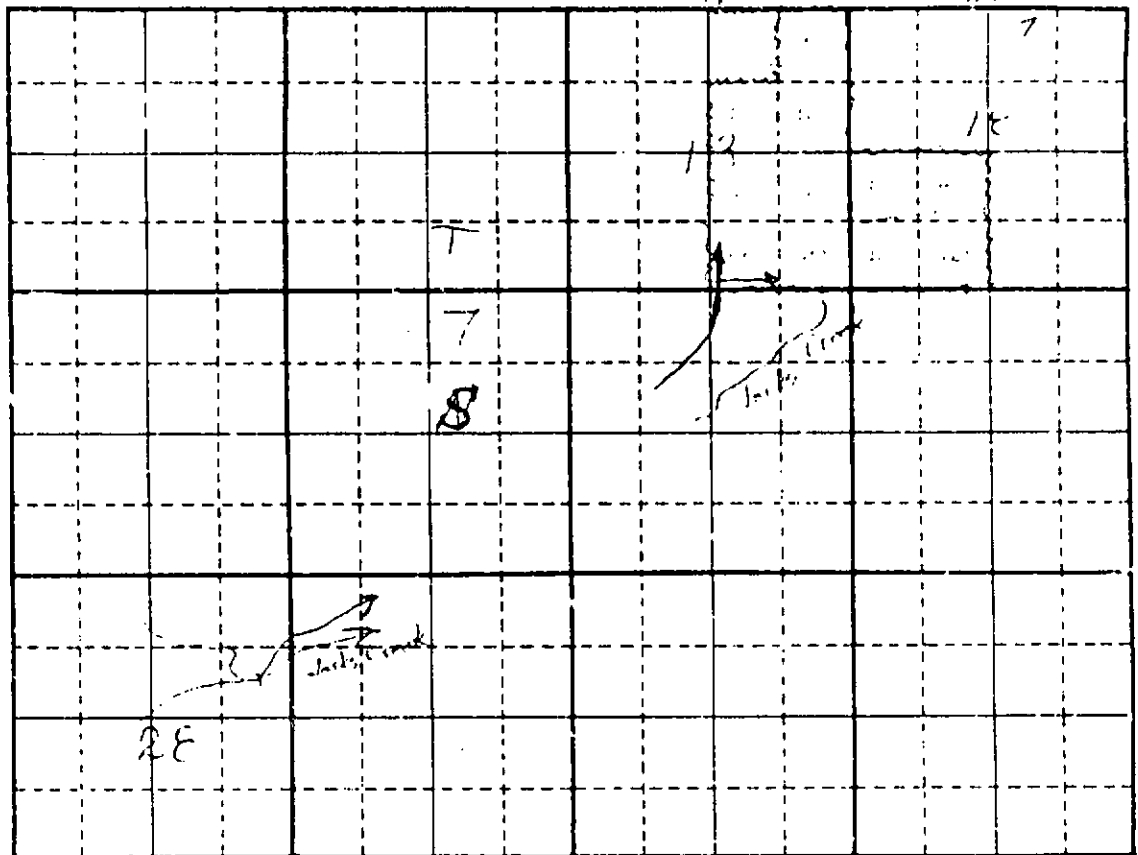

No. of acres 440

B) If water is used for other than irrigation, fully describe that use, being as specific as possible.

NOTE: Include here the type and number of stock watered:

- (7) If you are claiming water as a member of an organization, list name of organization:

(5) Remarks: This claimed right evidenced by deeds and abstracts of Henry Robinson original homesteader in Little Valley, Idaho Territory. Also in files of Anderson, Kaufman, Anderson and Singart, law firm in Boise.

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40 acre subdivisions, section, township and range of the public land survey system.

State of Idaho

County of Blaine

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiant's knowledge.

