1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

PU Irrigation and stock

2. Describe the changes you wish to make in the proposed recommendation:

PU Irrigation: T7S, R3W, S01, SE NE 20; NE SE 30.5; NW SE 1.5; SW SE 7.5.
change to: S12, NW NE 14.5; NE NW 16; SW NW 12; SE NW 3.5

PU Stockwater: T7S, R3W, S1, add ~~NW NE~~ NW NE, LOT 1 (NE NE), SE NE, NE SE, NW SE, SW
SW, NW NE, NE NW, SW NW, SE NW

3. Give a brief explanation as to why you disagree with these portions:

① I use the acreages off Ron Hamerton's map for IDWR; if map changed, I defer to Ron (but please send me a new copy).
The Hamerton map is still 105.5 acres.

② PU stockwater - the reservoir appeared to be in S1, NW NE, so I added it.

I AGREE with this proposed recommendation; no changes need to be made.

Re: Water rights:

Dear Ron:

Thanks for sending the printouts and particularly the attached maps. What you have sent me for printouts on the following are fine, and I appreciate the changes: 55-13675; 55-13677; 55-13676; 55-13678; 55-13671; 55-13672; 55-13674. The following are comments requiring further action:

A55-13679 (my # 5, Meadow, S23, S25, S26 instream). PD #1: (BP) S23, NWNENW, (EP) S26, SENENW; PD#2: (BP) S26 NWSWNE, (EP) S25, SESWSW. PU changes to: S23, NENW, SENW, NESW, SESW; S25, NWSW, SWSW; S26, SWNE, NENW, NWSE, NESE. Ron, the printout appears to me to have the EPs reversed, so I think the EP's on the printout should be S26 SENENW, then S25 SESWSW; that way, the order matches up to the printout of the BP's. Please send me a revised printout to reflect the change.

A55-13673 (my #9 BoulderCreek instream): You were adding PU of S28, NENE. The new printout faxed 3/20/98 still omits S28, NENE as an additional PU. Please send me an updated printout with the revision.

Thanks for the color GIS maps. On those:

55-02094 and 55-04021 (my # 7 Florence irrigation), the acreages are fine; please add PU stockwater S1, NWNE. Please send me an updated printout.

55-04020 (my # 9 Boulder irrigation), acreages are fine; still I want to delete PU S28, SWNE as not owned; ignore my request to add PD at S28 NESW. Please send me an updated printout.

55-10234, acreages ok; no other changes. Please send me an updated printout.

55-10346, acreages ok; add barn to house as domestic use. Please send me an updated printout.

Please do me a favor and send me as a big a blow up as you can of the GIS, color map, of T6S, R3W, S28, NWSE as well as another one of S28, SWNE.

Thanks for the help.

Very truly yours,

Joe Parkinson

JOE,

REF: 55-04021 CONCRETE BOX AT DAM

I DOUBLE CHECKED ABOUT THE POSSIBILITY OF CALLING THIS POINT A P/D.

NO, IT IS NOT A P/D NOR IS IT A REDIVERSION, YES IT IS PART OF THE DIVERSION SYSTEM MORE PROPERLY CALLED A DISTRIBUTION POINT, BOTH YOUR WELL AND SPRING CREEK WATER ARE DISTRIBUTED HERE. THE CLUE TO ALL OF THIS IS THAT THE DISTRIBUTION BOX OR POINT IS NOT IN THE NATURAL CHANNEL.

THE DAM IS IN THE NATURAL CHANNEL MAKING IT A P/D, ALSO SHOWN ARE THE P/D #2 AND REDIVERSION POINT BELOW THE DAM, THEY ARE IN THE NATURAL CHANNEL.

HOPES THIS MAKES SENSE.

SUBJECT: BASIN 55 CLAIMS, New APPLICATION & LATE TEST BASIN CLAIM.

