Thomas R. Gluck being first duly sworn,
deposes and says: According to Our land Abstract on 4/30/1874
this property was transferred from the US to John Cather
According to Homestead documents, with Lone Tree Creek and
Jordan Creek flowing through the property, assuming
most Bottom should have been cultivated by 10 years
later as in 1884. In all probability it was
irrigated in 1874.

Dear Mr. or Mrs. Gluch;

SUBJECT: CLAIMS FILED IN THE SNAKE RIVER BASIN ADJUDICATION
(SRBA)

I am in the process of reviewing the claims you filed in the SRBA for recommendation and subsequent decree. Much of the information used for this review is based on our field exam of June 10, 1992, and previous licensing exams. The following claims require the information listed.

A55-02065-Lone Tree Storage

This claim was licensed for storage of Lone Tree water for domestic and irrigation purposes. For what type of domestic usage is this used? Is it used for in-house use and lawn irrigation? And if for lawn irrigation, how much lawn? Please be specific in your reply. *No domestic usage from reservoir. Add Stock to this. 500 cattle - yearly. POU as shown on map is OK.*

A55-04060-Lone Tree live flow

Our records show that there has been a change in the location of one of the diversion points. Has there been such a change? If so, when did the change occur and where were the old diversion(s) located? *POD's used here 30 years. Prior changes occurred due to meandering nature of creek & they were moved only short distances.*

It also appears that there are some areas irrigated from the creek which are not claimed on your SRBA claim. These areas are located in portions of sections 12, 13, 14 and 23. Are these areas fed by wastewater? They are notated on the enclosed map by a question mark. *Upper areas are wastewater, but the others in dry land farming.*

The quantity of water claimed amounts to more than the Idaho standard of one inch per acre. Do you find it necessary to irrigate with more than this amount? If so, I have enclosed a form which you can fill out to verify the additional quantity. Without this information I am unable to recommend more than the standard amount. *NO. 1" / Acre is OK.*

Written info. on letter is as a result of office visit from T. Gluch on 2-22-95. L. Werner

One more item--from the information you submitted it appears that this claim can be recommended based on a posted notice. The only other information needed to verify this type of claim is that there was due diligence in completion of the water usage within five years of the time the water right notice was initially posted and recorded. Do you have any information relating to this? *To his info, no period of nonuse has occurred. Land has never sat idle or been leased out.*

A55-04061-Jordan creek irrigation

I have calculated 70 acres of irrigation versus 43 acres claimed on your SRBA claim. Is this number correct? Please review the place of use shown on the enclosed map for accuracy. *Irr. occurs on east side of creek. Land on west side is w.w.*

A55-07001-Irrigation from the well

The well location found during the field exam is different than where it is shown on the licensing field exam. Has there been a change in the well location? If so, when did the change occur? *Well has not been moved. Licensing field exam has well in wrong spot.* Also, this right was licensed for the irrigation of 364 acres; however, information received during the field exam and subsequent office visit show only about 40 acres of irrigation. Please advise me on the application of the well water as it appears that your system has the capability of irrigating more. *Well irr. 364 acres as shown on my map. It is supplemental to creek water.* I am enclosing a map which outlines the entire system. Diversion points as well as irrigated lands are depicted. The key in the lower right hand corner shows the different sources and appurtenant places of use. Please review this map for accuracy.

Please return this information, to my attention, by March 15, 1995. This will allow me to complete your claim recommendations promptly and accurately. Also, don't hesitate to contact me if you have any questions.

Sincerely,

Linda A. Werner

CECIL D. ANDRUS
GOVERNOR
R. KEITH HIGGINSON
DIRECTOR

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
