RE: Notice of Claim to a Water Right A55-10072

Dear Claimant;

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication.

Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used. Your claim has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water. Your claim was filed based on beneficial use of water dating back to June 1, 1879.

On June 28, 1991, the Department sent you a letter requesting that you submit evidence supporting the priority date you have listed on the above claim. This evidence was to have been submitted to our office by August 1, 1991. However, this evidence has not been received in our office to date.

Therefore, before the Department can make a recommendation to the court for decree for this claim, evidence of the priority date claimed must be submitted. Again we are enclosing a brochure outlining types of evidence you may submit. Also, enclosed is a copy of affidavit form and an affidavit sample. If we do not receive this requested information, this claim will surely be recommended for disallow due to lack of evidence supporting any priority date. A Field Exam to verify other items of the above claim will be needed as soon as possible after we receive the "Evidence of Priority" you are required to submit.

Please submit the required evidence supporting the priority date by June 11, 1993, referencing all documents with the corresponding claim number. If you have any questions not covered by this letter, please contact myself or this office ASAP.

Sincerely,

Ron Howerton

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

RE: Claims filed in the Snake River Basin Adjudication.

Dear Claimant;

The Department of Water Resources will be conducting beneficial use and water right claim verification examination in your area beginning in April. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this season, we request that you contact our office at (208) 334-2190 within two weeks to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be beneficial.

To make an appointment, or if you have any questions or problems with scheduling the exam verification, please contact one of the following water resource agents in our office.