1. Called & discussed that I was about finished amending Basin 55 claims that we discussed to include stockwater. I will mail them ASAP.
2. I sent maps for his application for new 1996 stock well at Bonus Cove stock tanks added in 1996. (Basin 57)
3. I sent map, claim form and SF3 form for late claim of stock at Bonus cove Domestic Rock house. (Basin 57)
4. Sent map for Mammoth Creek and Draft in-stream stock claim form. (Basin 55)

JOE PARKINSON

SUBJECT: BASIN 55 WATER RIGHTS QUESTIONS (MORE FOLLOW-UP)

1. Wanted an application for a right to use a new well drilled at the Bonus Cove Ranch for additional stock water in 1996. This might be exempt, but wants a right recorded on it. (Sent application)
2. Wants to file in-stream-stock on a stream near Boulder Creek, he will send me a fax, then I can send him a draft claim with beginning and ending points.
3. I advised Joe that I am amending the Basin 55 rights preparing them for amendments to add stock as he requested. I advised him that these claims were temporary until he signed them, they are based upon what I had found in the field and different DOP dates maybe reflected based upon the affidavits we had, within these claims. Thus, if he was in question or disagreement with anything I put on these, he could cross out, write in, or whatever, he wanted to change or add then initial each change. He agreed.

New "E" Mail jparkinson@8x8.com

SUBJECT: Basin 55 Rights

1. Called asked if he got my packet and E mail message?
2. No, not yet and he gave me a new E mail address, shown above. He said he can still retrieve the other E mail, he doesn't use it as much.
3. I went over all of the questions I had on the E mail dated 6 Jan 1997. He ok'd the idea of amending all of the claims to show stockwater for year round use, with the exception of the Spring Creek license A55-02094. This will only show stockwater for the irrigation season, recommended under accomplished change in nature of use. (On the storage, I will check to see if the reservoir is shown as a POU, if not I may add that to his amended claim to sign, if on his land)
4. He also wanted to amend the Florence Spring to 1000 hd and file a beneficial use claim for in-stream stock for the spring creek lands that it flows through on his property.
5. I told Joe that I believe we have enough affidavits in the filed to make the changes, if not, I will contact him. He needs a copy of our affidavit form.
6. I explained on the basin 57 packet how we determine beginning and ending Points of diversion and I enclosed samples for him in the packet and to call me if he has any questions.
7. I also informed him that the well drilling permit had questioned me about had expired and he would need to file a new one when he was ready.

Joe,

This is the first time I've tried to send an E mail to you.

I hope you are still on line...

1. Follow-up from our conversation January 2, 1996.
I hope you have received the packett from me that has the instructions for filing late claims in basin 57.
2. I checked on the well drilling permit 57-94-w-0066-000 and sent you a copy, the bad news is that it has expired. You will need to submit a new one.
3. I have looked at the claims for basin 55 for Spring creek, Florence spring and Boulder creek.
 - a. I will need to send you an amended claim to show stock use for all claims, but Florence Spring, you did claim stock on it, however, you only showed 700 Hd. If you want to amend this let me know and I will send an amended copy of it for 1000 hd.
(A55-10346)
 - b. For claims A55-04020A (Boulder Creek) A55-04021 (Spring Creek Storage), A55-10234 (Groundwater) I'll send you an amended claim that shows all year round stockwater for you to sign and return.
 - c. For claim A55-02094 Live flow for Spring Creek, it is a license and I can send it also to add stockwater, however, it can only be for the irrigation season, diverted water, this would be an expansion if we put all year round on it.
 - c1. You could also file a new beneficial use claim for instream stock for Spring Creek for all year round use, but you may have enough, from the changes we are doing on the others, you let me know.

It looks like I have enough affidavits in the files to qualify these changes, if not I'll contact you.

