If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.

7. Signature of New Owner or Claimant(s) Wilbur C. Mastre

(Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims..

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

MEMORANDUM

TO: File 51-07036

FROM: Pam Skaggs^{CS}/State Office

SUBJECT: Transfer 5354

DATE: February 19, 1999

Transfer 5354 changes and adds a second point of diversion under a portion of Right 51-07036, splitting the right into Parts A and B. The applicant purchased a portion of the property and wants to irrigate it with two existing wells that he owns.

The original right was licensed with a point of diversion overlap limiting condition that reduced the total rate of diversion available for transfer without creating an enlargement. Right 51-07036 was the third right licensed to the same well. The senior rights total 4.40 cfs and the capacity of the well is 5.53 cfs. Right 51-07036 was licensed at 0.02 cfs/acre or 1.45 cfs, limited to a total diversion of 5.53 cfs when combined with the senior rights.

$$5.53 \text{ cfs} - 4.40 \text{ cfs} = 1.13 \text{ cfs} / 72.6 \text{ acres} = 0.0155 \text{ cfs/acre}$$

$$0.0155 \text{ cfs/acre} \times 35.5 \text{ transferred acres} = 0.55 \text{ cfs}$$

$$5.53 \text{ cfs} - 0.55 \text{ cfs} = 4.98 \text{ cfs}$$

$$0.02 \text{ cfs} \times 37.1 \text{ unchanged acres} = 0.74 \text{ cfs limited to } 4.98 \text{ cfs combined rights total.}$$

Season of use and diversion volume was adjusted to current standards. Recommended conditions include measuring devices/multiple points of diversion, irrigation overlap and standard transfer conditions.

Renumbered Notice of Claim to a Water Right No. 51-07036B

Samuel D. Ward
HC 85, Box 141B
Bruneau, ID 83604

Dear Mr. Ward:

We have received and processed a Change of Ownership for a portion of the original claim to a water right number as referenced above. This change of ownership required a split of the original claim resulting in renumbering this claim by adding alpha suffixes to represent each split. The new preliminary recommendation for your portion (No. R51-07036B) is enclosed along with an updated GIS shape file for your records.

Please note that Mr. Mastre has filed an application for transfer to change the location of the point of diversion for his portion of the original notice as referenced above. However, that transfer has not been processed as of yet and I must include his portion of the claim in the remarks on your proposed recommendations. Once the transfer application has been approved his claim number can be crossed out of your remarks. Mr. Mastre's portion of this claim has been numbered 51-07036C.

If you have any questions in regard to this, please do not hesitate to contact our office.

Sincerely,

E. NARRATIVE/REMARKS/COMMENTS

Mr. Ward uses 17 sprinkler lines in spring and 16 sprinkler lines in fall. Each line consists of 32 sprinkler heads. At this time $\frac{1}{2}$ of the heads are $\frac{1}{8}$ " and $\frac{1}{2}$ are $\frac{5}{32}$ " nozzles. He is in the process of switching them all over to $\frac{1}{8}$ " nozzles. This is not the well that was permitted.

From well: 14" steel mainline $\frac{3}{4}$ of a mile; then 8" aluminum mainline $\frac{1}{4}$ of a mile; thence 6" PVC line delivering to place of use.

Per Mr. Ward this 72.6 acres is all the land irrigated from well water out of the 400 acres permitted. The remainder receives Snake River water & R water from Rt. 51-02229 (which is g.w. but only used when Snake River water is not available.)

Current owner of permit has been contacted to assign portion back to Mr. A. L. Trussell who owns this 72.6 acres.

RE: Assignment of Permit

Mr. Crum called today in regard to my request for assignment of a portion of this permit.

The loan which involved this permit was paid in full and Connecticut General Life Insurance Co. no longer has any interest in the permit. Therefore, Mr. Crum will change the assignment form to assign the entire permit back to Mr. Trussell. We can then license the 2 40-ac. tracts which have been developed and the remainder of the permit will be lost for no development.

Dear Mr. Tippet:

done The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in the area of this permit this summer. An examination is needed to verify water use in order to issue a water right license and/or decree. Enclosed for your information is a computer generated report which describes the right which needs to be examined. Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and place of use.

In a review of our files, I have found that we need more information. I found that 80 acres under this permit have been claimed by A. L. Trussell, in the Snake River Basin Adjudication. This portion of the permit should be assigned to Mr. Trussell in order to clarify our records. I am enclosing an Assignment of Permit form for your convenience.

Please note that a claim has not been filed in the Adjudication on the remaining 320 acres covered under the permit. It is our understanding that these lands are in the CRP program, and operated by Dale R. Porter and Arnold Bingham, both of West Point, Utah. If water from this permit has been used on the 320 acres, a claim must be filed in order to proceed with processing this permit into a water right license. Since proof of beneficial use of this water was filed in January of 1974, it is mandatory that you file a claim if the water has been used. Enclosed is a Notice of Claim to a Water Right form which you can use to file on the 320 acres.

Dear Claimant:

I have to conduct an examination on the above referenced notice of claim to a water right before it can be recommended to the Judge for decree. I had contacted Mr. Trussell to complete this exam, and Mrs. Trussell returned my call, and recommended that I contact you to accompany me since you are leasing this property. In order to conduct this exam as efficiently as possible, I ask that you contact me before September 30 to schedule a day and time convenient for you.

If there is a problem with scheduling the examination, please call at your earliest convenience.

Sincerely,

No record of part B filing for remaining area was
found for Adj. claims. I mailed copy of Permit &
