HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive) (cfs) (acre feet)

For Irrigation and stockwater storage purposes from Jan 1 to Dec 31 amount _____ or 1,400

For Irrigation from storage purposes from April 1 to Oct 15 amount 2.88 or _____

For Stockwater from storage purposes from Jan 1 to Dec 31 amount .22 or _____

For _____ purposes from _____ to _____ amount _____ or _____

(see remarks)

7. Total quantity claimed (a) 3.1 (cfs) and/or (b) 1,400.0 (acre feet)

8. Total consumptive use claimed is 1,400.0 acre feet per annum.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

RE: Notice of Errors on Claims 55-02027 & 55-10319
- Petan Company of Nevada, Inc.

P.O. Box 2773
Boise, ID 83701-2773

Dear Mr. Honsinger:

In response to the Notices of Errors I received on the proposed recommendations for Petan Company of Nevada, Inc. I offer the following:

Right 55-02027 -

The season of use recommendation is being reviewed by our State Office personnel since the Supreme Court remanded the decision on "irrigation season" back to the SRBA Court. We will be using an irrigation season that is found to be acceptable for the area. Currently, our standard irrigation season for this area is April 15 through October 15. If it is determined that this season is not adequate for this area we will use the season determined.

The place of use has been changed to add the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 31, Twp. 15S, Rge. 01W for stockwatering purposes. Enclosed, for your information, is a profile report with the additional stockwater place of use included.

Right 55-10319 -

Please note that the "total diversion volume" for this right has been recommended for 3600.0 AFA. We recommended 3200.0 AFA for irrigation storage and 400.0 AFA of the facility volume has been allocated for stockwater storage. This amount, in connection with the total diversion volume of 1400.0 AFA allowed under Right No. 55-02027 would cover the 5000.0 acre feet that our dam safety section has reported Slack (Juniper Basin) Reservoir can store. If you have further information regarding the amount of water that can be stored in this reservoir, please feel free to submit that to us for review. We have limited the amount recommended for irrigation storage since that use has been fully covered under Right 55-02027.

If you have any questions or concerns regarding the above, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker". The signature is written in black ink and is positioned above the typed name.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):
 - A. Possible Alternative Season of Use
 - B. Place of Use
2. Describe the changes you wish to make in the proposed recommendation:
 - A. Petan Company requests that the historical season of use, 4/1 - 10/31, be recommended by IDWR to the SRBA Court as the Possible Alternative Season of Use for both Irrigation and Irrigation from Storage Purposes of Use.
 - B. Petan Company requests that IDWR add the following place of use for stockwater to its recommendation to the SRBA Court:

T15S R01W Sect. 32 NWSE
3. Give a brief explanation as to why you disagree with these portions:
 - A. This water right has historically been used during the period from 4/1 - 10/31.
 - B. Petan Company inadvertently failed to claim the above referenced stockwatering place of use. Because IDWR recommended stockwater in all other 1/4 1/4 sections in which it recommended irrigation pursuant to this right, it should also recommend stockwater as a purpose of use in the above described irrigated place of use.

_____ I AGREE with this proposed recommendation; no changes need to be made.

RICK WELLS, BUREAU OF RECLAMATION

SUBJECT: OWYHEE RESERVOIR

Pursuant to a discussion with Dave Tuthill regarding the large size of Slack Reservoir which does not irrigate all that much land, I contacted Mr. Wells answering machine (334-9078) on March 15 to request the ratio of required space to guaranteed fill for Owyhee Reservoir and drainage area of Owyhee Reservoir, so we could compare what Petan actually needed to store.

Mr. Wells called back (2:35 pm) March 16 and left message that the drainage area above the reservoir was 11,160 square miles. He did not have the other information collected when he called.

I called Mr. Wells back at 3:25 and spoke to him about the ratio of required space to guaranteed fill. He had not run across that language recently and was trying to figure out how to gather the information. He did tell me that usually a full Owyhee Reservoir provided 2 years of water.

