MANNING EQUATION CHANNEL CAPACITY RESULTS

09-24-1993

File Number: *A51-04032*
Claimant: BLICK RANCHES
Channel measured: DITCH FROM THREE CREEK DIVERSION
Date of measurement: 9/23/93
Measurement location:

Calculation prepared by: LINDA WERNER
Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 232 feet.
The upstream and downstream rod readings are 4.26 and 6.20 feet.
The channel cross section is 0.83 ft-sq.
The wetted perimeter is 2.98 feet.
The hydraulic radius is 0.28 feet.
The slope is 0.0084
The roughness coefficient is 0.0550
The flow velocity is 1.054 ft/sec.
The rate of flow is 0.87 cfs.

Claim No. 51-4032

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that

Decrease number of diversions.

POD's are numbered in order of when the site was investigated.

The POD claimed on section 21, NE 1/4, is no longer used because of a dispute between Blick & neighbors, Row. He does not intend to use it as H₂O has been redirected by use of a flume thru another ditch which has solved the problem. It has been 4-5 yrs. since it was last used. As stated by Claimant. When we went to check this old site, he couldn't find it.

Hays Canyon was added as a source. There is no diversion & channel supplies the sub or wastewater from neighbors. The land in the S 1/2 NE 1/4 SE 1/4 of section 16 is irr. by wastewater.

The two licenses A51-2050 & A51-2105 are unnecessary as the decree covers all lands at an inch & a acre.

Claimant is not interested in reducing excessive flow. When I asked him about it he had no idea what it was. He combined both decrees & claimed the decreed amounts in the interest of keeping decree "as is." He

only bought the upper portion of the land.
(Section 9) 3 yrs. ago. (Approximately)
He is interested in receiving early waters

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
