Claim Numbers of Split, if any:

Original to be mailed to Idaho Department of Water Resources
Copies to Former Owner and New Owner

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

DEPT OF WATER RESOURCES
JAN 8 1991
MAIL
Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

DEPT OF WATER RESOURCES
JAN 8 1991
MAIL
The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Comments:

Date: 02/07/1998 User-ID: JSHURTE Subject: AF AMOUNT AND DITCH LOSS
THE AF AMOUNT ORIGINALLY LICENSED WAS BASED ON THE CAPACITY OF
TRIANGLE RESERVOIR. THE AF AMOUNT BEING RECOMMENDED IS BASED ON
3.5 AF PER ACRE PER DEPT. STANDARDS. THE AF AMOUNT FOR STORAGE
WILL BE COVERED UNDER 55-022088 FOR THIS RIGHT. AT 1" PER ACRE
FOR 437 ACRES = 8.74 CFS. THE ORIGINAL LICENSE WAS FOR 9.2 CFS
FOR 452 ACRES. THIS RIGHT IS BEING RECOMMENDED FOR THE TOTAL
9.2 CFS ORIGINALLY LICENSED WITH THE .46 CFS USED FOR DITCH LOSS.

Date: 03/04/1998 User-ID: AJU10-DS Subject: AJU10 CONDITION UPDATE
CONDITION CODE(S) H03 H04 ADDED IF NOT ALREADY PART
OF RECORD THRU

Date: 04/28/1998 User-ID: JSHURTE Subject: NOTICE OF ERROR - NO CHANGES
NOTICE OF ERROR WAS SUBMITTED REQUESTING THE SEASON FOR STORAGE
BE EXPANDED. HOWEVER, THIS RIGHT IS NOT FOR THE STORAGE PORTION
OF TRIANGLE RESERVOIR - THAT IS COVERED UNDER 55-022088. SO, NO
CHANGES WILL BE MADE CONCERNING THE STORAGE SEASON OF USE ON THIS
RIGHT. A REQUEST WAS ALSO MADE TO ADD STOCKWATER. SINCE THE
ORIGINAL LICENSE DID NOT INCLUDE STOCKWATER I CANNOT ADD IT TO
THIS RIGHT BECAUSE IT WOULD CAUSE AN EXPANSION OF THE ORIGINAL
LICENSE. NO CHANGE MADE DUE TO NOTICE OF ERROR SUBMITTED.
NOTE: STOCKWATER WAS ADDED TO THIS CLAIMANT'S EARLIEST PRIORITY
DATED RIGHT - 55-02006. THIS WAS OK SINCE THE ORIGINAL LICENSE
HAD INCLUDED DOMESTIC USE - ACCOMPLISHED TRANSFER STATUTE ALLOWED
THE CHANGE FROM DOMESTIC TO STOCKWATER.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): *PERIOD OF USE - BY DESIGN THE ROSENWALD CAPTURES ALL INCOMING WATER THEREFORE A 1/1-12/31 PERIOD OF USE REFLECTS THE REALITY OF USE*
2. Describe the changes you wish to make in the proposed recommendation: *PERIOD OF USE 1/1-12/31 PLUS THE RELEASE OF STOCKWATER 1/1-12/31*
3. Give a brief explanation as to why you disagree with these portions: *IT DOESN'T REFLECT THE HISTORIC USE PLUS STOCKWATER RELEASE IS NECESSARY 1/1-12/31*

 I AGREE with this proposed recommendation; no changes need to be made.

Comments:

Date: 02/07/1998 User-ID: JSHURTE Subject: AF AMOUNT AND DITCH LOSS
THE AF AMOUNT ORIGINALLY LICENSED WAS BASED ON THE CAPACITY OF
TRIANGLE RESERVOIR. THE AF AMOUNT BEING RECOMMENDED IS BASED ON
3.5 AF PER ACRE PER DEPT. STANDARDS. THE AF AMOUNT FOR STORAGE
WILL BE COVERED UNDER 55-022088 FOR THIS RIGHT. AT 1" PER ACRE
FOR 437 ACRES = 8.74 CFS. THE ORIGINAL LICENSE WAS FOR 9.2 CFS
FOR 452 ACRES. THIS RIGHT IS BEING RECOMMENDED FOR THE TOTAL
9.2 CFS ORIGINALLY LICENSED WITH THE .46 CFS USED FOR DITCH LOSS.