Sworn to before me this 5 day of March, 1980.

conveyance ditch to 3.5 mi. long (see 675)

Claim No(s) : A51-04024
Prepared by: Roxanne Brown

Estimating Conveyance Loss - the Worstell Method
Field Exam Date: June 17, 1993

Formula: $[(W)(I)(0.667)] \times L$

where: W = top width of ditch high-water mark (ft)
I = loss rate of soils (ft/day) - from table below
L = length of ditch (mi)

Table:	Type of Soil	Loss Rate (I) ft/day
	medium clay loam	0.5 to 1.5
	impervious clay	0.5
	medium soils	1.0
	somewhat pervious soils	1.5 to 2.0
	gravel	2.5 to 5.0

Calculation:

where: W = 2.0
I = 2.0
L = 3.50

loss = 19.338

MANNING EQUATION CHANNEL CAPACITY RESULTS

06-18-1993

File Number: A5104024

Claimant: DAVID LAHTINEN

Channel measured: LITTLE JACKS CREEK

Date of measurement: 06171993

Measurement location:

S1/2NE1/4 S28 T07S R04E

Calculation prepared by: KAY WALKER

Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 209 feet.

The upstream and downstream rod readings are 9.96 and 10.57 feet.

The channel cross section is 8.30 ft-sq.

The wetted perimeter is 9.30 feet.

The hydraulic radius is 0.89 feet.

The slope is 0.0029

The roughness coefficient is 0.0430

The flow velocity is 1.736 ft/sec.

The rate of flow is 14.41 cfs.

CROSS SECTION NUMBER 1

For File Number A5104024 for the LITTLE JACKS CREEK

Number	Rod Reading	Water Depth	Distance
1	0.00	0.00	0.00
2	0.63	0.63	2.20
3	1.35	1.35	3.40
4	1.49	1.49	4.50
5	1.50	1.50	5.80
6	1.25	1.25	7.00
7	0.40	0.40	8.00
8	0.00	0.00	10.00

The area for this cross section is 8.26 square feet
and the wetted perimeter is 10.67 feet.

CROSS SECTION NUMBER 2

For File Number A5104024 for the LITTLE JACKS CREEK

Number	Rod Reading	Water Depth	Distance
1	0.00	0.00	0.00
2	1.90	1.90	1.40
3	1.90	1.90	2.40
4	1.85	1.85	3.40
5	1.42	1.42	4.60
6	0.00	0.00	6.40

The area for this cross section is 8.35 square feet
and the wetted perimeter is 7.93 feet.

BARBARA JAYO, Recorder

Title

By Julia Prescott, Agent

March 7, 1993

To Whom it may concern:

I John Glidden, being of sound mind and body at the age of 84 do solemnly swear and testify as to the use of the waters applied on the ranches of David and Barbara Lahtinen.

The ranch was put into production by R.M. Stone, the first white settler to settle in Little Valley, and was irrigated by a diversion dam and a 4 mile ditch out of Jack Creek. This is the same 1860's.

The ranch later was purchased by James Harrison Black, daughter and son-in-law of the Stones. It was later purchased by James Fletcher Black from James Harrison. Lauri and Fay (Black) Lahtinen purchased it from James Fletcher and in later years was purchased by David and Barbara Lahtinen.

Much of this ranch was put together from several different filings and they all used the same ditch and diversion from the creek and were purchase by the Blacks before the turn of the century. The description of the lands are: 7S-4E-13 W2SE, SWNE, E2F2 7S-5E Sec. 19- NFSW lots 3, 4, SESW, 7S-4E Sec. 27 S2NE, NW1.

The claim # A51 4093 were two small wells drilled about 1910 as was the claim # A51 04095. These were all used to irrigate adjoining lands and later had tropical fish. Claim # A51 14094 is several springs pooled together and use to irrigate adjoining land and also had tropical fish. This was filed on in the late 1800's by Henry Roberson.

RECEIVED

MAR 9 1993

Department of Water Resources
Western Regional Office

51-10120
51-4095, 51-4014
51-4093, et al

Claim # A51 04024 Jack Creek was the main source of water and was used to cover all the ranch lands, but we must remember that this creek was often dry and these ranches really improved by the drilling of wells. Claim # A51 10120 is water claimed on Wickahoney Creek and is used on Sec. 27 7S 4E, S2 NE & NW 1/4's

I went to work for David's father Lauri Lahtinen in 1936 and continued to help him over the next 20 some years and can still attest to the use of these waters.