At 3:45 Mr. Wells called me back. He said the storage contents of the reservoir on April 1, at it's lowest level, between 1940 and 1994 had been 170,938 acre feet in 1992. He compared that number with the capacity of the reservoir, which is 715,000 acre feet, and found the ratio of required space to guaranteed fill was 4.18:1.

After talking with Dave Tuthill again, I found I needed to also collect the elevation of the highest point around it to the elevation of the reservoir.

3-22-1995

Contacted Rick Wells for elevation of Owyhee Reservoir. He said the elevation of a full pool is 2,670'. He will be checking topographical maps of the area for an elevation of the nearest high point and get back to me.

Mr. Wells called again to say that the elevation of the highest point near Owyhee Reservoir was 5,000'. He obtained this information from the Owyhee Ridge Quad.

REPORT OF ENGINEER

This proof is for beneficial use ...

In Water District No. 55

Ross P. Slack, John H. Crocheron,

1. State name of applicant and number of permit: Wenzel Turnes, Ellen A. Slack and Mary Turnes. Permit: 6912

2. State source of water supply: 4 unnamed streams

3. Location of point of diversion: No. 1: SW cor. T. 15 S., R. 1 E. bears N. 50° 40' E. 13985 feet. Nos. 2, 3, 4 discharged into Slack Reservoir. The location of the point of diversion from Reservoir is 515 ft. S. 51° 50' W. from initial point of survey of reservoir, from which the SW cor. of T. 15 S., R. 1 E. bears N. 73° 44' E. 18253.9 ft.

4. Describe works as they exist, giving dimensions and capacities of same:

Earth dam, 21' H. 500' L. Concrete core-wall, 2' X 4' H. X 100' L.

Concrete outlet, 20" X 20" Steel gate 2' X 2'

Ditch, 6' B. 1.5 D. Cap. 10 B.F.

5. State whether or not water has been turned into works of diversion: Yes.

6. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): NE 1/4, E 1/2, NE 1/4, NW 1/4, NE 1/4, Sec. 32, T. 15 S., R. 1 E. S. 11.

7. Submit map on enclosed plat, showing location and details of above description.

8. How many parties conduct water in this system?

9. Give names and amount of each right:

10. What large stream would the water here appropriated finally reach? Snake River.

11. Describe the various tributaries en route, from point of diversion to the principal drainage stream: From land to unnamed stream, to Owyhee River, to Snake River.

Remarks:

This examination was made on the 3rd day of August 1920.

Dear Bud:

I have completed the review and data entry of the 12 claims you sent on April 24, 1992. There are no problems with them and I have processed them. Enclosed are copies for your files. Please let me know if there any errors or problems. There are now a total of 45 SRBA claims on file for Petan Company of Nevada, Inc. I have included a list of the claims for your information.

A refund to Chilton Engineering and Surveying Ltd. is being processed as a result of an overpayment of \$22.00 on receipt No. C023957 (enclosed). You calculated this charge on claim no. A55-02027 for the .22 cfs for 1000 head of range cattle. There is not a variable fee when the use falls within the "small stockwater" definition (i.e., 13,000 gallons per day/1000 head cattle). I can't tell you when the refund will arrive; however, I would expect it should be within the near future.

With the completion of processing, I am preparing to review the claims for final recommendations based on review of IDWR records, other evidence, and field examinations. I will contact you if field exams are needed, but I suspect much of the evaluation can be completed in the office as a result of the completeness of the claims and attachments.

I appreciate your diligence in returning these claims, as well as your efforts to work with me in completing the claims to my specifications. Please let me know if I can be of any assistance with these claims or any adjudication matters.

Respectfully,

Dear Mr. Danner:

Enclosed please find copies of the 33 claims that have been processed. I have completed the review and have data entered them into the computer system. If you find any errors or wish to modify any claims, you may have the claimant write in the changes, sign the form, having his signature notarized, and return them to my attention.

Also enclosed are the claims that were submitted in March, 1989, which we discussed on the telephone. The claimant at that time requested that they not be processed, nor were any fees submitted with them. Please return them to the claimant.

I have enclosed copies of Receipts C023419 and C023750 that I have modified with the appropriate claim numbers for which each receipt applies. The above mentioned 33 claims have balanced out the total fees received thusfar.

Please let me know if I can be of any assistance.

Sincerely,

RE: Snake River Basin Adjudication (SRBA)
Owyhee County - Petan Company of Nevada, Inc.

Dear Mr. Danner:

I have completed my initial review of the 46 claims you submitted in the name of Petan Company of Nevada, Inc. I can appreciate the amount of time and effort involved in the completion of these claims and I commend the quality and detail of the final product.

There are several items I would like to clarify that affect the entire set of claims, and then I will discuss the specific issues on the claims being returned with this letter.

The fees are calculated based on the number of stock being watered. If the number of head exceeds 1,000, the acre-foot quantity is converted into cubic feet per second by dividing by 1.98 divided by the number of days used (all used 365). The 1,000 head figure is generally the number of head that can be watered within the 13,000 gallon per day limit. Those claims whose number of head do not exceed 1,000 head are charged \$25 flat fee.

Late fees are calculated at \$50 or 15% of the flat fee, whichever is greater. (For your records, I am enclosing a copy of the Request for Extension of time filed by Mr. Polkinhome in 1989 that was denied.) I have written the calculated fees for the enclosed claims on the upper right corner of each claim to assist you in returning these claims with appropriate fees, if they are returned. If these claims are returned with modifications or replacement claims, please confirm the correct fee.

Of the 46 total claims, 33 claims are acceptable. The fees for these 33 claims total \$3,054.00. Fees submitted with the claims were \$2,155.00 (Receipt No. C023419, enclosed). Therefore, I need \$899 additional fees for the claims I am holding. As soon as I receive this amount, I can complete the processing of these claims.

Bud Danner, Chilton Engineering and Surveying, Ltd.
April 3, 1992
Page 2 - Owyhee County

The claims which are for stockwater reservoirs will be processed with Item 6 completed as follows:

<u>Purpose</u>	<u>Period of Use</u>	<u>Amount</u>
Stockwater for Storage	1/1 to 12/31	AF
Stockwater from Storage	1/1 to 12/31	AF

If this does not accurately reflect the use, please let me know and we can discuss this further.

One claim has been withdrawn at the request of John C. Jackson in a letter dated March 11, 1992. I am enclosing a copy of that letter and the withdrawn claim. Please return it to the claimant.

There are 12 claims being returned for further clarification or reconsideration. Seven claims are for instream stockwater use. Although they can be submitted on the "short" form (42-1409 (2)b), they must include the required information. In the case of instream flow, we require the point of diversion item to describe a beginning and ending point for the stretch of water to which the stock can use the water (see Item 4, "long" form). This may be where the stream channel enters and exits a fenced pasture. The place of use should also include all quarter-quarters through which the stream flows and the stock have access.

There are five claims that have specific issues that need to be resolved:

1. Claim for Domestic/Stockwater, priority date July 1, 1944. Please identify the specific point of diversion. The claim states Lots 3 & 4. I have enclosed a government plat and copy of the USGS topographic map of that area to assist you.
2. Three claims, based on Permit 55-07005, are being returned to allow the claimant an opportunity to reconsider the filings. As you will note on the enclosed Profile Report for Permit 55-07005, the permit was filed for 0.06 cfs. The three claims were filed for 0.14 cfs each. A field exam for the purposes of licensing the permit will be conducted this summer and it should be noted that the examination and licensing process will not increase the

Bud Danner, Chilton Engineering and Surveying, Ltd.
April 3, 1992
Page 3 - Owyhee County

quantity on the permit. A new application for permit would need to be filed to increase the rate of diversion.

The stockwater use described on each claim falls within the exemption for permit requirements. A permit does not need to be obtained for stockwater from groundwater for uses less than 13,000 gallons per day. The claimant may wish to file these claims based on beneficial use and there would not be any conflict with the statutes.

