HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in

local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For irrigation purposes from 4-1 to 10-31 amount 4.5 or 1125

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 4.5 (cfs) and/or (b) 1125 (acre feet)

8. Total consumptive use claimed is 787.5 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) _____

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

12. Do you own the property listed above as place of use? Yes X No _____
If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above. _____ or None (X)

14. Remarks: The priority of this water right might be earlier than 1885. The 1885 priority date was obtained from the statement on Application for Permit, No. 17073, filed in 1915 by a previous owner. Other information might establish an earlier priority date.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

1. Is the name and address complete with zip code?

YES

NO

2. Is a priority date entered?

Is the water use exempt from the Permit requirements, or if it is not exempt, has a Permit been approved or a License issued?

A Permit is required: (1) for groundwater developed after March 25, 1963 (except single family domestic and stockwater wells using less than 13,000 gpd), or (2) for surface water developed after May 20, 1971 (except for instream stockwater). USE CARE IF CLAIM IS RETURNED. REFER TO ADJUDICATION MEMOS # 1 (ADJ. CLAIMS/APPLICATIONS) AND # 9 (REJECTION OF CLAIMS). EXPLAIN IN COMMENTS.

3. (a) Is a source entered?

(b) Is a tributary to entered? (if required) N/A

4. Is the legal description of the p.d. sufficient?

5. Is there a description of the diverting works?

6. Are the water uses appropriate for the form? The short form is limited to domestic and stockwater uses with direct diversion. All claims that include storage or instream stockwater must use long form.

Is the period of use included?

Is a quantity claimed for each use?

7. Is a total quantity claimed entered?

8. If required is a consumptive use entered?

Is the consumptive use correct?

9. Are the non-irrigation uses listed properly? If this claim is on the short form, and more than one domestic use is listed, single ownership must be stated. If not under single ownership, see Adjudication Memo # 4.

10. Is (are) the place(s) of use and purpose(s) indicated?

11. Is (are) the county(ies) entered?

12. Is the ownership of p.u. checked?

13. Are other water rights listed or "none" indicated?

14. If required, are remarks correct? (If the claimant does not own the place of use, authority for filing the claim must be explained in the remarks.)

15. Is the basis of the claim indicated?

16. Is the claim signed by the claimant, and is the signature appropriate? (If an individual is the claimant, has that individual signed the claim, or if an organization is the claimant, is the organization signature block complete?)

Has the claim been signed, sealed, and dated by a notary?

Was this claim filed on time, or was an extension granted?

Is the fee enclosed correct? Exempt

If this claim is based on an existing water right, has the identification number been entered? N/A

Should this claim be receipted and data entered?

Notice of Appropriation of Water.

Notice is hereby given that Mary J. Deary of Jordan Valley
County of Malheur State of Oregon, hereby claims Four cubic feet of water
per second of time of the waters of Lower Pool Creek, to be taken from said stream at a point upon
its West bank, which bears South 15 deg. West two hundred & fifty yards from
the North east corner of Lot Three of Section 18 Township 32 S
of Range 47 E W. M., by means of a ditch or canal, which ditch or canal extends in a North easterly
direction from said point of diversion, and is five feet wide at the top and four feet wide at the
bottom and one feet deep, and has a grade of four feet to a mile

That the name of the said proposed ditch or canal is The M. J. Deary ditch, and
the waters hereby appropriated are to be used for the irrigation of the N² N² R⁴ E¹ N² S² R⁴
of Section 26 Township 6 S of Range 6 R W. M.
Idaho
in Oregon, and for domestic purposes and the watering of stock.

Dated at Jordan Valley, Ore. this 10th day of July 1907
Mary J. Deary.

To Substantiate Rights*

Mr. Bill Ross
Jordan Valley, Oregon 97910

Re: Water Rights - Lone Tree Creek

Dear Bill:

This is a brief report of my findings to date regarding your water rights on Lone Tree Creek.

1955-1982
The application filed by Bas Deary in 1915 states that 3.5 c.f.s. of water from Lone Tree Creek and 2.0 c.f.s. of water from a spring had been used for irrigation more than 30 years. I think that is sufficient to warrant filing claims of water rights for those quantities, claiming a priority date of March 1, 1885.

