RE: OWNERSHIP CHANGES, NOTICES OF ERROR, BLM LAND, AMENDING CLAIM A55-10019.

On April 1, 1998 during a meeting in our office the above referenced items were discussed with Sharon Mikesell, Sheryl Anderson and Gertrude Anderson.

An ownership change supported by a 1967 Gift Deed was filed by Sharon E. Mikesell which indicates she owns an undivided one-half interest in the land appurtenant to the above claims. Her ownership was orally confirmed by Sheryl Anderson, widow of James Anderson, and Gertrude C. Anderson, mother of James Anderson and a grantor in the 1967 Gift Deed.

The second ownership issue discussed relates to the death of James Anderson on 2/26/1998. I informed them we would leave his name on the claims until a probate of his estate is opened in Idaho and we are provided with estate documentation. We will then add an estate designation to James Anderson's name. Sheryl indicated she would not have an opportunity to start a probate until some time in May 1998.

Based on Sharon Mikesell's ownership interest, I allowed her to amend claim A55-10019 by adding a stockwater component. The circumstances relating to the use of water for stock on the Anderson ranch justifies this amendment.

We reviewed the place of use for all of the claims and based on their collective knowledge of how the irrigation systems are used they found several small changes to make in the final recommendations. They also agreed with our findings that the NENE, Section 24 is BLM land and they do not want it included in their recommended claims. They don't think there has been any irrigation of this land in the past which they said should be supported by the location of the delivery ditch.

I informed them that Jim Anderson failed to file an SRBA claim for license 55-02122 which provided for irrigation in the SW 1/4, S19. Gertrude Anderson recognized this license as the Amy Maher right and said they have not irrigated that land for many, many years. They agreed there was no intention to resume the use of this right. When I informed them this water right will be lost, they agreed there was no need to file a claim and did not object to losing the right.

Dear Mr. Anderson:

SUBJECT: Notices of Claim to a Water Right numbered
A55-10019 and A55-10022

In the past, you submitted the above referenced claims in the Snake River Basin Adjudication. These claims were filed based on a "Beneficial Use". Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date".

Your claim has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water. Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement.

Please be advised that this is our second request for this information. Our first request was made on June 28, 1991. If no evidence is submitted, or we do not hear from you within the time limit below, your Notices of Claim cannot be recommended to the Court for decree.

Notice of Claim number A55-02012B

You also submitted the above numbered claim for irrigation and stockwater usage. This claim is based on a right which was originally licensed for irrigation and domestic usage. When you filed this claim in the Adjudication you changed the domestic usage to stockwater usage. When did the first stockwater usage occur? Where are the stock located and during what times of the year are they in that location?

Also, please send me specific information regarding your conveyance system. Is water being conveyed through Dougherty creek? Is the conveyance ditch manmade or a runoff stream? Has the Dougherty creek channel ever been altered?

12/20/94

Page 2

Please return the above information within 30 days of the date of this letter. I am in the process of writing up the field exam information for claim recommendation in the SRBA. Your prompt response will be appreciated and will ensure accurate representation of your claims.

Sincerely,

Linda A. Werner

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

(Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims..

* This change adds Sharon E. Mikesell as an owner. It does not replace the former owner/claimant.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:
