HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For IRRIGATION purposes from APRIL 1 to OCT 31 amount 5 or _____

For STOCKWATER purposes from JAN 1 to DEC 31 amount .03 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 5.03 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is _____ acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) STOCKWATER - 500 Hd.

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4

		33	10	20				20											50
16S	8E	33	S															S	
		28			S					S						S		S	
		21					S			S	S			S					

Total number of acres irrigated 220

11. In which county (ies) are lands listed above as place of use located? OWYHEE

12. Do you own the property listed above as place of use? Yes X No _____

If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above. _____ or None ()

14. Remarks:

WATER IS ALSO USED FOR IRRIGATION ON THIS PROPERTY FROM DORSEY CREEK AND MIDDLE CREEK, WITH DIVERSION POINTS IN NEVADA.

MICROFILMED

AUG 10 1992

Last Name _____ Ident No. _____

Copies: White State, Yellow Claimant

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Map of Project: show clearly the point of diversion, place of use, section number, township, and range number.

Re: Type 2 Basin 51 Claims.

Dear Jan:

At the request of and as an accommodation to the following entities, enclosed are the following documents:

Three Creek Ranch Company

1. Notice of Error for IDWR License No. 51-02005 to correct the priority date contained on the IDWR's recommendation.
2. Notice of Error for decreed water right no. 51-00124 to remove the de minimus daily volume limit for watering livestock from IDWR's recommendation.

M. L. Investment Company

1. Notice of Claim to a Water Right for IDWR License No. 51-07279 along with a \$148.00 to cover the claim fee.

Echo Water User's Association, Inc.

1. Notice of Error for IDWR Permit No. 51-07292 to correct the IDWR's recommended Name and Address and Point of Diversion.

Buck Creek Ranch, Inc.

1. Notice of Error for water right no. 51-04040 to correct the IDWR's recommendation that this water right be disallowed. Attached to the Notice are an Affidavit of Vic Conrad and a Letter from Edward Strickland.

J. R. Simplot Self-Declaration of Revocable Trust

1. Notice of Error for IDWR License no. 51-02178 to correct the IDWR's recommended place of use. The ranch identified under this license is also known as the "Jacks Creek Ranch".
2. Notice of Error for IDWR License no. 51-02138 to correct the IDWR's recommended place of use. The ranch identified under this license is also known as the "Bell Brand Ranch".
3. Amended Notice of Claim for IDWR License no. 51-02138 to amend the place of use for this license (Bell Brand Ranch).

Should you have any questions about the enclosed documents please contact me. I look forward to working with you and your staff to resolve any concerns you may have with the enclosed documents.

Sincerely,

Vic Conrad

**NOTICE OF ERROR
REPLY**

RECEIVED
SEP 18 1998
WATER RESOURCES
WESTERN REGION

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation. **YOUR DEADLINE FOR RETURNING A**

NOTICE OF ERROR REPLY IS: September 18, 1998

Water Right Number: 51-04040

Buck Creek Ranch, Inc.
P. O. Box 27
Boise, Idaho 83707

Daytime Telephone Number: 208-336-2110

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

"Claim not Recommended No Lawful Appropriation Shown."

2. Describe the changes you wish to make in the proposed recommendation:

Attached to this Notice of Error are an Affidavit of Vic Conrad and a letter from Ed Strickland describing the beneficial use of water under this water right. On the basis of the information contained in the attached documents this water right should be recommended by the IDWR and decreed in the Snake River Basin Adjudication.

3. Give a brief explanation as to why you disagree with these portions:

The attached documents provide evidence that lawful appropriation was made under this water right.

_____ **I AGREE with this proposed recommendation; no changes need to be made.**

Buck Creek Ranch, Inc.

Re: "Jones Place" Owyhee County, Idaho.

Dear Mr. Shulte:

I was recently contacted by Vic Conrad, on behalf of the owner of the Buck Creek Ranch. Vic asked me if I would provide a letter explaining my earliest recollection of using water to irrigate the "Jones Place" which is now part of the Buck Creek Ranch. Irrigating land in this arid country is necessary to raise a hay crop.

I was born August 21, 1915, and my father raised cattle and sheep in Owyhee County. For a period of time my father leased the Jones Place where my family lived and I helped raise hay to feed cattle during the winter. Although I cannot recall the specific year my father began leasing the Jones Place, I do recall in 1935, after harvesting our hay crop on the Jones Place, it was stacked in a single stack. The stack caught fire burning our entire crop. As a result my family was forced to buy hay grown in the Bruneau Valley to feed our cattle through the winter.

