RE: FURTHER EVIDENCE OF PRIORITY NEEDED, claims: A55-10094, A55-10095.

Dear Shirley,

This letter serves as a reminder of our field examination conversation of May 27, 1993. Regarding to the older evidence that you were going to send to me by the end of August 1993 for above referenced claims.

A55-10094- Your affidavits for this claim show some evidence of priority back to 1942.

A55-10095- The affidavits for this claim also, only show some evidence back to 1942.

If we do not receive this additional information, these claims may only be considered for recommendation for back to 1942. This will be due to lack of evidence supporting any earlier priority date. (This was the oldest date shown by your evidence of priority affidavits received in this office July 31, 1991).

Please submit the additional evidence to this office, with the older priority dates as discussed, with your reference to any supporting documents and the corresponding claim numbers, by August 31, 1993.

Sincerely,

Ron Howerton

Dear Jan,

In response to your June 28, 1991 letter requesting evidence of priority on claims A-55-10094 and A-55-10095. I have been unable to locate a person who has first hand knowledge of use in early years, however I personally have used these claims. Some in 1942 for irrigation and stock water also if need be we have in our records deeds which could be some help in clearing up this matter.

I am inclosing an affidavit stating my personal knowledge in the matter, and hope this will be adequate evidence so that the decrees can be recorded as such. Or claims can be decreed.

Thank you.

Sincerely,
Shirley Cox.

I have been unable to locate a person who has first

have irrigated and had stock water use of them from
1950 thru 1968. And can remember and helped my father
use them from 1942 to 1950. I have helped him
irrigate with these water rights. We also have in
our records deeds on this property.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants: *CLAIM NO. 5 - A55-02029, A55-02434,
A55-10094 + A55-10095 - Dwyer Co.*

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in June. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this summer in your area, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority claimed also needs to be verified. Letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

To make an appointment, or if you have any questions or problems with scheduling the exam, please contact one of the following water resource agents:
