Dear Sirs:

Enclosed is a copy of the above referenced claim(s) which reflects the change in ownership of the land and appurtenant water rights covered under the original filing.

We are currently in the process of making recommendations on Basin 51 water rights. I have reviewed your water rights and have talked with Robert Black about the system operation. Mr. Black indicated that the system is integrated and the water is applied to all the lands listed; therefore, I have created a permissible place of use. This means that you can integrate the water from all 4 water rights and apply it to the total recommended acreage. However, if you sell a portion of your property along with the water, then the new owner would get a pro-rata split of all 4 rights.

I have enclosed copies of the water right claims. These claims essentially reflect how the right was filed on. I am also enclosing profile reports, which reflect the recommendations I am making and a map showing the permissible place of use.

Please look over this information and if you have any questions give me a call before July 13, 1998, as the recommendations are going to the Water Rights Judge for decree in late July.

Sincerely,

Susan Bock

ADJUDICATION MEMORANDUM

CLAIM NO.: 51-0711, 02514, 02173, 07110 SUBJECT: Claims

EMPLOYEE: Sue Borch DATE: 10/1/98

I spoke with Robert Black by telephone today I wanted to see if he would consent to all 4 claims being listed on P.D.C. He told me that was fine as both deeds were co-mingled & covered all the land. However, he had recently sold off some of his land & U.P.'s to a John Workentin of Texas.

So much luck Mr Black & Mr Workentin came into the office & spoke with the C.D. Person. They both agreed a P.D.C. would be the way to go. Now we are just waiting for the change of ownership form to come in.

I am going to proceed on Mr Black's claims as ownership change may not come in on time.

I spoke to Mr Workentin's lawyer Pence Hall 587-4412 he said his client had all the forms & had not returned them yet.

NOTES:

07/31/1996: The survey of S.15 does not appear irrigated on the NAPP (07/31/1996, IDWIR NO. AAG61NW). However the B/V exam in 1983 found irrigation as did the 1987 ASCS. The acres in SWSW S.11 were reduced based on 1987 ASCS map. Using the planimeter (Model No. 42-P), 35.8 acres were found in Field 3 in the SWSW. 2 additional acres were found in the part of Field 5 in the SWSW of S.11. That

Information adds up to 38 acres in the SWSW with 5 acres previously licensed under 51-02172. 33 acres are left for this (A51-07040) right. The other QQ's under A51-07040 are all 40 acre tracts - A51-07040 fills out the acres for each QQ not licensed under 51-02172. ~~177~~ The NAPP indicates the presence of two small ponds in the SE SWSW which could account for the loss of irrigated acres. ~~177~~

Dear Producer,

Your offer to place land in the Conservation Reserve Program (CRP) has been accepted by the Owyhee County ASC Committee.

You now have 10 days from the date of this letter to remove any livestock from your CRP ground. Failure to do so will be a violation of your contract.

Enclosed is your copy of your CRP contract and attachments.

When the practices are completed, you must furnish this office a report of performance, including all invoices for the practices so cost-sharing payment can be made after SCS approval. You must come to our office and sign an ACP-245 to apply for the cost-sharing.

If you have any questions about the program, please call this office or contact your county ASC committee member.

Sincerely,

Ronald E. Abbott
