RE: Claims to Water Rights filed in the Snake River Basin Adjudication

Ronald E. Prow
HC 85, Box 127
Bruneau, ID 83604

Dear Mr. Prow:

Enclosed are revised recommendations of your claims. Please note that I have added the points for the Turner & Beiroth ditches to all of your rights that are diverted from the Bruneau River. I have added these as points of re-diversion, since the actual diversion is at the dam. I have also adjusted Rt. 51-02149 (which is your groundwater license) to agree with the amended claim you submitted while in my office on August 13, 1998. The flood water claim, Rt. 51-10270, only needed to be recommended for 6.08 cfs after I determined how much water was already recommended and what was needed to bring your lands up to the flow requirement as determined in the Brockway report.

Please review the enclosed recommendations and the new GIS map attached to your groundwater right. If you have any questions in regard to these, feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

I, Joseph E Turner

being first duly sworn,

deposes and says: that my personal knowledge that the use of irrigation
and stockwater use for Claim No. A51-10270

has been used since the date of priority of 02/15/1925: IRRIGATION
of the following LANDS: T6G5, R06E, S31: ^{SW} NW34 13 AC, SWSW 10 AC, SE34 40 AC; ^{SE} SWS
T075, R06E, S6: ^{NE} NENE 22 AC, NUNE 40 AC, SUNE 18 AC, SENE 20 AC; ^{NW} NENE 06 AC;
for a total of 179 AC.

My personal knowledge of the irrigation + stockwater use is in
Affidavit A, attached; and in Attachment B + C, attached.
The original Affidavit A is in Claim No. A51-10266

Joseph E. Turner
(Signature)

Subscribed and sworn to before me this
day 8th of March, 1993.

AFFIDAVIT A

CLAIM A51-10270

Wendell Lake
Feb 5, 1993

To whom it May Concern:

My name is Joseph Turner. I am called Joe by almost if not all of my friends and acquaintances. I am 84 years old. I was born on the William Turner (my father) ranch in Brunson Valley Apr 17, 1908.

I have many boyhood memories of life on the ranch. The Brunson River was about $\frac{1}{4}$ mi from the ranch house. I remember the Spring run offs and one year in particular when the water covered the meadow between the ranch house and the river. The water came right up to the woodpile near the house entrance. The run off came every year and in most cases the river was out of its banks. During that time the amount of water used for irrigation was determined by the size of the ditch and how well it had been cleaned. Other ditches and canals in the Brunson Valley operated in the same way.

During the latter part of May and first part of June was when the late Run off was about over. After that the flow of the river slowly declined and that was when we built the willow and log dams in the river.

It was a continuing effort to keep the dams repaired and water flowing in the ditches.

The water for the Turner Ranch was supplied by the Turner and Bieroth ditches.

The water for the J. E. Howe Ranch was supplied by these two ditches as well as the Hot Springs Ditch. Agreements were later worked out with the South Side Canal Co and a concrete dam was constructed at the point of diversion. This point of diversion included the Bieroth rights, the Turner ditch rights and the South Side Canal rights. The Hot Springs ditch came from the extreme southern end of the valley and is first in point of diversion.

If Necessary, I believe I could go more into detail about some of these matters. The point I wish to make is there was lots of flood waters and they were widely used without any thought of water measurement.

Very truly yours

Joseph E. Turner

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
