Dear Sirs:

Enclosed is a copy of the above referenced claim(s) which reflects the change in ownership of the land and appurtenant water rights covered under the original filing.

We are currently in the process of making recommendations on Basin 51 water rights. I have reviewed your water rights and have talked with Robert Black about the system operation. Mr. Black indicated that the system is integrated and the water is applied to all the lands listed; therefore, I have created a permissible place of use. This means that you can integrate the water from all 4 water rights and apply it to the total recommended acreage. However, if you sell a portion of your property along with the water, then the new owner would get a pro-rata split of all 4 rights.

I have enclosed copies of the water right claims. These claims essentially reflect how the right was filed on. I am also enclosing profile reports, which reflect the recommendations I am making and a map showing the permissible place of use.

Please look over this information and if you have any questions give me a call before July 13, 1998, as the recommendations are going to the Water Rights Judge for decree in late July.

Sincerely,

Susan Bock