The 1915 application also states that water of Lone Tree Creek to the extent of 4.5 c.f.s. has been used for the previous eight years through the ditch on the west side of the creek. I think that would be sufficient to warrant filing a claim of water right for that quantity, with a priority of March 1, 1907.

The Clerk of the District Court in Owyhee County advised me that no judgment was entered in the case of Driscoll v. Maher and others. The defendants in that suit included P. B. Deary and Mrs. M. J. Deary, who appear to be previous owners of your property. P. B. Deary probably is the Bas Deary who filed the application in 1915. Driscoll claimed a water right for 720 inches (14.4 c.f.s.) with a priority of 1871. However, his complaint indicated that only 4.0 c.f.s. had been applied to beneficial use in 1871, and that the balance of the water was appropriated at various times between 1871 and 1895. Apparently his facts were not strong enough to warrant proceeding with the lawsuit, and the court record really is of questionable value in establishing the quantity and priority of the Driscoll water rights.

RECEIVED

MAY 05 1998

WATER RESOURCES
WESTERN REGION

June 8, 1982

We inquired of the Idaho Department of Water Resources regarding water rights on Lone Tree Creek. The Department does not show any licensed water rights on the creek. They do show three uncanceled permits and four claims of water rights under the constitutional method of appropriation that I discussed with you when you were in the office.

The only priority date earlier than your 1885 water right claim is a claim by William Maher for 1.1 c.f.s. with a claimed priority date of July 1, 1872. The diversion point is in Section 22, T. 7 S., R. 6 W., which is upstream from your diversion points. Besides the 1872 claim there are two claims stating priority dates earlier than your 1907 claim. One is by Thomas R. and Anita Gluch for 9.77 c.f.s. with a claimed priority date of January 1, 1887. The other is a claim by Terry Warn for 4.44 c.f.s. with a claimed priority date of March 1, 1904.

By reason of these other claims, there is a possibility that a water right for 1.1 c.f.s. might come ahead of your 1885 and 1907 claims, and that two water rights aggregating 14.21 c.f.s. might also come ahead of your 1907 claim.

I have compared the land descriptions stated in the 1915 application with the map prepared in connection with that application, and with our Metzger maps and your tax collector's notices. From what I have found thus far, it appears that the claimed 1885 water rights would have been used to irrigate approximately 153 acres on the east side of the creek, and the claimed 1907 right would have been used to irrigate 212 acres on the west side of the creek. I think the 640-acre figure stated in the 1915 application assumed that the government survey lots in Sections 27 and 34 in T. 6 S., R. 6 W., were approximately 40 acres, each, when in fact those lots are only 7 acres, each, according to the Metzgers map.

Part of the 1885 claim is for 2.0 c.f.s. from a spring in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 2, T. 7 S., R. 6 W., B.M. Because the spring drains into Lone Tree Creek at a point downstream from the William Maher point of diversion under the 1872 claim, that 1872 claim would not have any effect on the water from the spring. The Gluch 1887 claim and the Warn 1904 claim are both later than the 1885 claim for the water from the spring, and if the priority dates are correct, the Gluch and Warn claims would not have any effect on the water from the spring.

Mr. Bill Ross

-3-

June 8, 1982

As I might have indicated when you were in the office, the Idaho Legislature passed a law several years ago requiring that written claims to water rights be filed with the Department of Water Resources for all water rights that are not evidenced by a court decree, or by a valid permit or license issued by the Department of Water Resources. Those claims must be filed before June 30, 1983, and any water rights for which such claims are not filed automatically will be forfeited. You need to file notices of claims for your water rights on Lone Tree Creek and the water right from the spring.

Perhaps you should call me at your convenience to discuss this water right situation.

Yours very truly,

ANDERSON, KAUFMAN, RINGERT & CLARK

Dear Kay,

As per our Talk Today enclosed are the forms

Showing we do not accept the following water rights as
they were written in your 3/4/98 correspondence:

- 1) Right # 55-04082 "Lone Tree Creek" "no Beneficial use"?
- 2) Right # 55-04081 "Spring"
- 3) Right # 55-04080 "Lone Tree Creek"
- 4) Right # 55-02069 "Cattle Creek"

Also, on 7/30/97 we received Right # 55-13475 for our Little
Domestic Spring on Cattle Creek.

Thanks for your Time on the phone today and we look forward
To meeting with you on April 2nd 1998 (Thursday) at your office. I'm
sure we can work out all the details at That time. Thanks for
your help in figuring out the details of these water rights.
Sincerely, M.S. Sebeck Jr. (SJS)

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

**YOUR DEADLINE FOR RETURNING A
NOTICE OF ERROR REPLY IS:**

March 30, 1998

Water right number:

55-04082

WILLIAM GARRETT SEEBECK
MELVIN EDWARD SEEBECK JR
PO BOX 8
CLARKSBURG-CA 95612 --

Daytime Telephone Number: 916-665-1712
Evening Telephone Number: 916-775-1318

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

we disagree with your claim of no beneficial use in this water right.

2. Describe the changes you wish to make in the proposed recommendation:

We want original water rights reinstated.

3. Give a brief explanation as to why you disagree with these portions:

Since 1907 water has been used to irrigate this land. We still have a beneficial use and always will.

 I AGREE with this proposed recommendation; no changes need to be made.

RE: SRBA Claims to Water Rights in Owyhee County

Melvin Edward Seebeck, Jr. and/or
William Garrett Seebeck
P.O. Box 8
Clarksburg, CA 95612

Gentlemen:

I just received the statements you submitted, from the Baltzor's, in regard to evidence of your claims to water rights in Owyhee County. Please be advised that these need to be signed by the Baltzor's in the presence of a notary public so that they can be used in court, if necessary, to establish the continued water uses. It would also be helpful if the statements contained the names of the creeks they used and the number of acres that they have irrigated from each source. Since the statutory claims were previously contested, the more information you can submit in regard to the water use on the "Deary Place", the better for your cause.

Feel free to contact me if you have any questions or comments in regard to the above.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

12/19/93

Dear Kay,

I just received the two enclosed Testimonials/Verifications of our water rights, so I wanted to get them off to you as soon as possible. As you can see, these statements are from Michael & Carolyn Baltzer who have current as well as long-standing connections to our "Deary Place". If you need more information from us, or ^{need} more people to verify the continued use of the water rights, please let us know. We are hoping you have enough substantiation from us at this time to confirm all five of our water rights, which are well documented in my previous letters. Please let us know if you need more information.

On 12/6/93 we received the official "withdrew" letter of our Cattle Creek (1991) Application # 55-7529. As per my previous letter to both you and David Tuttle Jr., we are assuming this withdrawal is correct because of the fact that we ~~have~~ already have the water right on "Cattle Creek" by virtue of the 1915 license.

Please let us know how things are progressing, as we are anxious to solidify our five water rights, so we can begin the long process of repairs/improvements needed on our "Deary Place".
Have a Great Holiday Season! Sincerely, Melvin E. (Skip) Seelich Jr.
Skip

Deary Place

I, Carolyn Baltzor, moved to the Deary Place right after I got married in July 1985.

Bill Ross had hired men at the time who were setting sprinklers and irrigating from water being pumped from Lone Tree Creek.

In 1986, my husband and I started irrigating. We continued to pump from Lone Tree and divert water from Cattle Creek to flood irrigate the hay fields.

We irrigated the upper meadow with water stored in the pond.

From 1985 to the present we have used water from both creeks and spring.

RE: SRBA Claims to Water Rights in Owyhee County

Melvin Edward Seebeck, Jr. and/or
William Garrett Seebeck
P.O. Box 8
Clarksburg, CA 95612

Gentlemen:

Enclosed are computer generated copies of the claims you recently submitted to our office. Also enclosed is Departmental Receipt No. W016997 in the amount of \$95.00. The next step will be for me to verify the use of the water as claimed under the two new claims. I may drive up to Jordan Valley next week to examine your Cattle Creek claim. You do not need to be present.

In regard to the questions you presented in your letter of November 29, 1993, I offer the following: Application for Permit No. 55-07428 was filed for the irrigation of 152.5 acres. Existing License No. 55-02069 only covers the irrigation of 20 acres. Since the remaining 132.5 acres are not currently irrigated with Cattle Creek water we cannot include these acres or additional water on Notice of Claim No. A55-02069. The 0.40 cfs shown on this license is about 180 gallons per minute, which from what you said in your letter, is more than the creek can provide.

If you wish to pursue the application for permit you need to let us know **on or before January 22, 1994**, otherwise the withdrawal of the application will be accepted as final action in this matter. If you choose to pursue approval of the application, you will need to **provide some dates that you can be present for a conference and/or hearing to resolve the protests.**

On Claim No. A55-13475, your domestic and stockwater spring, I had to insert a month and day of first use. Since you did not provide this information I inserted December 31 of the year claimed, pursuant to Departmental guidelines. This can be amended if you want to provide additional information regarding the first use of the water.

I need some information on the pump that was used to irrigate your land from Lone Tree Creek. If possible, I need to know the horsepower of the pump used, the pressure, and the feet of lift from the creek to where the pump sits. I remember you saying that since the creek channel had become so deep, water had to be pumped to get it to the land but I don't remember discussing the pump information and it was not included in my field notes.

We will be spending this winter reviewing our field work notes and making our recommendations on the claims submitted. Our findings in regard to the adjudication claims will be mailed out sometime late next spring. I have tried to respond to each of your questions. Please let me know if you need further information. Feel free to contact me if you have any questions or comments in regard to the above.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker". The signature is written in dark ink and is positioned above the typed name.

WESTERN REGION

November 29, 1993

Dear Kay & David,

The purpose of this letter is to respond to your two letters: 1) 9/5/93 letter from Kay Walker, and 2) November 3, 1993 letter from David Tutthill. Since both these letters are in regard to our "Cattle Creek" Water Right, I thought it best to respond with this one letter which I will send to the attention of both of you. Let me preface this with my acknowledgement that we are not familiar with all of the complexities of Idaho Water Rights, and we are relying heavily on both of your expertise and suggestions as to how we can best re-affirm all of the Water Rights on our Owyhee County Ranch. As we have said before, we are determined to keep all previous Water Rights on our property, and, as my 9/10/93 correspondence to Kay Walker clearly details, we have provided your department a lot of information and substantiation relating to our five Water Rights. Please let us know of any further information and/or substantiation you may need besides that which we have included with this response.

(Regarding the November 3, 1993 letter from David Tutthill Jr.)

As we stated in our 9/10/93 letter, we filed our 8/30/91 Request # 55-09428 for "Cattle Creek" Water Rights (which were later protested by Thomas Gluck & Terry Warr) before we discovered we already had an existing Water Right on "Cattle Creek" under License # 55-02069 dated October 2, 1915. We want to establish as many water usage rights as possible on "Cattle Creek". We feel we are justified in desiring use of this small creek not only because of the previous license, but also because this creek is, and always has been, an extremely integral part of the operation of our Ranch (See Page 3 of our 9/10/93 correspondence to Kay Walker). Further, this small creek starts as a spring just off our deeded property, and (except for heavy run-off periods) the water never even leaves our deeded property. Even though "Cattle Creek" only flows at about 30 gpm, we are sure that with appropriate diversions and storage management this creek can be an even more important part of our irrigation and stock watering system - especially during run-off periods, and with no adverse effect to anyone downstream.

With all of the above in mind, we will rely on your knowledge as to how we should proceed. It seems correct that since we already have an existing License

(#55-02069) on "Cattle Creek" Water Rights (Dated Oct. 2, 1915), there is no need to proceed with the 8/30/91 Request # 55-07428. Do you agree?? Or should we pursue the new application as well as keep the old license so as to get most water rights possible? Would this give us more usage during heavy run-off periods? These are all questions we would hope you could help us answer. Now that we have more information, we would be happy to meet with either or both of you to help lay out our options, and to get your opinion on how to best proceed with our five Water Rights. Please be advised that in no way do we feel our intentions are "speculative", and we are prepared in every way to pursue our Water Rights which would include any necessary conferences to remove any protests.

(Regarding the September 15, 1993 letter from Kay Walker)

Kay, as per your suggestion we got Bill Ross to notarize the "Evidence of Priority" on our Water Rights (A copy of two pages are included for your files)

Regarding "Cattle Creek" previous Claim # 55-02069 (previously discussed in this letter). I have completed the claim form you sent us as best as possible - Can we increase the appropriated quantity of water, or the number of use acres? I wasn't sure what you meant by "make any changes we would like to make....."

I have filled out the "Withdrawal Form" and signed it to withdraw application # 55-07428. Again, we are relying on your judgement that this is the best thing to do to both clean-up and maximize our Water Rights. It certainly seems good to us to not have to deal with a protest (and possible bad feelings with new neighbors) if we can get all we need from this previously issued License.

I have also done my best to finish filling out the "Domestic Spring" form you sent us --- please let us know if you need more information. Remember, we want this to be approached as an existing usage, and not a new usage. Enclosed is our check #870 for \$95⁰⁰ which covers: 1) \$70 for "Cattle Creek" old license # 55-02069

Includes 20 acres - do we need more \$ if more acreage??
2) \$25 Claim for Domestic Spring (Cattle Creek)
(previous use back to 1944)

All forms are notarized as you requested - Thanks Again to you Kay, and also to Dave Tuthill JR. for helping steer us in the right direction as we get all these rights straightened out. Again, now that we seem to be getting close to finalizing the "Water Rights", we would be happy to make a trip up to meet one or both of you to expedite the process, and finish answering the questions I, as a novice on these matters, have posed in this letter.

Please let us know what else we need to do - - - - -

Thanks for your help!

Sincerely, Melvin E. Seelock Jr.

Original
From Bill Ross
10/6/93

Kays (copy)

This is to attest that the Deary Ranch was acquired by my father, Sam Ross, and myself from Bas Deary in 1944. It was operated continuously as a part of our cattle operation from that time until the property changed ownership in 1990.

Beneficial use was made of the water rights on this property in accordance with Idaho water law throughout the time of our ownership. At no time was there a lapse of beneficial use extending for as long as three years on any of the five established claims and rights. A description of those filings and rights are listed below.

This statement is intended as a preliminary to a more detailed narrative which will follow when time permits me to organize and research such information.

Very truly yours,

William E. Ross

William E. Ross
date

Adele Payden 10-5-96
Notary for Oregon

I, Bill Ross being of sound state of mind, do hereby state the following facts as I know them to exist to the best of my recollection regarding the following water rights for the "Deary Place", which is located approximately 13 miles south of Jordan Valley, Oregon on the northwest slope of South Mountain, Idaho (Sections 1, 2, 3, 26, 27, 34, 35 in Owyhee County, approximately 1200 acres in total):

1. **LONE TREE CREEK** (established 4/1/1885, point of diversion T07S R06W S03 LOT 4) (CLAIM #A55-04080).
2. **LONE TREE CREEK** (established 4/1/1907, point of diversion T07S R06W S03 LOT 2). (CLAIM #A55-04082)
3. **SPRING SUPPLYING RESERVOIR** (CLAIM #A55-04081 DATED 4/1/1885) DIVERSION T07S R06W S02 SENW.
4. **CATTLE CREEK** (WATER LICENSE #55-02069 dated 10/2/1915, Alfred Feltwell, point of diversion T07S R06W SECTION 1 TRACT NW NW.
5. **DOMESTIC SPRING ON CATTLE CREEK**

I owned the Deary Place from 1944 thru ~~1950~~ and to the best of my recollection there has never been a period of 3 years or more where water use on the Deary Place did not involve ALL of the above before mentioned water rights.

As proof of this, I petitioned the Idaho Department of Water Resources on several occasions for the acknowledgement and /or reestablishment of the aforementioned water rights (*list attached*). Further more, I am offering a list of names of fellow ranchers and employees and others who have first hand knowledge of continued use of water on the Deary Place which shows the continue utilization of water rights for the purpose of our cattle operation.

Since I owned the ranch for so many years and made so many efforts to preserve the existing water rights of the Deary Place, I am writing this affidavit to help the new owners finalize what I know to be the above five (5) water uses for the property said to be called Deary Place, as described above.

RE: SRBA Claims to Water Rights in Owyhee County

Melvin Edward Seebeck, Jr. and/or
William Garrett Seebeck
P.O. Box 8
Clarksburg, CA 95612

Gentlemen:

I received your letter and evidence of priority for your claims yesterday. In a quick review of what you submitted, I have prepared a couple of claim forms for your signature, and have a suggestion regarding your evidence. The evidence of your priority dates should be in affidavit form (notarized statements) or it may not stand up in court if someone was to object to your claims.

The enclosed claim numbered A55-02069 is for the license on Cattle Creek. I prepared this based on the way the license was issued. If you have any changes that you would like to make on this form, just cross through the information and make your change, then date and initial any corrections. You also need to complete item 9, with the number and kind of stock you are watering. I am also enclosing a "Withdrawal" form that you should sign and return to withdraw Application No. 55-07428.

The second claim form (handwritten) is for the domestic spring located at the old Deary place. There were several items on this form that I could not complete. You need to complete items 2 (date of first use of the spring), item 9 (number of livestock that drink from the spring), item 13 (other water rights used for domestic and stockwater purposes at this location) and item 16, (either one of you can sign in the presence of a notary public).

The filing fee for Claim A55-02069 is \$70.00 (\$50.00 claim fee and \$20.00 per acre claimed). The fee for the claim on the spring is \$25.00. Please return these signed and notarized forms, along with the filing fee, at your earliest convenience. If you have any questions regarding any of this, please feel free to contact me at (208)334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker". The signature is written in dark ink and is positioned above the typed name and title.

State of Idaho
Department of Water Resources
Kay Walker, Senior Water Resource Agent
Western Region
2735 Airport Way
Boise, Idaho 83705-5082

Dear Kay,

I enjoyed talking with you today, and enclosed is the preliminary information from Bill Ross (*previous owner*) showing his proof of continued use of the five water rights on our "Deary Ranch" from 1944 through 1990. I have also enclosed a rough draft of the five water rights of our "Deary Ranch", which we put into summary form for Bill Ross' review. All this information, and much more will be re-organized and added to as we do more research.

Other people who we intend to get written documentation from verifying continued "Deary Ranch" water use over the years include:

Frank Lazer
Mike Baltzor (for Ted Baltzor) (irrigated out of Lone Tree Creek late 1970's.).
Ray Gluch (irrigated out of Lone Tree Creek with high pressure gun 1960's).
Alfonso Accordgoita
Simon Corta (continued use of domestic Cattle Creek Spring).
Mary Deary
and more ...

Kay, we appreciate your patience as we gather all the necessary information so that you people can officially recognize our five water rights as continuing usages and existing viable water rights. Please note: that we feel there is no need to pursue our new Cattle Creek Water Right Request #55-07428 (8/30/91) since we have now shown the old license #55-02069 dated October 2, 1915.

Your thoughts and assistance are greatly appreciated as we definitely want to get all our necessary documentation to you so that we can preserve all our previous five water rights and usages as we have listed them.

Sincerely,

Melvin E. Seebeck, Jr.

I, Bill Ross being of sound state of mind, do hereby state the following facts as I know them to exist to the best of my recollection regarding the following water rights for the "Deary Place", which is located approximately 13 miles south of Jordan Valley, Oregon on the northwest slope of South Mountain, Idaho (Sections 1, 2, 3, 26, 27, 34, 35 in Owyhee County, approximately 1200 acres in total):

1. LONE TREE CREEK (established 4/1/1885, point of diversion T07S R06W S03 LOT 4) (CLAIM #A55-04080).
2. LONE TREE CREEK (established 4/1/1907, point of diversion T07S R06W S03 LOT 2). (CLAIM #A55-04082)
3. SPRING SUPPLYING RESERVOIR (CLAIM #A55-04081 DATED 4/1/1885) DIVERSION T07S R06W S02 SENW.
4. CATTLE CREEK (WATER LICENSE #55-02089 dated 10/2/1915, Alfred Feltwell, point of diversion T07S R06W SECTION 1 TRACT NW NW.
5. DOMESTIC SPRING ON CATTLE CREEK

I owned the Deary Place from 1944 thru ~~1990~~ and to the best of my recollection there has never been a period of 3 years or more where water use on the Deary Place did not involve ALL of the above before mentioned water rights.

As proof of this, I petitioned the Idaho Department of Water Resources on several occasions for the acknowledgement and /or reestablishment of the aforementioned water rights (list attached). Further more, I am offering a list of names of fellow ranchers and employees and others who have first hand knowledge of continued use of water on the Deary Place which shows the continue utilization of water rights for the purpose of our cattle operation.

Since I owned the ranch for so many years and made so many efforts to preserve the existing water rights of the Deary Place, I am writing this affidavit to help the new owners finalize what I know to be the above five (5) water uses for the property said to be called Deary Place, as described above.

2. **LONE TREE CREEK** (established 4/1/1907, point of diversion TO7S R06W S03 LOT 2). (CLAIM #A55-04082)
3. **SPRING SUPPLYING RESERVOIR** (CLAIM #A55-04081 DATED 4/1/1885) DIVERSION TO7S R06W S02 SENW.
4. **CATTLE CREEK** (WATER LICENSE #55-02069 dated 10/2/1915, Alfred Feltwell, point of diversion TO7S R06W SECTION 1 TRACT NW NW.
5. **DOMESTIC SPRING ON CATTLE CREEK**

I owned the Deary Place from 1944 thru 1993 and to the best of my recollection there has never been a period of 3 years or more where water use on the Deary Place did not involve ALL of the above before mentioned water rights.

As proof of this, I petitioned the Idaho Department of Water Resources on several occasions for the acknowledgement and /or reestablishment of the aforementioned water rights (list attached). Further more, I am offering a list of names of _____ and employees and others who have first hand knowledge of continued use of water on the Deary Place which shows the continue utilization of water rights for the purpose of our cattle operation.

Since I owned the ranch for so many years and made so many efforts to preserve the existing water rights of the Deary Place, I am writing this affidavit to help the new owners finalize what I know to be the above five (5) water uses for the property said to be called Deary Place, as described above.

To best explain what I know about the above five (5) water rights, I will address each water right individually and explain how each was used continually as we ran our cattle operation.

WATER RIGHT #1 LONE TREE CREEK (established 4/1/1885, point of diversion TO7S RO6W SO3 LOT 4) (Claim #A55-04080).

This water right is very old and the point of diversion has been affected by recent changes in the depth of Lone Tree Creek caused by erosion. Nevertheless, I have made efforts to pump water from Lone Tree Creek into old diversion canals that dispensed water from Lone Tree Creek onto the Deary Place. Frank Baltzar, my employee, on several occasions operated this pump (1970 - 1980's) to bring water out of Lone Tree Creek onto the Deary Place.

WATER RIGHT #2 LONE TREE CREEK (established 4/1/1907, point of diversion TO7S RO6W SO3 LOT 2). (CLAIM #A55-04082)

This use of water from Lone Tree Creek is closely related to the other water right on Lone Tree Creek in that the elevation of Lone Tree Creek itself has lowered over the years due to erosion. Once again, however, we have made a continued effort over the years to use Lone Tree Creek water for irrigation in the production of hay on the 200+ acres of land located along Lone Tree Creek

WATER RIGHT #3 SPRING SUPPLYING RESERVOIR (established 4/1/1885, point of diversion TO7S RO6W S02 SE NW), (Claim #A55-04081).

This spring originates on deeded land on the Deary Place and flows into the Deary Place reservoir from which it has always been dispersed annually onto the Deary Place pasture and hay fields. Further use of this spring since 1963 has been a water source for domestic use at the main ranch residence located approximated 1800 linear feet below the spring. This spring feeds the approximately 6 acre reservoir which supplies water directly to various Deary Place fields..

WATER RIGHT #4 CATTLE CREEK (WATER LICENSE #55-02069 dated 10/2/1915 point of diversion T07S R06W SECTION 1 TRACT NW NW).

Cattle Creek water has been used for stock and irrigation on the Deary Place since the 1800's. There exists various diversion canals off of Cattle Creek which we have used to dispense water to various points on the Deary Place. There are two diversion canals (*one small and one large*) approximately 1 mile east of the main road which have been used to dispense water to the meadows on the south side of Cattle Creek and the surrounding area. Also, Cattle Creek water that flows under the main road to the Deary Place meadows has always been diverted to continuously irrigate lower meadow areas. For the past 8 years, Mike and Carolyn Baltzar (*ranch tenants*) have used this Cattle Creek flow to irrigate the lower meadow area. Prior to this ranch employees have made sure Cattle Creek water was reaching Deary Place low lands and was dispersed as efficiently as possible to irrigate the various crops before the water reached Lone Tree Creek. As I understand it, in 10/2/1915 a license was issued for this ranch under the name of Albert Feltwell for the specific use of water on the Deary Place.

