HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

MAILING DATE: May 1, 1995
RESPONSE DATE: June 1, 1995

ROBERT OR KAREN MACKENZIE
BOX 125
JORDAN VALLEY OR 97910

Dear Mr. or Mrs. Mackenzie;

SUBJECT: Notice of Claim Numbers: A55-02005A, A55-02005B,
A55-02105, A55-02142, A55-04094 & A55-04146

We are currently in the process of preparing the above referenced Notices of Claim for court decree in the Snake River Basin Adjudication (SRBA). During this process certain questions arose concerning the claims listed below. Any claim that is listed above and not shown below is ready for court decree and does not require any further information or changes.

A55-04146-Coyote creek
Priority Date

On June 28, 1991, we sent you a letter requesting evidence supporting the priority date for the claim listed above. This was required because this claim is a statutory claim which is based upon beneficial use. You responded by submitting a copy of license numbers 55-02005A and 55-02005B. This information verifies that the land claimed as irrigation under the above right was irrigated in 1906; however, it does not support the claimed source of water as Coyote creek, only South Mountain creek. Consequently, before this claim can be recommended to the court, we need evidence of priority relating to the first usage date of water from Coyote creek. Enclosed is a pamphlet outlining the types of evidence to submit.

A55-02005A & A55-02005B-S. Mountain creek
Tributary

The tributary on these licensed rights was listed as the Owyhee river. You claimed the tributary as South Boulder creek. I changed this to Boulder creek based on the 1979 orthophotoquad.

Diversion Points

These licenses were issued and claimed with one point of diversion. That diversion is located in the NE1/4SE1/4 of Section 25, T7S, R5W. During the field exam that was conducted in July of 1992, I was shown two additional diversion points. They are located in the NW1/4SW1/4 and the NE1/4NW1/4 of Section 30, T7S, R4W. How long have these diversion sites been in use?

Irrigated Land

These two licenses were issued at different times with different priority dates. Apparently, because only a portion of the diversion works were completed at the time of the licensing field exams. These exams were conducted in 1911 and 1918 and they found a total of 55 acres and 55" of water for license number 55-02005A and 95 acres and 95" of water for license 55-02005B. The irrigated lands are essentially located in the same area and contain some overlap.

When I completed the acreage calculation for the lands irrigated I found a total of 90 acres rather than the 95 acres licensed under 55-02005B with the 1916 priority date. This resulted in a net loss of acreage under claim number A55-02005A. Namely 40 acres found vs 55 acres licensed. Under claim number A55-02005B which is for the total acreage, I found 90 acres vs 95 acres licensed.

Under the Adjudication guidelines we are required to recommend claims for the number of acres found. That is because all water right claims, whether they are based on licenses, decrees or statutory claims, should be representative of the way they are used. Because of this, claim number A55-02005A may be recommended with a net decrease of 15 acres (from 55 to 40) and a related amount of water based on 40 acres irrigated, namely 0.80 cfs. A55-02005B could be recommended with a total acreage of 90 acres and 1.80 cfs.

Because claim number A55-02005A has the earliest priority date I am hesitant to reduce the acreage and quantity. Since both rights are conveyed using the same irrigation system, claim number A55-02005A could be recommended with a permissible place of use. Both claims would show the entire irrigated lands of 90 acres, but claim number A55-02005A would be limited to 55 acres and 1.1 cfs, as originally licensed. You could then irrigate 55 acres anywhere within the 90 acres. The consequence of this flexibility is that should you sell a portion of the ranch, a proportionate amount of water right A55-02005A will go with the land, whether the water right was originally licensed on that land or not.

5/1/95
Page 3

I am enclosing profile reports of your claimed water rights, for your review. I am also including a map of the found places of use and points of diversion, resulting from the field exam conducted in 1992. Please review this map for accuracy. I have circled the three diversion points referred to in this letter. The irrigated land is highlighted in green. I am also enclosing a Notice of Claim form which I completed for A55-02005A. This claim represents the permissible place of use situation described above. If you agree with the acreage findings, and would like to file your claim this way, all you need do is sign and notarize this claim and return it to this office with the other requested information.

If you have any questions feel free to contact me. Be sure and submit your response to my attention by the response date shown above. If I do not hear from you I will be unable to recommend these claims with the additional diversion points, the source of water or acreage and quantity claimed.

Sincerely,

Linda A. Werner
