Re: Identification Number Change for a Notice of Claim in the
Snake River Basin Adjudication (SRBA)
Owyhee County - Claim No. A51-10347

Dear Claimants,

The identification number of your Notice of Claim to a
Water Right has been changed from A51-00114 to A51-10347. The
claim you filed actually combines two existing rights:
51-00114 and 51-00118. The Idaho Department of Water
Resources assigns identification numbers to claims that will
allow processing without duplication or confusion; this change
does not affect your claim in any other way.

Enclosed is a computer-generated copy of your claim with
the new identification number. Refer to this record number in
any future inquiries or correspondence. Please do not
hesitate to contact this office, if you have any questions.

Sincerely,

Jan Shurte
Adjudication Supervisor

Blick Ranches, field exam of 9-23-93

A51-10347

Decrease number of diversions

POD's are numbered in order of when the site was investigated

The POD claimed on section 21, NENW, is no longer used because of a dispute between Blick & neighbors, Row. He does not intend to use it as H₂O has been redirected by use of a flume thru another ditch which has solved the problem. It has been 4-5 yrs since it was last used. As stated by claimant. When we went to check this old site, he couldn't find it.

Hays Canyon was added as a source. There is no diversion & channel supplies in the sub or wastewater from neighbors. The land in the S $\frac{1}{2}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ of section 16 is irr. by wastewater.

The two licenses A51-2050 & A51-2105 are unnecessary as the decree covers all lands at an inch & acre.

Claimant is not interested in receiving excessive flow. When I asked him about it he had no idea what it was. He combined both decrees & claimed the decreed amounts in the interest of keeping decree "as is." He

only bought the upper portion of the land,
(Section 9) 3 yr. ago. (approximately)
He is interested in receiving early waters
tho.

Bordgas spring A51-4032

Spring flows from rocks & runs downhill to
where it pools & flows into Truckee creek. (^{200'}~~700'~~)

Water is diverted out of 3 Cr. by means of
long rock dam. Conveyed to P.O.C. by ditches
on east & west side of creek.
