HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Dear Claimant,

IDWR has been notified by the Bruneau post office the address presently in our claim records is incorrect. Although I have reached you at the address above, I need you to confirm this is your correct mailing address. Future notices related to your SRBA claim can be sent only to the address on your claim or as otherwise changed by you. The staff of this agency must avoid relying upon the word of others about your mailing address.

If the address above is correct, please sign your name at the bottom of this letter, and return it to this office. Otherwise, please make the proper corrections, sign, and return this letter. Thank you for your help to make sure you receive the future notices we intend to send to you that will keep you notified about SRBA matters.

If the ownership of the property to which this water right applies has changed, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the claim record.

Sincerely,

Dear Mr. Glerum;

Enclosed please find a print-out of the completed calculation on the dairy usage, along with the total quantity available from your well.

A total of 15,200 gallons per day is the requirement for the stock usage. This is based on 400 milking cattle and 100 nonmilking cattle. The volume required for the in-barn usage is 1500 gallons and includes the washing of equipment and the floors, plus cattle washing. This works out to be 32 gallons/minute or 0.07 cfs. Note that in this calculation we figured that the pump was in usage for 8 hours. (4 hours per milking session.)

On the right side of the form are the results of the pumping capacity of the well. Only the two 5 hp pumps were used in this calculation as Rolf indicated that only these two were used for the dairy usage. We did not consider the amount required for heating because of this. I used a pressure of 60 psi and a total lift of 80 feet as this is where the lowest pump sits. The calculation yielded a flow rate of 126 gallons/minute or 0.28 cfs.

In summation-the total amount of water necessary for the dairy usage is 0.07 cfs and the amount yielded from the well is 0.28 cfs. This indicates that your well capacity is more than adequate to satisfy the dairy requirements.

Please be sure to contact me if any of the information relating to the dairy usage is incorrect.

Sincerely,

Linda A. Werner

Dear Mr. Glerum:

I am sending you two affidavits which you can use to submit evidence of the date of first usage for the dairy. Please be sure to return this information soon as I will be making your Claim recommendations shortly.

You will also find enclosed the information you requested regarding the domestic/stockwater statute and the rules for water uses in the groundwater management area and corresponding maps.

Also-I left my 5 gallon plastic bucket at the dairy. Rolf knows where it is. Would you ask him to bring it up to your house so I can pick it up? I plan to be in Bruneau on Wednesday (January 12) and I would be able to pick it up then.

Thank you for your assistance in ensuring that your water rights are accurately recorded.

Sincerely,

Thinks dairy usage began in 1969, because of records in pencil, which are on the wall of the milking barn. He is talking to original dairy user to get evidence of priority. He said he got the well log showing it was drilled in 1955.

He will get to me when he gets this info. I advised him on the ~~too~~ importance of getting this info. back to me ASAP due to time restrictions on report review & recommendation for basing 51.

He also said that there are couple dairies in his area which just started up in the early 1980's that haven't heard of the filing requirements.

Places bought in 1960 by
(Mrs. Frank) Millets & they started milking them.
Well drilled in 1955

1-13-94 - Saw P. Klerum in Brunswick yesterday. Millets are out of town. He will get evidence of priority from them as soon as possible.

Dear Mr. Glerum:

I am writing in regard to five Notices of Claim to a Water Right which were filed in the Snake River Basin Adjudication. These are numbered A51-10093, A51-07008, A51-02135, A51-02168 and A51-02184. This includes the claim which was to be amended to reflect the dairy usage at a higher rate of flow. I have not yet completed this amendment as your signature is necessary before I can do so.

That claim, which is numbered A51-10093, will require a field exam once the amendment increasing the quantity has been completed. I will also need evidence of priority to substantiate the dairy usage with the 1955 priority date.

Please contact me within the next week so we can discuss the above information and set up the field exam. Also, I realize that there has been an ownership change on the various parcels and would like to discuss this at that time. I am enclosing a brochure entitled "Evidence of Priority" which may explain the above requirement.

Sincerely,

Linda A. Werner
