REMARKS:

Field exam & license describe POD as "S 70° W, 1280' from the 1/4 corner between Sec. 23 & 24, T6S, R6W. Licensed field exam map shows it on NESE, Sec. 23. The 1979 O.P. & 1987 Maps show it on NESW, Sec. 23. It's very likely that the creek channel has changed between 1922 & 1992.

Also - the POD was moved upstream ~ 100' 30 - 40 years ago.

REMARKS:

Licensing field exam has POU in Sec. 11, S 1/2 SE & Sec. 14, NENE & NWNE. The corresponding map shows it in the same area plus in SESE, Sec. 11. The license lists it in SESE & SWSE, Sec. 11 & NWNE, NENE, Sec. 14. Found POU per our field exam in 1992 is as listed above. For this reason, plus the POD discrepancies, an "A" is entered under the presumption flag.

Dear Mr. or Mrs. Gluch;

SUBJECT: CLAIMS FILED IN THE SNAKE RIVER BASIN ADJUDICATION
(SRBA)

I am in the process of reviewing the claims you filed in the SRBA for recommendation and subsequent decree. Much of the information used for this review is based on our field exam of June 10, 1992, and previous licensing exams. The following claims require the information listed.

A55-02065-Lone Tree Storage

This claim was licensed for storage of Lone Tree water for domestic and irrigation purposes. For what type of domestic usage is this used? Is it used for in-house use and lawn irrigation? And if for lawn irrigation, how much lawn? Please be specific in your reply. *No domestic usage from reservoir. Add Stock to this. 500 cattle-yearly. POU as shown on map is ok.*

A55-04060-Lone Tree live flow

Our records show that there has been a change in the location of one of the diversion points. Has there been such a change? If so, when did the change occur and where were the old diversion(s) located? *POD's used here 30 years. Prior changes occurred due to meandering nature of creek & they were moved only short distances.* It also appears that there are some areas irrigated from the creek which are not claimed on your SRBA claim. These areas are located in portions of sections 12, 13, 14 and 23. Are these areas fed by wastewater? They are notated on the enclosed map by a question mark. *Upper areas are wastewater, but the others in dry land farming.*

The quantity of water claimed amounts to more than the Idaho standard of one inch per acre. Do you find it necessary to irrigate with more than this amount? If so, I have enclosed a form which you can fill out to verify the additional quantity. Without this information I am unable to recommend more than the standard amount. *NO. 1" / Acre is ok.*

Written info. on letter is as a result of office visit from T. Gluch on 2-22-95. L. Werner

One more item--from the information you submitted it appears that this claim can be recommended based on a posted notice. The only other information needed to verify this type of claim is that there was due diligence in completion of the water usage within five years of the time the water right notice was initially posted and recorded. Do you have any information relating to this? *To his info, no period of nonuse has occurred. Land has never sat idle or been leased out.*

A55-04061-Jordan creek irrigation

I have calculated 70 acres of irrigation versus 43 acres claimed on your SRBA claim. Is this number correct? Please review the place of use shown on the enclosed map for accuracy. *Irr. occurs on east side of creek. Land on west side is w.w.*

A55-07001-Irrigation from the well

The well location found during the field exam is different than where it is shown on the licensing field exam. Has there been a change in the well location? If so, when did the change occur? *Well has not been moved. Spot licensing field exam has well in wrong*

Also, this right was licensed for the irrigation of 364 acres; however, information received during the field exam and subsequent office visit show only about 40 acres of irrigation. Please advise me on the application of the well water as it appears that your system has the capability of irrigating more. *Well irr. 364 acres as shown on my map. It is supplemental to creek water.* I am enclosing a map which outlines the entire system. Diversion points as well as irrigated lands are depicted. The key in the lower right hand corner shows the different sources and appurtenant places of use. Please review this map for accuracy.

Please return this information, to my attention, by March 15, 1995. This will allow me to complete your claim recommendations promptly and accurately. Also, don't hesitate to contact me if you have any questions.

Sincerely,

Linda A. Werner

RE: Claims filed in the Snake River Basin Adjudication

CLAIM NO'S. ASS-04023, ASS-02005, ASS-04060,
Dear Claimants: ASS-04001, ASS-07001 - DWYHEE CO.

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in June. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this summer in your area, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority claimed also needs to be verified. Letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

To make an appointment, or if you have any questions or problems with scheduling the exam, please contact one of the following water resource agents:
