HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

RE: Snake River Basin Adjudication (SRBA)
Owyhee County - Petan Company of Nevada, Inc.

Dear Mr. Danner:

Enclosed please find copies of the 33 claims that have been processed. I have completed the review and have data entered them into the computer system. If you find any errors or wish to modify any claims, you may have the claimant write in the changes, sign the form, having his signature notarized, and return them to my attention.

Also enclosed are the claims that were submitted in March, 1989, which we discussed on the telephone. The claimant at that time requested that they not be processed, nor were any fees submitted with them. Please return them to the claimant.

I have enclosed copies of Receipts C023419 and C023750 that I have modified with the appropriate claim numbers for which each receipt applies. The above mentioned 33 claims have balanced out the total fees received thusfar.

Please let me know if I can be of any assistance.

Sincerely,

Helen Harrington-Thornton

RE: Snake River Basin Adjudication (SRBA)
Owyhee County - Petan Company of Nevada, Inc.

Dear Mr. Danner:

I have completed my initial review of the 46 claims you submitted in the name of Petan Company of Nevada, Inc. I can appreciate the amount of time and effort involved in the completion of these claims and I commend the quality and detail of the final product.

There are several items I would like to clarify that affect the entire set of claims, and then I will discuss the specific issues on the claims being returned with this letter.

The fees are calculated based on the number of stock being watered. If the number of head exceeds 1,000, the acre-foot quantity is converted into cubic feet per second by dividing by 1.98 divided by the number of days used (all used 365). The 1,000 head figure is generally the number of head that can be watered within the 13,000 gallon per day limit. Those claims whose number of head do not exceed 1,000 head are charged \$25 flat fee.

Late fees are calculated at \$50 or 15% of the flat fee, whichever is greater. (For your records, I am enclosing a copy of the Request for Extension of time filed by Mr. Polkinhome in 1989 that was denied.) I have written the calculated fees for the enclosed claims on the upper right corner of each claim to assist you in returning these claims with appropriate fees, if they are returned. If these claims are returned with modifications or replacement claims, please confirm the correct fee.

✓ Of the 46 total claims, 33 claims are acceptable. The fees for these 33 claims total \$3,054.00. Fees submitted with the claims were \$2,155.00 (Receipt No. C023419, enclosed). Therefore, I need \$899 additional fees for the claims I am holding. As soon as I receive this amount, I can complete the processing of these claims.

The claims which are for stockwater reservoirs will be processed with Item 6 completed as follows:

| <u>Purpose</u> | <u>Period of Use</u> | <u>Amount</u> |
|--------------------------|----------------------|---------------|
| ✓ Stockwater for Storage | 1/1 to 12/31 | AF |
| Stockwater from Storage | 1/1 to 12/31 | AF |

If this does not accurately reflect the use, please let me know and we can discuss this further.

✓ One claim has been withdrawn at the request of John C. Jackson in a letter dated March 11, 1992. I am enclosing a copy of that letter and the withdrawn claim. Please return it to the claimant.

There are 12 claims being returned for further clarification or reconsideration. Seven claims are for instream stockwater use. Although they can be submitted on the "short" form (42-1409 (2)b), they must include the required information. In the case of instream flow, we require the point of diversion item to describe a beginning and ending point for the stretch of water to which the stock can use the water (see Item 4, "long" form). This may be where the stream channel enters and exits a fenced pasture. The place of use should also include all quarter-quarters though which the stream flows and the stock have access.

There are five claims that have specific issues that need to be resolved:

1. Claim for Domestic/Stockwater, priority date July 1, 1944. Please identify the specific point of diversion. The claim states Lots 3 & 4. I have enclosed a government plat and copy of the USGS topographic map of that area to assist you.
2. Three claims, based on Permit 55-07005, are being returned to allow the claimant an opportunity to reconsider the filings. As you will note on the enclosed Profile Report for Permit 55-07005, the permit was filed for 0.06 cfs. The three claims were filed for 0.14 cfs each. A field exam for the purposes of licensing the permit will be conducted this summer and it should be noted that the examination and licensing process will not increase the

quantity on the permit. A new application for permit would need to be filed to increase the rate of diversion.

The stockwater use described on each claim falls within the exemption for permit requirements. A permit does not need to be obtained for stockwater from groundwater for uses less than 13,000 gallons per day. The claimant may wish to file these claims based on beneficial use and there would not be any conflict with the statutes.

These three claims can be returned and I will process them if appropriate fees accompany their return. The claimant may, however, elect to modify the claims and return the modified or replacement claim(s) with appropriate fees and I will continue the processing.

3. One claim based on License 55-02027 included irrigation, irrigation storage, and stockwater, with a total diversion rate of 3.54 cfs. As you will note on the attached profile report, the license includes irrigation and domestic uses only, with a total diversion rate of 3.1 cfs.

As discussed in Item 2 above, the claim exceeds the recorded uses and rates. The excess item may be claimed with a basis of claim as beneficial use, rather than the basis of claim being the license. If the priority date is 1910, there would not be any conflict with existing permit statutes.

If the claimant elects to return the original claim, I will be happy to process the claim. However, the claimant may take this opportunity to modify or replace the claim at his discretion. In either case, please include appropriate fees.

I would appreciate hearing from you as soon as possible to allow the processing of these claims to continue and be identified for the claims review during the 1992 field season. I would be

RE: Snake River Basin Adjudication (SRBA)
Petan Company of Nevada, Inc.

Dear Mr. Danner:

In response to your request dated February 13, 1992, I have enclosed the following information:

1. Copy of a page from our "OLD NUMBER BOOK" with a correlation between old and new number covering the sequence you specified.

2. Copy of Field exam for 55-02204, 02205, 02206, 02207, 55-07003, 07004. Water right 55-07005 was reinstated and proof was submitted, and is presently awaiting a field exam. A claim needs to be submitted for 55-07005. You should address a letter to Jim Johnson of our water rights section to see if there is anything further that needs to be done in regards this permit.

3. For all of the above and the legal description from the map, I have enclosed a profile report for each right. I have also enclosed a profile report for each right which has an adjudication claim filed for it. I covered the area by township, and therefore you will need to sort out those you are interested in from those outside the map area.

Claim forms and instructions were sent to you earlier. If I have not addressed all of your questions, please feel free to contact me.

Sincerely,

John D. Carlson

RE: Petan Company of Nevada, Inc.
Snake River Basin

Dear Mr. Carlson:

Enclosed is a map of the area which we would like to have copies of any filings of water rights. Some of the following are within the area: Water License No. R-1107 thru R-1124 and R-1130. All of the above have had Notice of Claim to a water right (Form No. 42-1409(2) A 1/88), Civil Case Number 39576 filed, but, we'll need the pertinent identification numbers of each so that amendments can be filed.

We know that R-1177/55-2204, R-1178/55-2205, R-1179/55-2206, and R-1181/55-2207 have been filed. We would like to have a copy of the beneficial use filed on the above four (4) listed numbers. We also know that 55-7003 and 55-7004 have been filed and would like to know the status of 55-7005. We have a copy of 55-02027. Will you check your records and see if any other rights are filed within the area on the map?

Would you please send us fifty (50) blank forms of No. 42-1409(2)a 1/88 and twenty five (25) blank forms of No. 42-1409(1)b 1/88.

We hope to have the work completed before March 6, so your early return of the requested material will be appreciated. We will promptly pay your invoice.