John Glidden

THE UNITED STATES OF AMERICA.

To all to whom these presents shall come, Greeting:

Certificate

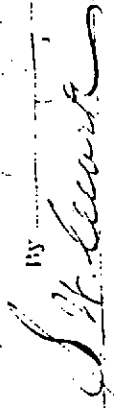

No. 453

Whereas Henry Robertson of Quaylee County, Idaho Territory, has deposited in the General Land Office of the United States a Certificate of the Register of the General Land Office, Boise City, Idaho Territory, whereby it appears that full payment has been made by the said Henry Robertson for the sale of the Public Lands, and the amounting to the provisions of the Act of Congress of the 21st of April, 1862, entitled "An Act making further provision for the sale of the Public Lands," and the said Henry Robertson has been duly sworn and the north-east quarter of the south-west quarter of section eight in township one north, range five east of Boise Meridian in Idaho Territory containing one hundred and nine acres and fifty seven hundredths of an acre, returned to the General Land Office by the Surveyor General, which said tract has been purchased according to the Official Map of the Survey of the said Lands, returned to the General Land Office by the Surveyor General, which said tract has been purchased by the said Henry Robertson.

Now know ye, That the United States of America, in consideration of the premises, and in conformity with the several Acts of Congress in such case made and provided, have given and granted, and by these presents do give and grant, unto the said Henry Robertson, and to his heirs, the said tract above described: To have and to hold the same, together with all the rights, privileges, immunities, and appurtenances, of whatever nature whatsoever belonging, unto the said Henry Robertson, his heirs and assigns forever, subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with such water rights, as may be recognized and acknowledged by the local customs, laws, and decisions of courts, and also subject to the right of the proprietor of a vein or lode to extract and remove his ore therefrom, should the same be found to penetrate or intersect the premises hereby granted, as provided by law.

In testimony whereof, I, Chester A. Arthur, President of the United States of America, have caused these presents to be made Patent, and the Seal of the General Land Office to be hereunto affixed.

Given under my hand, at the City of Washington, the 11th day of March, in the year of our Lord one thousand eight hundred and eighty-two, and of the Independence of the United States the one hundred and tenth.

"WATER RIGHT"

Notice is hereby given that we the undersigned, have this day located a Water Right to be taken out of Big Castle Creek about $\frac{1}{2}$ mile above where Little Castle Creek empties into Big Castle Creek. We claim 1000 inches of water to be conducted in a ditch to be 4 ft. on the surface, 3 ft. on the bottom and 2 ft. deep, to be taken out on the west side of said Castle Creek for the purpose of Irrigating on land adjoining said Castle Creek. We claim all the privileges granted by the Laws of Congress and the Laws of Idaho Territory, respecting Water Rights.

Castle Creek, Owyhee Co., Idaho Territory, Oct. 30" 1882.

Mr. J. F. Black,

Bruneau, Idaho.

Dear Mr. Black:

Enclosed you will please find the
copies of six filings of Water Rights by Henry
Roberson, J. E. Hill and Langdon, Stone and Slack.
We are unable to find any filing of Robert C.
Duncan but if you can give us any information as
to who did the filing for his right we will be glad
to make a further search.

The County's fees for making the
copies amounts to \$1.40 which you may remit at your
pleasure. You did not state that you wished same
certified to, but if you do you may return them and
we will add the certificate of the office, which
would be 25 cts. each additional.

Respectfully yours,

Asher A. Getchell

"WATER RIGHT"

NOTICE

The undersigned intend to claim and hold all the water arising from a Spring situate about 40 yards south west of the corner of my south west corner of land known as the Kearney Ranch, being 25 inches more or less. Said spring is situate in Little Valley, Owyhee County, Idaho Territory, and I shall claim the water of said spring for the purpose of irrigating the above described land.

I intend to direct and conduct the said water on said land by means of a ditch 18 inches on top in width, and 1 ft. on the bottom in width and 8 inches in depth.

Dated Owyhee Co. I. T., Aug. 10, 1882.

