Re: Notice of Claims to Water Right Nos. 51-04025, 51-04026 and
51-04051

Chester W. Sellman
HC 85, Box 169A
Bruneau, ID 83604

Dear Mr. Sellman:

Pursuant to your visit at our public meeting in Grandview, I have made changes to Claims 51-04026 and 51-04051. Enclosed, for your information, are profile reports showing the changes made. On Claim 51-04026 we have corrected the point of diversion location and removed the remark showing this point was shared with 51-04003. On Claim 51-04051 we have increased the amount of water recommended, based upon the affidavit you submitted in Grandview. Please note that since the diversion rate was increased, the annual diversion volume for this right was also increased. We have also corrected the location of the wells as shown on the layout you received at the meeting.

Also, pursuant to your request, enclosed is a "Request for Withdrawal of Claim" form. If you are still interested in withdrawing Claim 51-04025, this is the form you should submit. I have completed part of the form for your convenience. I reviewed the place of use that I had recommended under this claim and found Claim 51-02143 also covers that 28 acres. You are not eligible for a refund of your filing fees on this claim since it had been prepared for decree. If you decide not to withdraw this claim, it will be recommended to the court as shown on the proposed recommendation you received.

If you have any questions in regard to your claims, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads 'Kay Walker'.

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

The system has a 20 H.P. centrifugal pump drawing water from a "pool" in a drain ditch that is created by a small earthen dam across the ditch. The water is pumped into an 8" mainline (underground approximately 1/2 mile long) with risers for wheel lines. 5 wheel lines were operating at the time of the exam (approximately 120 Rain Birds). This system also irrigates the land

Dear Claimants:

We are now conducting water right claim verification examinations in your area. An examination is needed to verify your water use in order to issue a water right license and/or decree. Information on your claims which may need to be verified include source of water, type of usage, amount of water used and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which must be completed this summer, please contact me at (208)334-2190 to make an appointment at a time that is convenient for you. Although it is not mandatory that you accompany me, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany me it would be appreciated.

If you have any questions in regard to the exam verification, please feel free to contact me.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
