FRANK BACHMAN
J R SIMPLOT COMPANY
HC 85 BOX 275
GRAND VIEW ID 83624

Dear Mr. Bachman;

SUBJECT: Notices of Claim to a Water Right for Grand View Farms

I am in the process of preparing the SRBA claims recommendation for Grand View Farms. They are based on two licenses which are numbered 51-07043 and 51-07103.

They have been filed on by three entities; Leslie Isaac, Delbert Wright and/or the FMHA. Consequently, I am in the process of splitting these claims between the respective landowners resulting in a split of diversion point, place of use and quantity.

In the process of completing the recommendations, I find I need some information from you relating to the well located in T7S, R4E, Section 4.

1. What is the correct location of this well?
2. How long has the well been used for irrigation?
3. Is there more than one well at this location? How about the well in section 5? Are there two wells in this area?

None of the licenses appurtenant to the property list the well in section 4 as a diversion point. Therefore, it is important that you advise me of the date of first usage from that well. In view of the recent decision by the Court relating to the presumption clauses in the statutes, proof of this date, such as an affidavit, is also requested.

Also, I have enclosed a Notice of Claim, numbered A51-07103B, which I have split from the original claim filed by Mr. Isaac. This claim is for land appurtenant to Grand View Farms but was not filed on. Please review this claim, paying close attention to the locations of the diversion points. I added the well in section 4, and included the well in section 5, based on the well users agreement. Be sure to sign the claim and have it notarized before you send it back. Plus, I may not have the correct mailing address. Would you write this in.

February 11, 1994

Page 2

This should take care of the questions I have. The quantity and acreage are straightforward based upon the number of acres. Each license was based on an inch to the acre so I will pro-rate the quantity. Please return the information as soon as possible so I can complete the claims recommendation. I will send along a copy of a map to assist you in determining the well locations. If you have any questions, please call.

Thank you for your diligence in gathering the necessary information. (I received the copy of the Owyhee Outpost today.)

Sincerely,

Dear Mr. Isaac;

SUBJECT: Notices of Claim to a Water Right, A51-07043A,
A51-07103A, and A51-07148

Thank you for your prompt response to my letter of January 31 in which I requested ownership information on the lands located in T7S, R4E, Section 5, E1/2SE1/4.

Based on your response I have started the recommendation of these rights in the adjudication. In so doing I have come across a difference in well locations and an increase in acres from what was originally licensed.

I am enclosing a map which will outline the place of use. Please review this map and advise me as to the location of the well(s) being used. When did the usage begin and which well(s) do you plan on using once the land comes out of CRP?

Concerning the increase in place of use--On claim number A51-07148 you increased the number of acres from 37 as licensed, to 40. When did this change occur?

Please return this information, to my attention, by February 24, 1994. If you have any questions, feel free to contact me.

Sincerely,

Linda A. Werner

RE: Claim(s) filed in the Snake River Basin Adjudication.

Dear Mr. Isaac:

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in June. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this season, we request that you contact our office at 334-2190 within one week to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be beneficial.

To make an appointment, or if you have any questions or problems with scheduling the exam verification, please contact me as soon as possible.

Sincerely,

Linda A. Werner