Audit: 02/26/98 JSHURTE

RELATIONSHIP TO CLAIMANT: None

DIRECTIONS TO PROPERTY / NOTES:

This exam was conducted only to verify
access and diversion points. A measurement
was made of the station/dam diversion. Licenses
were issued fairly recently, however, place of use looked
slightly different, so the exam was to verify the
place of use. No apt made or needed for this
type of exam.

* FOR CLAIMS BASED ON BENEFICIAL USE, DESCRIBE THE EVIDENCE OF PRIORITY SUBMITTED, INCLUDING THE ANALYSIS OF THE EVIDENCE.

H. IS THE STAGE OF THE CLAIM CODED CORRECTLY?

Y(☒) N(☐)

NOTES:

Per current Sept. policy the acres irrigated in 1971 are being recommended now. King 615 mapping shows some discrepancy w/ # of acres irrigated per 1/4, however, the same land area is being recommended. The verification issue involves land in the SWSW, SESE, SENE, S. 24. In 1971 these were being spindly irrigated, however, due to changes of the previous owner John Albert, these acres have not been irrigated for several years (those above the dotted line). Current

RECOMMENDED PRIORITY DATE:

02-09-1965

REVIEWED BY

DATE 2-9-98

Sept. policy to recommend acres once irrigated & licensed if the owner could resume the system (spindly) again.

☒ NAPP, IDWR NO. AA55 SE 1987; ☒ ASCS PHOTO; () OTHER _____

NOTES:

There is indication of non-use in the SWSW, SESE, & SSE of Sec. 24 due to the spindles system that was once there being removed however, per present Dept. policy, if the system can be put back in & the claimant want to pursue that, then we should recommend what was once indicated & licensed. The 15 acre discrepancy is due to better acre calculation at this time than in 1971 and not due to forfeiture.

NOTES:

The purpose of use licensed is for the water of diversion (actually, redistribution) from Fork Creek ~~to~~ below the dam. The storage portion of this right is licensed under 33-02208 for the same priority date. Therefore, this right will be limited to a dollar amount for migration and the associated storage amount will be licensed & recommended under 33-02208B. The reason of use is being changed to meet IDWR standards of 11-15 to 10-15. Note: This right & 33-02208B have the same date of priority.

4347 x .02 = 8.68 - 9.2 CFS RECOMMENDED

- 8.68

entire 9.2 cfs for these 437

1b. CALCULATIONS

Total Capacity of ditch - 17.64 cfs

Div. license issued for 548 AC for 11.16 cfs. This owner had 452 of the 548 ACES which gave them 9.2 cfs. Now 437 irrigated x .02 = 8.74 cfs with the remaining .46 cfs made up then added was. Will recommend entire 9.2 cfs for these 437

Due to litigation - at bottom of the exam, the div. rate from station Res. was measured.

NOTES:

See previous page for Cys calculation.

The storage AF is being recommended (PROPORTIONATELY) under 54-022083 as licensed and the Cys amount will be recommended under this right as licensed (PROPORTIONATELY). Both rights have the same priority dates. The AF amount for this right is based on the AF/AC for that 237 acres. ~~It~~ - not the storage amount.

MANNING EQUATION CHANNEL CAPACITY RESULTS

08-25-1993

File Number: A55-02006
Claimant: CAROL GILBERT
Channel measured: DITCH FROM HATTEN DAM
Date of measurement: 08/24/1993
Measurement location:

JUST BELOW DAM

Calculation prepared by: JAN SHURTE
Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 195 feet.
The upstream and downstream rod readings are 7.28 and 7.40 feet.
The channel cross section is 18.38 ft-sq.
The wetted perimeter is 12.42 feet.
The hydraulic radius is 1.48 feet.
The slope is 0.0006
The roughness coefficient is 0.0500
The flow velocity is 0.960 ft/sec.
The rate of flow is 17.64 cfs.