Although I recall helping harvest hay crops on the Jones Place in years before the fire, I cannot recall with certainty the year we began leasing this land. The only year I recall with certainty is 1935, the year the fire burned our crop. I hope this information is helpful.

Sincerely,

Ed Strickland

RE: Evidence of Priority--Claim A51-04040

Dear Mr Conrad:

In two previous communications we requested Evidence of Priority information for the above referenced claim. To this date we have not received anything to support the "Priority Date" claimed. Since the claim is based on a Statutory Claim (beneficial use), if we do not receive substantial information to support a beginning use date for the water, we can only recommend the claim be disallowed. This recommendation if decreed by the court could jeopardize your water use under this claim.

Please submit proof of priority for the above referenced claim by July 24, 1995. If we do not receive evidence of priority or hear from you concerning this matter we will plan to recommend the claim for disallowal.

We still need to verify the usage claimed with a field exam. We should complete the field work this Summer. Please contact me within the next two weeks so that we can set a time for the exam and discuss the priority date information requested. My telephone number is 208-334-2190.

Enclosed for your information and assistance is a pamphlet titled "Evidence of Priority."

Cordially,

Mel Schulte
Sr. Water Rights Agent

Re: SRBA claim A51-04040 (N/O Buck Creek Ranch)

Dear Vic:

We will be preparing our recommendations for Basin 51 in the next two months. While reviewing the file for the above referenced claim, I note that we still lack evidence to support the June 1, 1930 priority date. Without some documentation to support the priority date, I will have to disallow the claim.

Claim A51-04040 requires a field exam including diversion rate measurements. After you submit priority date information, I want to schedule a field exam as soon as possible. My hope would be to conduct the field exam during the highest Spring flows in Dorsey Creek so that I can conduct live flow measurements in the diversion ditches at the most beneficial time. I will need your assistance in scheduling the field exam with your ranch manager.

If you have any questions please call me at the number below.

Sincerely,

Mel Schulte

Re: SRBA claim A51-04040 in N/O Buck Creek Ranch

Dear Vic:

I'm writing to again remind you that we need evidence of priority for the above referenced claim. Also, we still need to complete our field exam for the claim but will not until we receive the priority date information.

Sincerely,

A handwritten signature in cursive script that reads "Mel Schulte".

MANNING EQUATION CHANNEL CAPACITY RESULTS

07-06-1998

File Number: A51-04040
Claimant: BUCK CREEK RANCH
Channel measured: DORSEY CREEK DITCH
Date of measurement: 6/17/1998
Measurement location:

Calculation prepared by: SUE BOCK
Comments about the measurement:
200' TO 500' BELOW POINT OF DIVERSION

The results of the calculation are:

The length of the channel measured is 203 feet.
The upstream and downstream rod readings are 4.22 and 4.26 feet.
The channel cross section is 1.30 ft-sq.
The wetted perimeter is 3.20 feet.
The hydraulic radius is 0.41 feet.
The slope is 0.0002
The roughness coefficient is 0.0250
The flow velocity is 0.460 ft/sec.
The rate of flow is 0.60 cfs.

CROSS SECTION NUMBER 2

For File Number A51-04040 for the DORSEY CREEK DITCH

MANNING EQUATION CHANNEL CAPACITY RESULTS

07-06-1998

File Number: A51-04040

Claimant: BUCK CREEK RANCH

Channel measured: DORSEY CREEK DITCH

Date of measurement: 6/17/1998

Measurement location:

25' AND 300' BELOW POINT OF DIVERSION

Calculation prepared by: MEL SCHULTE

Comments about the measurement:

POD IN T16S

The results of the calculation are:

The length of the channel measured is 309 feet.

The upstream and downstream rod readings are 2.50 and 4.10 feet.

The channel cross section is 3.30 ft-sq.

The wetted perimeter is 4.93 feet.

The hydraulic radius is 0.67 feet.

The slope is 0.0052

The roughness coefficient is 0.0250

The flow velocity is 3.279 ft/sec.

The rate of flow is 10.81 cfs.

RE: Notice of Claim to a Water Right, A51-04040

Dear Mr. Graves:

In the past, you submitted the above referenced claim in the Snake River Basin Adjudication. This claim was filed based on a "Statutory" or "Beneficial Use". Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date".

Your claim has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water. Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement.

Please be advised that this is our second request for this information. Our first request was made on January 28, 1993. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this claim if water availability problems arise in the future.

Because your claim is based on a statutory usage and has not been previously verified, we will need to do a field exam. Please contact me within the next two weeks so we can set up a time to do the exam, and discuss the priority date information requested above. I can be reached at 334-2190.

Sincerely,

Linda A. Werner
Sr. Water Resource Agent

BOISE ID 83707

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
