MANNING EQUATION CHANNEL CAPACITY RESULTS

04-28-1993

File Number: A51-10047

Claimant: TOM HALL

Channel measured: SPRING DITCH

Date of measurement: 4/27/93

Measurement location: T7S, R6E, Sec. 9, SE 1/4 SW 1/4

Calculation prepared by: LINDA WERNER

Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 310 feet.

The upstream and downstream rod readings are 5.97 and 6.16 feet.

The channel cross section is 2.63 ft-sq.

The wetted perimeter is 5.37 feet.

The hydraulic radius is 0.49 feet.

The slope is 0.0006

The roughness coefficient is 0.0350

The flow velocity is 0.655 ft/sec.

The rate of flow is 1.72 cfs.

Claim No. A51-10047

I, Thomas C. Hall, have used water from swampy ponds on my ranch from 1949 to the present time (as my father did from 1918 to 1949). In order to make this water more convenient I started a drain ditch in this area of my land, it was finished in 1970. It was evident that springs were feeding into the drain ditch. I continue to use this 25 inches of water for irrigation and domestic use.

MANNING EQUATION CHANNEL CAPACITY RESULTS

04-28-1993

7a

File Number: A51-10047

Claimant: TOM HALL

Channel measured: SPRING DITCH

Date of measurement: 4/27/93

Measurement location: T7S, R6E, Sec. 9, SE 1/4 SW 1/4

Calculation prepared by: LINDA WERNER

Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 310 feet.

The upstream and downstream rod readings are 5.97 and 6.16 feet.

The channel cross section is 2.63 ft-sq.

The wetted perimeter is 5.37 feet.

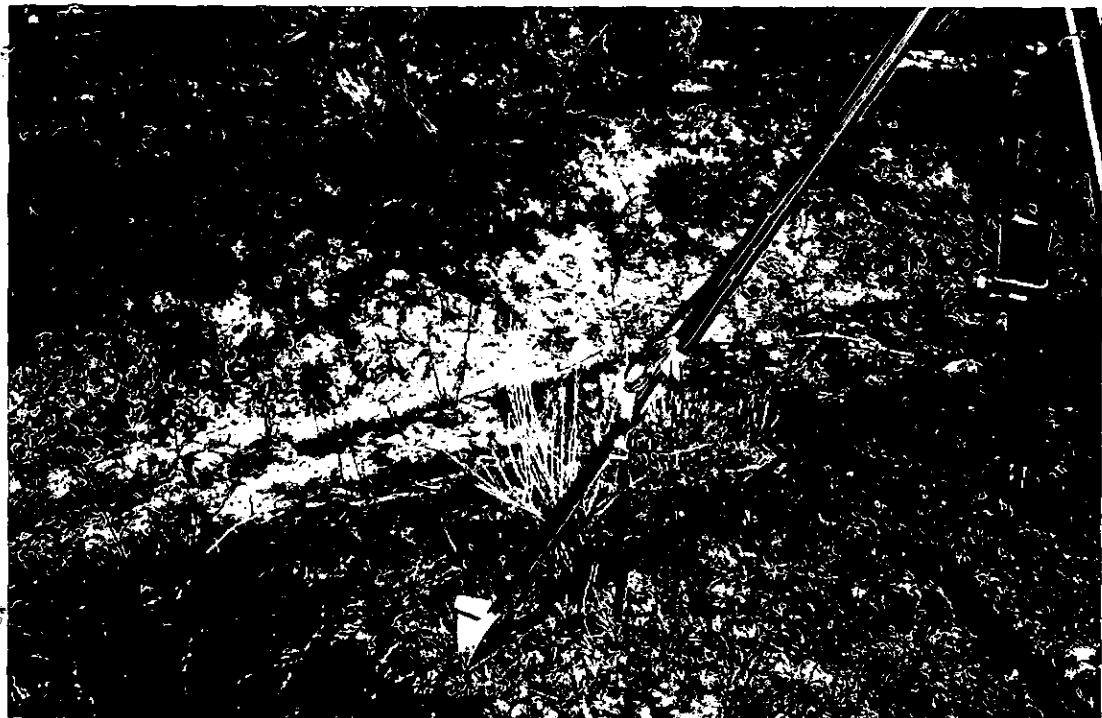

The hydraulic radius is 0.49 feet.

The slope is 0.0006

The roughness coefficient is 0.0350

The flow velocity is 0.655 ft/sec.

The rate of flow is 1.72 cfs.

Dear Mr. Hall:

I am writing in regard to the Notice of Claim to a Water Right which you filed on the springs used to irrigate 25 acres. This claim is numbered A51-10047.

This claim was filed with a priority date of February 14, 1925; however, the evidence you submitted to support this date says that the springs were not developed and used until October, 1972. The Idaho statutes require that a water right application must be submitted for a spring source developed after May 20, 1971. Based on this information I am unable to recommend this claim for court decree.

Please contact me if you have further information or if you have any questions.

Sincerely,

Linda A. Werner
Sr. Water Resource Agent

BRUNEAU ID 83604

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