CROSS SECTION NUMBER 1

For File Number A55-02006 for the DITCH FROM HATTEN DAM

Number	Rod Reading	Water Depth	Distance
1	0.00	0.00	0.00

MEASUREMENT CALCULATION:

Due to the reservoir, as much water as needed can be turned into the 3 separate ditches. Therefore we can license this permit for the capacity of the ditches not to exceed 1" per acre. Lawrence's ditch for 9.04 and Gusti's ditch for 1.92 cfs.

SYSTEM DESCRIPTION:

Water from Rock Creek + House Creek run into a reservoir which is capable of storing 1154 AF. Water is then delivered to 2 separate ditches by means of 2 separate outlets. The land is then flood irrigated. Acreage for Mr. Lawrence was computed from aerial photo supplied from Mr. Lawrence. Acreage for Mr. Gusti was computed from Quad maps and elevation lines.

REMARKS:

The land described in permit belongs to 2 different people. Mr. Lawrence has developed most of his land with ditches dig capable of irrigating 452 acres. His ditch is capable of holding more than an inch per acre or 9.04 cfs. Mr. Arnold Gusti is irrigating 96 acres and his ditch is capable of handling much more than 1" per acre. Allow 11.16 cfs for this permit.

LICENSE OF WATER RIGHT

License of Water Right No. 55-2152 Priority 2-9-65 Amount 11.16 cfs

THIS IS TO CERTIFY, that Angelo Giusti and E. P. Lawrence
of Nampa, Idaho, has complied with the terms and conditions of Permit
No. 55-2152 issued pursuant to Application for Permit dated January 6, 1965
and has submitted proof to the Department of Water Administration on February 17, 1971
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 11.16 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from Rock and Louisa Creek
tributary of Snake River, is hereby confirmed in the following amounts:
Amount 11.16 cfs for irrigation from Apr. 1 to Nov. 1 (both dates inclusive)
Amount _____ for _____ from _____ to _____ (both dates inclusive)
Amount _____ for _____ from _____ to _____ (both dates inclusive)
Subject, however, to the condition that no more than 11.16 cfs of water be diverted at
any one time, said waters to be diverted within the _____

SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 30, T. 7S, R. 2W, B.M.

in the county of Owyhee; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 1644 acre feet per year or
3.0 acre feet per acre, when combined with License No. 55-2208.

Description and location of place of use:

Re: Wintercamp Ranch Trust claims
Date: December 27, 1996

I have completed the Change of Ownership for Gilbert to Barnhill to Ward and Gilbert to Barnhill to Gilbert. Attached are forms for the balance of the land: Gilbert to FmHA to Barnhill to Putnam to Wintercamp Ranch Trust (Whew!). I note that the c-o has been done on AJ but wonder if these originals are needed to complete the files?

9-11-92 NOTICE: COPIES OF ALL
REQUEST PAPER DOCUMENTS MADE & GIVEN TO DON
BARNHILL (750 COPIES) PICTURES HE CAME IN &
TOOK PICTURES OF OUR
PICTURES IN FILES

COMPLETE (EVERY DOCUMENT, PICTURE, ETC
OF WATER RESOURCE BOARD FILES REGARDING
WATER FILINGS, RESERVOIR PERMITS, FILINGS &
WORK IN PROGRESS REPORTS, DEPARTMENT AND
PRIVATE COMMUNICATION ETC.

OF TRIANGLE RESERVOIR, AND RELATED WATER
FILINGS

WE REQUEST DOCUMENTATION IN DUPLICATE AND
~~THESE~~ COPIES OF FILE PHOTOS MADE OFF OF

Re: Water Rights - Rock Creek and Louisa Creek

Dear Mr. Barnhill:

Charles W. Steiner has consulted me regarding the distribution of water through the divider box immediately below the outlet of Triangle Reservoir. You are reported to be the person who removed the divider box, made a cut in the left-hand lateral, and filled the first 30 feet or so of the left hand lateral extending from the divider box.

It is reported to me that you are purchasing the ranch owned by Mrs. Carol P. Gilbert, which receives the water that is released from the Triangle Reservoir.

Mr. Steiner, his son John Steiner, and Lester Buck met with me on July 8 to discuss the situation and to explain the history and operation of the Triangle Reservoir. On July 10 I visited the Triangle Ranch and examined the Triangle dam and some of the main ditches on the Triangle Ranch, as well as the Bachman dam and reservoir on Louisa Creek.

Although I expect to obtain additional information regarding the dam and the ditches and the manner in which they have been operated, for purposes of the Snake River Basin Adjudication, I believe the information I obtained last week, together with a review of maps, aerial photographs, water licenses and notices of claims in the adjudication, is sufficient to conclude that you had no authority to remove the divider box and to cut the bank and then fill in the left-hand ditch, and that you will be liable to Mr. Steiner for the cost of rebuilding the divider box and clearing the ditch, and for crop loss resulting from loss of use of the water before the divider box is replaced and the ditch is cleared.

Based on that conclusion, I have advised Mr. Steiner to install a temporary facility of whatever nature he deems appropriate to properly divide the water that is being released from the Triangle Reservoir between his ranch and the ranch you are purchasing from Mrs. Gilbert.

Mr. Don Barnhill
July 14, 1992
Page 2

The Triangle Dam was constructed pursuant to a verbal agreement between Angelo Giusti, Mr. Steiner's predecessor in interest, and E. P. Lawrence, Mrs. Gilbert's predecessor in interest, in the fall and winter of 1964-1965. According to Mr. Buck, who owned a 10% interest in the Triangle Ranch and was a participant with Mr. Giusti in the agreement, the deal was that Mr. Lawrence would contribute \$65,000.00 toward construction of the dam, and the owners of Triangle Ranch would contribute the use of the land and would manage the construction. The agreement further provided that the storage capacity of the reservoir created by construction of the dam would be divided equally between the two ranches.

After the dam was constructed, Giusti and Buck installed the upper headgate and constructed a ditch extending from that headgate to the west, and they extended that ditch to join up with the old highline ditch that delivered water from Louisa Creek. It appears that the highline ditch might have been enlarged at that time, also.

At the time the Triangle dam was constructed, the Triangle Ranch already had established water rights with 1898 priority in Louisa Creek, and in Rock Creek/Louisa Creek with 1908 priority. The 1898 water right is for 3.0 cfs and includes 900 acre feet of storage, which probably has a later priority date, since the dam on Louisa Creek reportedly was not completed until about 1923 or 1924. The 1908 water right is for 3.14 cfs.

The ditches extending from the outlet of the Triangle Reservoir, or earlier versions of those ditches at approximately the same locations, were used to divert and distribute water under the 1898 and 1908 water rights. Mr. Charles Steiner and Mr. Buck informed me that, insofar as they know, the right-hand ditch was never a part of the delivery system for the Lawrence/Gilbert Ranch, and that water from Rock Creek for that ranch always has been diverted at the Hatten Dam near the west boundary line of Section 30, Township 7 South, Range 2 West, B.M. Water diverted through the two ditches that serve the 1898 and 1908 water rights, to the extent it was not consumed in irrigation on the Triangle Ranch, returned to the channel of Rock Creek and became part of the source of water for the portion of the Triangle Ranch below the Hatten Dam and for the irrigation of the Lawrence/Gilbert Ranch, under whatever flow rights might exist for that ranch.

It is my recollection that Mr. Buck told me that he and Mr. Giusti acquired the Triangle Ranch in the mid-1950's and that

during the entire time of his acquaintance with the ranch the owners of the Lawrence/Gilbert Ranch never did participate in the operation or maintenance of the right-hand ditch below the Triangle dam.

Apparently the basis for your removal of the divider box and blockage of the left-hand ditch is your theory that the Triangle Ranch is entitled to receive water from or through the Triangle dam only when the water level is high enough to supply water through the upper headgate. The theory ignores the fact that the agreement was that the stored water would be divided equally between the two ranches, and ignores the fact that under the 1898 and 1908 water rights the Triangle Ranch is entitled to divert 6.14 cfs at the outlet of the reservoir, because that outlet was substituted for the original points of diversion under those two water rights, when the original points of diversion were obliterated by the construction of the dam.

