STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

Two rights are split from and constitute the whole of 55-10023. These split rights were created to represent separate priority dates for the development of each right.

The parties and IDWR agree and stipulate that the elements of 55-10023A and 55-10023B should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

Re: Subcase No.: 55-10023B

Dear Special Master Haemmerle,

The Idaho Department of Water Resources (IDWR) has reviewed the attached Standard Form 5. IDWR concludes that the stipulation agreed to between the parties is not in accordance with Idaho Code §42-103 because a surface water right with a priority date after May 20, 1971 requires a license from IDWR. This right does not fall within the exception to I.C. §42-103 provided by I.C. §42-113. Therefore, IDWR cannot concur with the attached SF5 for water right 55-10023B.

Sincerely,