SENT 1-3-97

SUBJECT:

1. Send maps for 57-11504 ✓ & 57-11506 ✓ for D&S claims, wants to verify where they are. Fax is ok.
2. Wants to file in-stream stock, all year round, for Spivey Ranch area, Castle Creek, send claim forms & late claim forms for court. May use any date after decree for DOP. I will look-up and send the date. I will send a map. ((Andrew said I could help fill-out the draft forms with the maps for the tracts, but not to make any decisions for him, such as the DOP))
3. Send computer printout of A55-02094 ✓ and 57-07584 ✓. Also, send a computer printout of permit 57-07570 ✓
4. Send copy of drilling permit 57:94:W:0066:000 ✓, this is for a replacement well where two wells are tied in together. Claim 57-10493, which is the same P/D as 57-10496. Check and see if the permit is still good, if not he may want to use the copy to re-new again later.
5. Talked about 57-07186 and 57-07222, a hearing for a stipulation to add stock to these rights. I looked up both, neither show stock. Also, talked about some public land being deleted from these rights, the NENW 4.2 acres and the NWNW 1.0 acres. Believes the total to be 348.
6. Checked on A55-04021, A55-10234 and A55-02094 the Florence Spring Area, they didn't have stock claimed, thus, he wants to file on stockwater for this area, send claim forms. ((Andrew said that it may just be easier to amend these claims under the accomplished change in nature of use, this would require an affidavit to show the date of change))*Jan said that for the beneficial use claims, they can just be amended, no affidavit, for the licence, if it says Domestic on the original, it can be amended also for all year round, if not it could be amended only for the irrigation season for stock, with a date of change affidavit*
7. Also, checked on Boulder Creek claim A55-04020, it didn't have stockwater on it either, please send claim form. ((Same as 7))
Same as comment on 6
8. He also wants to claim stockwater in the area claimed by 57-00093 ✓ for in-stream stock all year round, send claim form. I will send a map. ((Same as 2))

GOOD MEASUREMENT

The results of the calculation are:

The length of the channel measured is 155 feet.

The upstream and downstream rod readings are 5.42 and 5.76 feet.

The channel cross section is 1.89 ft-sq.

The wetted perimeter is 4.43 feet.

The hydraulic radius is 0.43 feet.

The slope is 0.0022

The roughness coefficient is 0.0250

The flow velocity is 1.580 ft/sec.

The rate of flow is 2.98 cfs.

ADJUDICATION MEMORANDUM

CLAIM NO.: A55-02094, 04021, 10234

SUBJECT: ADDITIONAL PROOF(S) NEEDED

EMPLOYEE: RON HUWERTON

DATE: 7-15-93

THIS WAS A FOLLOW-UP TELEPHONE CONVERSATION WITH JOE PARKINSON AFTER COMPLETION OF FIELD EXAMS ON THESE CLAIMS. THE FOLLOWING INFORMATION WAS REQUESTED DURING THIS CONVERSATION.

1. LICENSE A55-02094: Requires a date of change when the P/D's of the license changed from above dam to below dam. This probably occurred when the dam was built. So an affidavit stating when the dam was built would provide evidence for the change. USFS has shown however, on our copy of an OR40 QUAD THAT the reservoir was there at least in 1979.
2. STAT. B/L CLAIM A55-04021 This is the storage claim, the affidavits received 6-10-93 do not mention storage as part of the explanation in it. An additional affidavit must be submitted including observing the storage use. This could also, then be used for the date of change of the P/D's in the license A55-02094.
3. B/L CLAIM A55-10234 This groundwater source requires an affidavit prior to march 1963 to be able to be recommended. The affidavit submitted only shows back to 1968. Also, if you felt that this couldn't be provided an application for permit would be needed.
4. Advised that the land claimed in the SENW & NESW of sec 1 is NOT CONSIDERED IRRIGATION. IT IS sub-irrigation from the draw that the POW is in. A ditch almost runs to the POW but no evidence of earthen ditches at POW. The area was green but due to sub-irrigation only.

RE: Adjudication Claim No(s): A55-02094, A55-04021 and A55-10234.

Dear Joseph L. Parkinson,

This letter follows up our telephone conversation of July 15, 1993 regarding the additional evidence required for recommendation to the court for decree.