Also, your theory fails to recognize that the reservoir has been operated from the outset in accordance with the agreement that the water would be divided equally between the two ranches.

It seems to me that in the past the two ranches have been able to operate in a cooperative manner that serves the best interests of both. There probably is some efficiency available by carrying water in the right-hand ditch instead of in the channel of Rock Creek, to the backwaters of the Hatten Reservoir. Without taking into account the comparison of seepage loss from the creek channel as compared to ditch loss in the right-hand ditch, part of the water right for the Lawrence/Gilbert Ranch can be satisfied by return flow from the Triangle Ranch. Apparently these considerations and others were taken into account in the past, and they should be taken into account now. The past methods of operation avoided the necessity for such other technicalities as measuring the natural flow of Rock Creek and the natural flow, combined with storage release, from Louisa Creek, at the points where those waters enter the Triangle Reservoir. As far as I can tell those flows need to be taken into consideration at all times during the irrigation season, because the priorities of those water rights are earlier than the priority of any of the 1965 priorities established by construction of the Triangle Dam.

If you have some substantial evidence to refute what I have discussed above, please send it to me immediately for evaluation and analysis. In the meantime, this letter constitutes formal notice to you that the Triangle Ranch is entitled to the natural

flow of Rock Creek and the natural flow and released storage of Louisa Creek, up to a maximum of 6.14 cfs, as well as one-half of the water stored in the Triangle Reservoir, all of which Mr. Steiner is entitled to divert into his two ditches at the outlet of the Triangle Reservoir. If you have a problem obtaining the amount of water to which the Lawrence/Gilbert Ranch is entitled under the agreement covering the Triangle Reservoir, this letter further constitutes formal notice to you to contact me so that efforts can be made to work out the problem, instead of violating Mr. Steiner's property rights by destroying his diversion works and cutting the low bank or filling in his ditch and thus depriving him of water which he is lawfully diverting into his ditches.

I am enclosing copies of Idaho Code § 18-4306 and Idaho Code § 18-7019, and I ask that you carefully analyze these statutes in evaluating your situation at the Triangle Reservoir. I ask you to consider, also, the fact that there is no written easement for whatever interest the Lawrence/Gilbert Ranch might have in the Triangle Dam and in the Triangle Reservoir, which indicates to me that under Idaho law the use of Triangle Ranch property for your interest in the dam and reservoir is under a license, and that license is subject to revocation by the landowner at any time after the holder of the license has had a reasonable opportunity to recover his investment in the facility. The Triangle Dam and Reservoir could very easily be at or near the end of the time period necessary for recovery of the investment.

Unless I hear from you on this matter by July 24, I will assume that you will make no further efforts to disrupt the distribution of water from the Triangle Reservoir and from Rock Creek, and that any differences you might have with Mr. Steiner regarding the legal ramifications of the situation will be handled in the Snake River Basin Adjudication.

Yours very truly,

W. F. Ringert

RE: Claim No. ASS-02152A+B/ASS-02208A+B

filed for Triangle Reservoir.

Mr. Barnhill is purchasing this property from Carol Gilbert (widow of John Gilbert). Originally, the license was used for 96 acres of Charles Steiner's land & the remaining acre are Gilbert's. Mrs. Steiner has claimed all the lands under the license and Mr. Gilbert has claimed all but the 96 acres. There appears to be a conflict as to who has what rights to this reservoir and during the field exams certain questions need to be asked. I will ^{partially} review these claims for exam & write questions for each based on my conversation with Mr. Barnhill & Mrs. Gilbert.

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants: *CLAIM NO'S. A55-0220PB & A55-02152B
OWYHEE CO.*

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in June. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this summer in your area, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority claimed also needs to be verified. Letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

To make an appointment, or if you have any questions or problems with scheduling the exam, please contact one of the following water resource agents:
