PICTURE #1

A55-04051: FX 08-26-93. Photo's by RDH. This is the P/D, the photo shows the 24" culvert & headgate. The pipe diverts the water approx. 100' to the earth ditch.

PICTURE #2

POU photo, this is the first outlet from the ditch. POU is South of ditch.

PICTURE #3

A55-04051: FX 08-26-93. Photo's by RDH. This photo is another view of the POU from the same area but looking more to the West.

PICTURE #4

This is the up-stream X-section measurement location. The flow was not at full volume, thus a Mannings measurement was made.

PICTURE #5

A55-04051: FX 08-26-93. Photo's by RDH. This is the down-stream X-section measurement location.

RECEIVED

SEP 07 1993

Department of Water Resources
Western Regional Office

Lyle Brace being first duly sworn,
deposes and says: that my personal knowledge of the use of
irrigation and stockwater use for Claim No. A55-04051
has been used since the date of priority of Jan. 1, 1916 on
the following lands: T 10S, R 3W, Section 8, NE SE 20.0
and in Section 9, NE SW 5.0, NW SW 20.0, SE SW 15.0,
60.0 Acres Total.

As I remember, water was put on
this land about JAN. 1, 1916.

MANNING EQUATION CHANNEL CAPACITY RESULTS

08-29-1993

File Number: A55-04051

Claimant: GLENNS FERRY GRAZING ASSOCIATION

Channel measured: CURRENT CREEK DITCH

Date of measurement: 08-26-93 @ 11:10 HRS

Measurement location:

NESE SECTION 8 T10S R3W

Calculation prepared by: RON HOWERTON

Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 211 feet.

The upstream and downstream rod readings are 5.38 and 5.99 feet.

The channel cross section is 1.52 ft-sq.

The wetted perimeter is 3.58 feet.

The hydraulic radius is 0.43 feet.

The slope is 0.0029

The roughness coefficient is 0.0250

The flow velocity is 1.812 ft/sec.

The rate of flow is 2.75 cfs.

CROSS SECTION NUMBER 1

Dear Daryl Keck:

Since our conversation of setting up our appointment for August 26 & 27, 1993, I have reviewed the above claims.

Recently, you submitted an affidavit as evidence of the priority dates on the above referenced claims in the Snake River Basin Adjudication.

Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used. Your claims have not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

The affidavit that you have submitted doesn't have enough supporting evidence for the Department to recommend the dates claimed in the above mentioned claim numbers.

In your affidavit, it states that you were only providing an account as to why the priority dates were claimed and that your intent was to contact a Mr. Lyle Brace to possibly obtain an affidavit from him. Have you done this yet? Since in your affidavit you mentioned that the priority dates for these claims were based upon the homestead dates, I would suggest at the minimum, to send a copy of the page of the homestead document describing the dates and lands described by each claim with references to each claim that document provides proof for.

For the claim A55-04062, being an irrigation storage claim, a suggestion would be to get an affidavit from Mr. Brace or someone who has had personal knowledge, stating the date when they knew that the dam was completed and what lands the irrigation occurred on above claim. This would give the Department a clearer idea of when the storage for irrigation occurred.

I'm attaching an affidavit example, also enclosed is a pamphlet that is a guide to sources which may constitute proof of the priority date of your water right.

If no further evidence is submitted, by the time limit below, your priority dates, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under these rights. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible.

Please submit the required evidence supporting the priority dates by September 15, 1993, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, please contact myself or this office.

Sincerely,

Ron Howerton
Senior Water Agent

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
Water Rights Supervisor