These three claims can be returned and I will process them if appropriate fees accompany their return. The claimant may, however, elect to modify the claims and return the modified or replacement claim(s) with appropriate fees and I will continue the processing.

3. One claim based on License 55-02027 included irrigation, irrigation storage, and stockwater, with a total diversion rate of 3.54 cfs. As you will note on the attached profile report, the license includes irrigation and domestic uses only, with a total diversion rate of 3.1 cfs.

As discussed in Item 2 above, the claim exceeds the recorded uses and rates. The excess item may be claimed with a basis of claim as beneficial use, rather than the basis of claim being the license. If the priority date is 1910, there would not be any conflict with existing permit statutes.

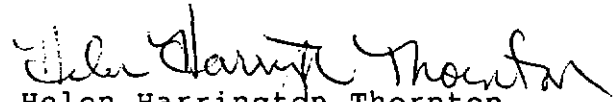

If the claimant elects to return the original claim, I will be happy to process the claim. However, the claimant may take this opportunity to modify or replace the claim at his discretion. In either case, please include appropriate fees.

I would appreciate hearing from you as soon as possible to allow the processing of these claims to continue and be identified for the claims review during the 1992 field season. I would be

happy to discuss or clarify any questions you have. Please call me at (208) 327-7935 at your convenience. If I do not hear from you by April 20, 1992, I will complete the processing of the claims I am holding.

- Mr. Danner just called back - said he couldn't get hold of Mr. Jackson. But to go ahead with the idea they are separate animals, i.e., 600 head each location (2 reservoirs) means 1200 head total.

RE: Snake River Basin Adjudication (SRBA)
Petan Company of Nevada, Inc.

Dear Mr. Danner:

In response to your request dated February 13, 1992, I have enclosed the following information:

1. Copy of a page from our "OLD NUMBER BOOK" with a correlation between old and new number covering the sequence you specified.

2. Copy of Field exam for 55-02204, 02205, 02206, 02207, 55-07003, 07004. Water right 55-07005 was reinstated and proof was submitted, and is presently awaiting a field exam. A claim needs to be submitted for 55-07005. You should address a letter to Jim Johnson of our water rights section to see if there is anything further that needs to be done in regards this permit.

3. For all of the above and the legal description from the map, I have enclosed a profile report for each right. I have also enclosed a profile report for each right which has an adjudication claim filed for it. I covered the area by township, and therefore you will need to sort out those you are interested in from those outside the map area.

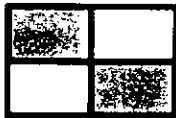

Claim forms and instructions were sent to you earlier. If I have not addressed all of your questions, please feel free to contact me.

Sincerely,

John D. Carlson

RE: Petan Company of Nevada, Inc.
Snake River Basin

Dear Mr. Carlson:

Enclosed is a map of the area which we would like to have copies of any filings of water rights. Some of the following are within the area: Water License No. R-1107 thru R-1124 and R-1130. All of the above have had Notice of Claim to a water right (Form No. 42-1409(2) A 1/88), Civil Case Number 39576 filed, but, we'll need the pertinent identification numbers of each so that amendments can be filed.

We know that R-1177/55-2204, R-1178/55-2205, R-1179/55-2206, and R-1181/55-2207 have been filed. We would like to have a copy of the beneficial use filed on the above four (4) listed numbers. We also know that 55-7003 and 55-7004 have been filed and would like to know the status of 55-7005. We have a copy of 55-02027. Will you check your records and see if any other rights are filed within the area on the map?

Would you please send us fifty (50) blank forms of No. 42-1409(2)a 1/88 and twenty five (25) blank forms of No. 42-1409(1)b 1/88.

We hope to have the work completed before March 6, so your early return of the requested material will be appreciated. We will promptly pay your invoice.

Sincerely,

CHILTON ENGINEERING AND SURVEYING, LTD.
