NOTICE OF FILING FOR REPORTING AREA 6 (IDWR BASIN 55):

- ▶ **Conjunctive Management Director's Report**
- ▶ **Irrigation Season Of Use Supplemental Report**

The Director of the Idaho Department of Water Resources (IDWR) has filed with the Snake River Basin Adjudication (SRBA) District Court his Report for Basin 55 regarding the interconnection of water resources within the Snake River Basin. This Report is the Director's recommendation for the conjunctive management general provision that should be decreed for Basin 55.

Additionally, the Director of IDWR has filed with the SRBA District Court a supplemental report changing his recommendation for the irrigation season of use for the following water rights:

<u>Right No.</u>	<u>Owner</u>
55-02154	06 Livestock
55-07342	Josephine Creek Ranch
55-07001	Thomas R. & Anita L. Gluch

The Court will decide how it will decree a conjunctive management provision in Basin 55 and the irrigation season of use. You are free to agree or disagree with the Director's recommendations in these reports. If you agree with the Director's recommendation you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendation, you need to file an objection as described below.

INSTRUCTIONS FOR REVIEWING THESE REPORTS

Attached to this Notice is the complete Conjunctive Management Director's Report for Basin 55. The complete Irrigation Season of Use Supplemental Report for Basin 55 is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing. If you are claiming a right for which the Director has issued a new irrigation season of use recommendation, a complete description of the Director's recommendation for your claim is attached to this Notice. If so, you need to carefully review the new season of use recommended for your irrigation right.

INSTRUCTIONS FOR TAKING AN ISSUE TO COURT

What do I do if I disagree with the conjunctive management provision or a season of use recommendation?

If you disagree with IDWR's conjunctive management provision, or the season of use recommendation for your water right or anyone else's water right, and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form available from any IDWR office or from the SRBA Court and copies mailed to the parties shown on that form. You may also download a copy of the objection form from the SRBA Web Site at www.srba.state.id.us or the IDWR Web Site at www.idwr.state.id.us/idwr/info/water/srba/main.htm.

Your objection to IDWR's conjunctive management provision, or the irrigation season of use for the rights listed above must be **received** by the SRBA Court on or before **January 29, 1999**.

What do I do if someone else objects to with the conjunctive management provision or a season of use recommendation?

If someone files an objection to IDWR's conjunctive management provision, or the season of use recommendation for your water right or anyone else's water right, you may file a response to that objection. Responses to objections must be made on the standard response form available from any IDWR office or from the SRBA Court. Your response must be **received** by the SRBA Court on or before **March 5, 1999**.

What happens if there are no objections to a water right?

After the deadline for filing objections, the SRBA Court will hear the uncontested recommendations on **March 9, 1999, at 10:30 A.M.** at the **SRBA Courthouse**. Any part of the report to which no objections are filed may be decreed by the district court.

How will I know about the proceedings on water right recommendations to which objections were filed?

A notice will be mailed to you for court dates on your water right or for those where you filed an objection or a response. You will not receive notice of court dates on any other water right recommendations. Additional information regarding the SRBA can be found on the SRBA Web Site at www.srba.state.id.us.

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA. The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50. The Docket Sheet is also available on the SRBA Web Site at www.srba.state.id.us.

RE: NOTICE OF CLAIM NO[S]:

Dear Mr. Stanford;

We are currently in the process of preparing the above referenced Notice(s) of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claims listed above. All claims with an A55 prefix number are being reviewed at this time. The following claims require the information or changes listed by the response date shown above.

Priority Date

A55-10010-Stockwater storage

The evidence you submitted as proof of first usage indicates that this storage pond was not built until 1976. Based on this date it is necessary to file an application for permit to appropriate a new water right. This is because of the water appropriation statute for surface water sources making it necessary for a water right application to be filed on uses beginning after May 20, 1971. Therefore, it will be necessary for you to submit further evidence substantiating that this usage began before that date.

A55-04116 & A55-10218

The information you submitted supporting the priority date claimed on the above two rights did not include the following parcels of land: T5S, R6W, Section 26, SW1/4SW1/4, Section 27 and Section 34, lots 1, 2 and 3. Please submit some type of evidence supporting the irrigation usage for the claimed priority dates.

Place of Use

A55-02154, A55-04116 & A55-10218

The total number of acres calculated on these rights turned out to be less than what was claimed. In the case of licensed right A55-02154 this would result in what is referred to as a partial forfeiture. However, it appears the decrease in acreage is a result of acreage calculation rather than a lack of irrigation.

Thank-you for your cooperation. If you should have any questions, or if you would like to review the maps outlining the irrigated acreage, please contact me at 208-334-2190.

Linda A. Werner
