4. A history of the reservoir is as follows: We purchased the Opal Dunn property in the winter of 1971. The former owners had filed on the water (see attachment) and had purchased new concrete pipe and headgate for a greatly enlarged reservoir below the spring. We decided to rebuild the old reservoir with the new pipe but on a much smaller scale than what the prior owner had planned. We had our own equipment (backhoe, cats, and carry all) so we started immediately that spring rebuilding the old reservoir. First replacing the pipe and then building the bank up. We were able to store some water until early May at which time we started to irrigate. Later that summer we finished placing dirt on the dam

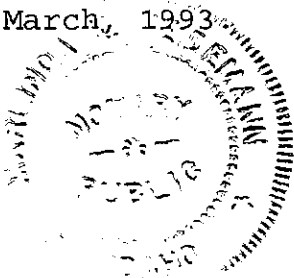

and constructed a large spillway to handle emergency high runoff.
In the fall we started placing rock on the face of the dam for
rip-wrapping to prevent water erosion, a practice that continued
for many years.

DATED this 11 day of March, 1993.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.

NOTE: ANOTHER CLAIM THAT WOULD HAVE REQUIRED EVIDENCE OF PRIORITY - CLAIM NO. A51-04005 - HAS HAD AN AFFIDAVIT SUBMITTED FROM ROLLAND K. PATRICK & RUTH C. SMITH TO SUPPORT THE 1915 PRIORITY DATE FOR WATER USE FROM CRAWFISH SPRINGS. THEREFORE, EVIDENCE IS NOT REQUIRED FOR A51-04005.