Taken from the Owyhee Avalanche, March 5, 1870 (page 2, col. 3)

From Bruneau--A correspondent of the Chronicle, writing from Bruneau Feb. 10th, says:

I propose to give you a few items from this part of Idaho, as but few persons in the country know anything about this valley which is undoubtedly the garden of Idaho. I was surprised beyond all expectations on coming here to find the green grass fully six inches high and the stock of all kinds rolling fat. This is undoubtedly the finest climate in the Territory, as not a particle of snow has been seen here this winter. The lower Bruneau valley is about twenty miles long by two wide, every foot of which is the best kind of land--consequently will admit of about 150 settlers. At this time there is only about 40 ranches taken and none of them older date than last July. I am astonished how such a fine valley has lain dormant so long when there has been such a rush for land in other regions of the country, and this goes to prove that the country is not half prospected. I am told by those that have lately made an examination of this and the surrounding valleys that there is sufficient good mining and farming country to have a new county organized. There has been good mining ground discovered at or near the head of Bruneau. Parties are going daily from here to Cope and find little snow in the way, and if we could only get a ferry established at Three Islands we would have a shorter ~~way~~ route by at least 75 miles from your city to Cope than by any other route. I am informed that from the Three Islands the distance will not exceed 20 miles to Boise City, besides the route will be far better than the old route by Fruit's Ferry. It is claimed that the distance from here to Cope does not exceed 65 miles.

The farmers are busily plowing and planting, with an energy that cannot be surpassed. All kinds of small vegetables will grow here to perfection, some of which are large enough to eat, such as lettuce, onions, radishes, and others. Can any other part of Idaho or any other place beat that? There will be a considerable breadth of grain sown, with lots of old fashioned corn, and one party is preparing to plant Chinese sugar cane, which, he says, will grow far better here than in Iowa, where he raised it extensively and sold the syrup for 25 cents per gallon. Just think of the difference in the price there and here. Who knows but Idaho may make her own syrup yet, besides a great many other things that cost enormous prices? Another thing, this valley beats any part of Idaho for hogs, the country is full of camas which makes fine summer feed. Then will come the big Missouri corn to put the finishing touch on, that far excels your Middleton correspondent's peas. In conclusion, I will say that all this part of Idaho wants is settlement and a little time to make it the garden spot of the Territory, and I deem it my duty to make its advantages known through the columns of your ably conducted and widely circulated paper. You may hear from me again.

R.M. Stone - first white
settler in Little Valley.

DAVE LAHTINEN FILE INFO

Home Ranch for Stone, et al - 51-4024
1882 established via this date for Little Vall

Anyhee Outpost 1970

No fences, no corrals! Each man rode in and took his turn. Each outfit had its own "Chuck Wagon" and its own Chinese cook.

Many were the settlers that came by the covered wagon route, or later to Kelton, Utah or Elko on the train and from there in the wagons. The Valley prospered. Bank accounts grew. It was no uncommon sight to see fifty or more saddle horses tied up to the hitching rack in front of Ramsell's Store and Bar, on the West side of the river. Change smaller than a dollar was hardly thought of. Quarters were rare, and pennies, nickels and dimes were unheard of.

Arthur Penob married Sidney Wells at the T Ranch Oct. 5, 1877. This was the first wedding in the valley. Romance was in the air, the first two men, Miller and Walters, who brought the longhorns into the Valley, married the Harley girls from Silver City. Charley Crabb and Chris Olson married the Strickland girls, daughters of Red Strickland.

Each fall when the buckaroos had pushed the cattle down into the lower valleys, there would be a week of horse races on the flat above the store, and people came from long distances, bringing their beds in their wagons, or staying with friends in the Valley. Poker games were played at night by the men; sometimes these games would last through several days and nights. The women would be busy sewing on new dresses to be worn to the dance, which was always given the last night of the races, and was given by "Aunt" Eliza Black and lasted till the wee small hours of the morning, or better still until the sun came up. The midnight suppers were spread on two long tables upstairs, and most delicious cakes and pies, meats, fruit jams, all cooked by the magic hand of Aunt Eliza. Tickets were \$1.50 to dance all night and eat all you possibly could and be sure to eat a good breakfast before you left. What a time they had!