WATER RIGHT #5 DOMESTIC SPRING ON CATTLE CREEK

To the best of my knowledge this small spring in the form of a hand dug well was originally utilized for the old homestead which existed on the Deary Place from _____ to _____. This spring produces a small artesian flow that has been used for stock and domestic use continuously throughout the years. Because of the artesian flow a small pool of water located between four (4) large Lombardi popular trees has always been a known water source on the ranch. Other people who have used this old spring are _____, _____, and _____.

Gentlemen:

We are currently in the process of preparing your Notice of Claims for court decree in the Snake River Basin Adjudication. The claims in question are as follows:

Claim No. A55-04080

This claim was filed based on beneficial use of water dating back to April 1, 1885, from Lone Tree Creek.

Claim No. A55-04081

This claim was filed based on beneficial use of water dating back to April 1, 1885, from a spring tributary to Lone Tree Creek. Our measurement of this spring turned out to be 0.73 cubic feet per second which is equivalent to 327 gallons per minute.

Claim No. A55-04082

This claim was filed based on beneficial use of water dating back to April 1, 1907, from Lone Tree Creek.

On October 21, 1991, the Department sent you a copy of a letter previously sent to William E. Ross, requesting that you submit evidence supporting the priority date that had been listed on the above claims. However, this evidence has not been received in our office.

Before the Department can make a recommendation to the Court for decree of these claims, some evidence of the priority date claimed must be submitted. Again we are enclosing a brochure outlining types of evidence you may submit. If we do not receive the requested information, these claims will be recommended for disallow due to lack of evidence supporting any priority date.

As for the use of the spring you have re-developed for domestic uses, you should file an application for permit. Enclosed is an application for permit form with instructions for your use in this matter. Any surface water sources that were developed after May 20, 1971, must be filed on. If I remember correctly, this spring was used for domestic purposes years ago and you had recently rebuilt the

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that BILL ROSS (Name of Claimant)
Jordan Valley, Oregon 97911 (Mailing Address) Telephone No. (503) 586-2380 (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) April 1, 1907

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Lone Tree Creek tributary to Jordan Creek

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Quantity	(cfs, gpd, AFA)	Use	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)	
				(Mo., Day)	(Mo., Day)
Quantity <u>4.5 c.f.s.</u>		Use <u>irrigation</u>		Period of Use From <u>April 1</u>	To <u>Oct. 31</u>
Quantity _____		Use _____		Period of Use From _____	To _____
Quantity _____		Use _____		Period of Use From _____	To _____
Quantity _____		Use _____		Period of Use From _____	To _____
Quantity _____		Use _____		Period of Use From _____	To _____

(4) 4.5 c.f.s. TOTAL QUANTITY USED.
(cfs, gpd, AFA)

(5) A) Point of diversion: (Location of point where water is diverted from its source)
* Lot 2*, Sec. 3 Twp. 7S Rge. 6W B.M., County of Owyhee
Additional points of diversion: _____

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Concrete and timber dam and headgate.

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE¼				NW¼				SW¼				SE¼				TOTAL

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants: *CLAIM NO. ASS-04080, ASS-04081,
ASS-04082 - DWYHER CO.*

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in June. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this summer in your area, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority claimed also needs to be verified. Letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

To make an appointment, or if you have any questions or problems with scheduling the exam, please contact one of the following water resource agents:

LINDA WERNER

KAY WALKER

RON HOWERTON

Dear Claimant:

Enclosed is a copy(s) of the above referenced claim(s) which reflects the change in ownership of the lands and appurtenant water right(s) covered under the original filing(s).

The Department will contact you in the future concerning any requirements that may be needed in order to process this claim(s) for final court decree. * SEE BELOW.

If you have any questions concerning the enclosed claim(s), please feel free to contact this office.

Sincerely,

JAN SHURTE

DIRECTOR

JORDAN VALLEY OR 97911

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
