7-30-92 A field exam was done in conjunction w/ A55-10067.
Present were Gordon King & Shelley Keene (IDWR). The basis for
examination of this site was to verify acres irrigated. While at
site Mr. King told me there were no diversions from Rock creek.
The pasture land is actually watered by runoff from the ann.
draws trib. to Rock creek.
Recommend for disallowal because no beneficial use was
found. (Absence of diversion). L.R.W.

3-29-94: Recommended for instream stock.

- The 2 licensed rights don't have diversions
from Rock cr. but the pastures are
irr. by runoff & they sub out.

A55-10067

The same goes for the spring. No
diversion. - just ditches which really
aren't ditches but are runoff ditches &
are natural.