Here's a Cowboy Song

When I was young I was a reckless lad
Lots of fun with the gals I had,
I took one out each day for a ride
An' I always had one by my side.

I'd hug 'em and kiss 'em just fur fun;
An' I've proposed to more'n one.
If there's a gal here got a kiss fur me
She'll find me as young as I used to be.

Hi rickety whoop to' do
How I love to sing to you.
OH! I could sing and dance with glee,
If I was as young as I used to be.

Then came the winter of 1888:

Winter came early, and snow storm after snow storm came, zero weather set in. Snake River froze from bank to bank. Cattle would crowd out on the ice in an effort to find drinking water, the ice would break and great bunches would sink, this was to be repeated day after day. Other bands drifting before the storms would pile up in gullies and the calves and younger stock and the weakened ones were trampled.

All hands rode desperately as they tried to stop the drifting cattle, or at least guide them. Cowboys and horses suffered. Cowboys with frozen feet and hands—one or two died in the drifts. Finally they had to give up! The moaning and bellowing continued far into spring.

Spring came late and with it the mud. Mud that would mire a saddle blanket. Goole mud in the flats, and sticky mud in the hills.

The survivors of those vast herds were few and far between as the cattlemen began their count of the animals that were left. This marked the end of the Big Cattle Industry in Buneau Valley. The cattlemen were BROKE!

That summer Dan Murphy gathered the remains of his herd, and already having large holdings in Nevada, made his headquarters in North Fork, and many of his Spanish vaqueros went with him and later married and made homes of their own in Nevada.

It was several years before Barney Horn left the "T" Ranch but after a few years he shipped the remains of his herd to California, and sold the "T" Ranch to Johnny Mitchell.

HISTORY DOES NOT ALWAYS MAKE JUST AND ADEQUATE RETURNS TO THE SOULS WHICH HAVE CREATED IT. It is often whimsical and partial, celebrating as heroes mere opportunists, and letting the pioneers, the real crusaders, go by unclaimed, unhonored.

Only the local cattlemen had the faith to begin new herds with better stock but they also built up their ranches, and cut hay for the winets. Their orchards grew tall and produced abundantly. Children grew to man and womanhood and the children of the first families married and began homes of their own.

The postoffice had been moved from the B.F. Hawes place to the Wm. Schenck cabin in the extreme end of the Valley several years before. Mr. Schenck was also the Justice of Peace, and married most of the couples. He was a college graduate, who talked very little about his past. He came into Silver City when only a young man. He died at the Fet Black place in 1905, and a nephew from Iowa turned up to claim the estate, which consisted of two horses, a yearling, and an old wagon. But he had the respect of everyone who knew him, and had left little dugouts in the hills from Silver City to Three Creek, to show his independence. He asked favors of no one.

The Abram Roberson family came to the Valley in 1869. They were the most kind people and became good friends with the Indians who lived in the Valley and Mr. Roberson was known to them as "Papa."

Chuyser Outpost 1970

It was the Robersons who built the famous Bruneau Cave which was used many times, and undoubtedly saved the lives of many of the early settlers of the Valley, especially when the Bannocks came through in 1878. When they killed Jack Sweney in Little Valley and Fletcher Hayes at Big Springs. The Abram Roberson's were the parents of five sons: Poss who built the first ferry boat over the Snake River between Bruneau and Mountain Home, and whose son Otis still lives in town. Sam, who never married. Steven, who was the father of Mrs. Henrietta Miller who lives here, and Nuet, who has a great grandson, Fred Roberson who lives in town. After the Abram Robersons had been here several years, many of their friends and relation came from the East. Big Henry and his family, Ben Roberson and family, the Lewis family, the Johnsons, the Dunhams and the Hayse families, Jim, Bob and Abe Roberson. They were a colorful fun-loving group who worked hard and played hard, who loved a joke and many were the jokes they played on each other.

The four Pence brothers, who were brothers to Mrs. Abram Roberson, or Aunt Martha as she became known to the Valley, ran a large band of horses on the West side of the Bruneau Desert, built a log cabin there. Where they ran their horses and built their cabin is still known as the "JP" from the brand they used. All but Arthur left the Valley. He filed on the waters of Hot Springs and ran cattle there, later went into the sheep business and used Three Creek as their summer range. On their ranch in the Valley they raised quantities and excellent qualities of various kinds of fruit and vegetables. There was a natural hot spring which flowed about 250 inches of water about 98°. Mr. Pence built and maintained a bath-house there for all to come and bathe, the water contained a large amount of sulphur and was thought to have medical value. Swimming parties enjoyed it for years. It was too hot for most people and Mr. Pence kept a stream of cold water running through the spring. Their big white house was always open, and they loved company. Mr. Pence was a Representative to the State in 1909, and when his term ended he was chosen to represent the County in the Senate for two years.

When the Blacks came in 1876, they settled on a ranch in the lower or north end of the Valley; there they set out a large orchard and made a beautiful farm, and in a few years built a large lumber house, where Mrs. Black gave dances and suppers. When they first came to the Valley they spent the summers at Bull Run, where they milked cows and made butter which they sold to the miners. After the Indian uprising in 1878 they moved to Big Springs, and made butter there in the summers, churning by water power under the Big Cold Spring after the weather cooled in the fall, taking the butter to Tuscarrora and Silver City, where it brought a good price in gold. Grandma Black had the only loom and wove yards of carpet for herself and all the neighbors. Grandpa Black brought the mail from Silver City to Bruneau for eight years beginning in 1878, the last few years of his contract he carried it on to Glenns Ferry. Mr. Black was twice elected to the office of County Commissioner and took

6

a great interest in the building up of the community.

In 1877 Levi and Nancy Harris moved from Mountain City Valley and took up land and lived there until the Government dec a part of the Indian Reservation. They then came to Bruneau and Captain George Hill's place on the south side of the river. Harris, as she became known, took the place of a doctor; for man in the Valley she was always ready to go to the help of any could set a broken bone as well as any doctor. Mrs. Harris married before, and there were two sons by the former marriage and Dick Coats, who lived in the Valley many years. Dave never and Dick married a Nancy Coats although no relation. They had sixteen; I'll tell you something of Jess later. The Levi Harrises built story house on their place and it became known as the "Circle house still stands and the place is still the "Circle 2." Mrs. Harris one daughter, who married Al Loveridge, they bought the Snake Ferry from Poss Roberson and ran it for years, until the steel bridge placed it. They also built up a large band of horses and cattle. Harrises also had one son by this marriage, Alvin or Allie as better known. He married Nellie Thompson whose father was an officer of the Government when the Indian Agency first started at Duck Nell and Allie were married in 1891, and she came to Bruneau as She was small with black eyes, very witty, and liked a good time used to play the organ while Mr. Stine played the violin for the after the new hall was built in 1892. Mr. Stine drove the stage Bruneau to Wickahaoney. This was an overnight stop, then on to then Riddle, stay all night, and make the return trip. Every Tuesday, rain or shine the stage passed through Little Valley. On almost set their clock with the time Mr. Stine passed. He remembered Santa Claus without the whiskers. He was soft spoken and always We missed him when he no longer was here to play our favorite

Mr. and Mrs. J.L. Strickland lived at Hot Springs and were parents of four children. While working at the "T" Ranch in 18 Strickland was killed by a runaway team. Mrs. Strickland kept the ren together and for many years was Postmaster at Hot Springs. G died at the age of 92. She was always interested in tanning, and the Altar cloths at St. Marys in Boise has her tanning on it. Her grandfather Dave Noble, is Postmaster.

Maggie and Joe Taylor lived on the Diamond A for years, later ing to Grassmere, finally buying a home down the Valley about miles from town. Maggie was a little Shoshone girl who was visiting Hot Springs when the Bannock Indians came through in 1875, her Susannah and her stepfather Chick-Chop were camped at Meadow about four miles from Roland, Nevada. The Bannocks surprised the shot Susannah but the stepfather got away, and after running q

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
