SYSTEM DESCRIPTION:

"WILD FLOODING" - This Runet is irrigated mostly from two rather long ditches - one on each side below the canyon wall. Water flows toward the creek in the center and then diverted again to cover more land.

No-set times, diversions are left open as long as it has water available.

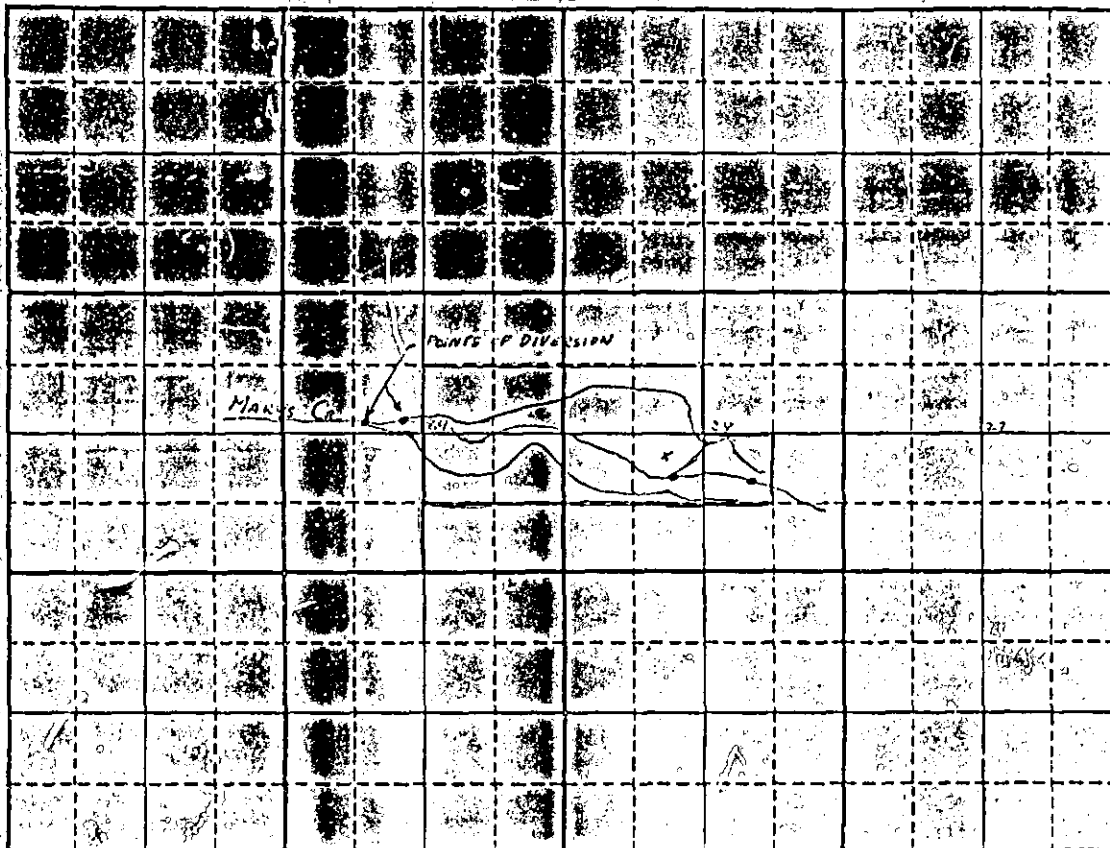

For Mary's Creek wild flooding is the common practice.

- Recommend full Decreed Amount...
- Conveyance loss is recommended on stat claim 4053. (this claim)

Ex R.
for

(8) Remarks

Due to the ground beneath the surface of the ground, it is necessary to use a large amount of water to effectively irrigate this land.

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

State of Idaho

County of Ada

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiant's knowledge.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.

Ref: A51-02012, A51-10136, A51-00078, A51-00087 & A51-04053

Dear Mr. Tindall,

A. The claim A51-10136 has been created to cover the expansion found from the field exam 10/5/93.

1) The fee for this claim is a \$50 flat fee plus \$7 for the dollar per acre not covered by previous fee's of expanded license claim A51-02012 for a total of \$57.

2). The date of priority must be added to this claim if you are to claim beneficial use between the dates 7 September 1911 and 1971 because the original field exam only found 75 acres on 7 September 1911. Proof of priority must be submitted for this date.

3). Sign and date the claim and have your signature notarized and add the date of priority, with proof of date, then send it in with the fee of \$57.

B. Excessive flow claims A51-00078, 87 & 4053:

1) Please send your excessive flow fact sheet questionnaire back with your above claim.

2) If the excessive flows are sufficient to satisfy claims 78 & 87 the statutory claim 4053 may not be necessary to cover the additional flows requested.

Please submit evidence of priority, the claim, your fact sheet and fee to this office within 30 day's of this letter.

Sincerely,

Ron Howerton
Senior Water Agent

Re: Snake River Basin Adjudication (SRBA)
Notice(s) of Claim No. -- Please see attached list
Change of Address

Dear Claimant,

*all records changed 8-23-94
P. Shuman*

IDWR has been notified by the Bruneau post office the address presently in our claim records is incorrect. Although I have reached you at the address above, I need you to confirm this is your correct mailing address. Future notices related to your SRBA claim can be sent only to the address on your claim or as otherwise changed by you. The staff of this agency must avoid relying upon the word of others about your mailing address.

If the address above is correct, please sign your name at the bottom of this letter, and return it to this office. Otherwise, please make the proper corrections, sign, and return this letter. Thank you for your help to make sure you receive the future notices we intend to send to you that will keep you notified about SRBA matters.

If the ownership of the property to which this water right applies has changed, please call this office toll-free at 1/800-451-4129 to obtain a form to make this required change to the claim record.

Sincerely,

Adjudication Bureau Staff