1. **STATUTORY CLAIM A55-04021:** This is a surface water storage claim that requires evidence of irrigation storage prior to May 20, 1971. (See 1A for surface water explanation). The affidavits submitted did not show the needed additional evidence of observing the storage use. (This additional evidence then also could be used for the date of change of the points of diversion change on the license A55-02094, see #3 below).

1A. **SURFACE WATER:** Evidence is required before the Department may be able to recommend a statutory or beneficial use type claim for storage and/or live flow uses of irrigation. Documentation must be given with reference of evidence for that date of use for storage and/or live flow irrigation uses prior to May 20, 1971, if this can not be shown, an application for permit will need to be submitted to start the approval process of making this a legal water right. The Department may only recommend the date of priority where sufficient evidence is provided for that use(s).

2. **BENEFICIAL USE CLAIM A55-10234:** This is a ground water source claim for irrigation, that requires additional evidence showing the irrigation use from the well, claimed with a date prior to March 25, 1963. (The same criteria applies to ground water as in the above mentioned surface water except the date required for evidence of irrigation uses must be prior to March 25, 1963). The submitted evidence received at our office dated June 2, 1993 only shows observing this use in July or August of 1968.

3. **LICENSE A55-02094:** This right requires evidence of when the points of diversion changed from above the dam to below the dam. Our 1979 ortho photo quad shows that the reservoir was there at least then. This could be used for the date of change, however, the reservoir storage claim A55-04021 requires evidence prior to May 20, 1971, which would be better date, for the change of points of diversion for this license.

Please submit the required evidence supporting the above claims as soon as you can. (ASAP)

Dear Joseph L. Parkinson,

Recently, you submitted the above referenced claims in the Snake River Basin Adjudication. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date". Your claims have not been confirmed by a previous filing with the Department of Water Resources since there is no-license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Therefore, before the Department can make a recommendation to the court for decree for these claims, evidence of the priority date claimed must be submitted. If we do not receive this requested information, these claims will surely be recommended for disallow due to lack of evidence supporting any priority date. I'm enclosing a brochure outlining types of evidence you may submit, and some affidavit examples of what should be on each form. Using this type format with each claim, will give the Department a clearer idea of your claimed priority date for us to consider recommending that date of priority to the court. In addition, if you write about land patent(s) or any other documents referring to your priority date in your affidavit, attach a copy of that document. This supporting evidence makes an affidavit more creditable.

A Field Exam to verify other items of the above claim(s) will be needed and scheduled as soon as possible after we receive the "Evidence of Priority" you are required to submit.

Enclosed is a computer generated print-out of the claims for your reference.

Please submit the required evidence supporting the priority dates by June 11, 1993, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, please contact myself or this office ASAP.

Sincerely,

Ron Howerton

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Dear Mr. Shaw:

Please be advised that I represent South Board of Control
Owyhee Project, Homedale, Idaho. Mr. Eric Knehans, Secretary
Manager has forwarded me some information protesting the
above described permit applications.

Request is hereby made for a more definite statement regarding
the above numbered applications for permits, so that we
may be in a better position to decide whether or not to
continue this protest. The more definite statement should
consist of the following things among others:

1. the plan;
2. the map;
3. the area of diversion;
4. the description of the beneficial use;
5. the description of all of the proposed works;
6. the area and location of lands proposed
to be irrigated.

We would further request that the hearings on these protests
be held at the Magistrate Courthouse, Homedale, Owyhee
County, Idaho.

Further, we would request that the applications be scheduled approximately twenty minutes apart on the same day, so that they may be disposed of in an efficient manner and not consume an inordinate amount of time.

Upon receipt of the above requested materials from your office, I will then contact the above named applicants, and request that we get together prior to a hearing date to see if we can resolve this matter between ourselves.

If you have any further questions or suggestions regarding this matter, please advise.

Thank you very much for your prompt attention to this matter and your cooperation on the same.

Very truly yours,
