NOTES:

A51-10344 (decree rights from Big Lost Creek) included the sources in this claim in 1925. The sources in this claim probably should have been included in the Big Lost River decree but were not. Therefore, this Bld claim was necessary and a priority of one day after the decree date is justified because the use has existed as long as the Big Lost Creek decree use.

WATER RESOURCES

Dear Chet:

I've tried to contact you by telephone for the past two weeks but to no avail. I'm currently preparing the recommendations for your Snake River Basin Adjudication irrigation claims and needed to discuss a problem I have with claim A51-10344.

When you filed A51-10344, the claim added Spring Creek and Springs as sources to your decreed rights from Big Flat Creek. Because these two sources are not decreed sources in the Bruneau River decree and, because the water from the sources are used on some land not covered by any decreed rights; you should file a separate claim for these two sources.

Enclosed is a new beneficial use claim for the land irrigated by the Spring and Spring Creek diversions located in the NENE, S24, T16S, R10E. Please review the claim and if it is acceptable, sign it in front of a notary public and return it to me immediately. I have a deadline of July 24, 1998 to have the review and recommendations completed for submittal to the court so I need your immediate attention to this matter. Without this claim, I can only recommend those acres irrigated from Big Flat Creek that are covered by the Bruneau River decreed rights.

Please submit your check in the amount of \$50 payable to Department of Water Resources for the filing fee with the signed claim form.

Call me at the number below if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Mel Schulte".
