 (Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)
8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims..

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of an estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants: *CLAIM NO.'S ASS-04019, ASS-10096,
ASS-10097, ASS-10098, ASS-10099 - OWYHEE CO.*

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in June. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this summer in your area, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority claimed also needs to be verified. Letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

To make an appointment, or if you have any questions or problems with scheduling the exam, please contact one of the following water resource agents:

Dear Linda -

Thank you for the explanations on our property notice of claim nos A55-04019, A55-10096, A55-10097, A55-10098 + A55-10099 - The diversions have been in place at their present location to my knowledge since the land has been irrigated + no changes of major diversions have been made.

A55-10097 - you are right - irrigated land lies mainly in NE $\frac{1}{4}$ NW $\frac{1}{4}$ of section 29 + no change of diversion locations have been made.

A55-10096 - Find amendment on increased acres, also copy of original claim showing use of water from Trout Cr. as a main source (P.O.D. being in the NE $\frac{1}{4}$ of Section 30 - shown on your map as the second P.O.D. down Trout Creek) with Split Rock Cr. flowing into ditch to increase flow of water.

I hope this will be the information that you need -

Thank you for your time

RE: NOTICE OF CLAIM NOS: A55-04019, A55-10096, A55-10097,
A55-10098, A55-10099

Dear Mr. or Mrs. Gordon;

We are currently in the process of preparing the above referenced Notices of Claim for court decree in the Snake River Basin Adjudication. During this process certain questions arose concerning the claims listed below. Any claim that is listed above and not shown below is ready for court decree and does not require any further information or changes. The following claims require the information or changes listed.

A55-04019-Trout creek
Priority Date and Points of Diversion

This claim was originally filed as a statutory claim for the irrigation of land in section 30. The total acreage was for 45 acres and the claim listed two points of diversion. The information you submitted for the evidence of priority supports the usage in section 30. Therefore, I am going to take two of the other claims you filed on Trout creek and combine them with the statutory claim. These claims are numbered A55-10098 and A55-10099. The result will be that claim number A55-04019 will be recommended with all the Trout creek points of diversion, and places of use, except the upper one which irrigates the five acre field.

This brings me to my question. How long have the Trout creek diversions been in use at their present site? If a change of location has occurred, when did this change take place?

Also, for your information, the evidence information you submitted consists of 3 posted notices. Two of these notices support irrigation in section 30 back to October 14, 1898. I can recommend a priority date of October 14, 1898, based on this information. The basis of your claim can be recommended as a "posted notice" rather than a "beneficial use".

2/23/95
Page 2

A55-10097-Trout creek
Priority Date and Place of Use

This is the claim which covers the irrigation of the 5 acre field from the upper point of diversion. The third type of priority date documentation you submitted is also a posted notice.

This notice states that the place of use was in the W1/2NW1/4, Section 29, T5S, R5W. However, field exam findings and map verification show the land irrigated lies mainly in the NE1/4NW1/4, Section 29. Is the information on this notice relative to the found place of use? Has there ever been a change in the place of use or diversion locations? If so, when did this change occur?

A55-10096-Split Rock creek
Priority Date and Acreage

The evidence of priority submitted on this source is based on an affidavit from yourself. This affidavit does not show a specific date of first usage. Unfortunately, the posted notices do not refer to any water source other than Trout creek. Please submit further evidence to support the Split Rock creek usage. I will enclosed a pamphlet which will explain the types of evidence you can submit.

Also, your claim was filed for the irrigation of five acres. Nine acres were found as a result of the field exam. If you believe nine acres is accurate, your claim will need to be amended before this amount can be recommended. I will enclose a copy of the claim you filed. You can make the changes on this form. The claim will need to be signed and notarized.

I will enclose a copy of the map showing the field exam findings along with profile reports of the claims you filed. Your response must be received in our office by the response date shown above. If no response is received, your claims may not be recommended accurately or may be disallowed for lack of proof of priority date. Be sure to contact me if you have any questions.

Sincerely,

Linda A. Werner

Dear Mr. Gordon:

I have received your evidence of priority for Notices of Claim to a Water Right for the land irrigated from Trout creek. Thank you for submitting it. There is, however, still one problem that needs to be addressed.

Claim number A55-10096 is for the irrigation of 5 acres from Split Rock creek. Unfortunately, the evidence you submitted only covers the irrigation from Trout creek. I am sending along an affidavit which can be used for this purpose.

Also, because these claims are based on beneficial use it will be necessary for a field exam to be completed. I realize that it may be inconvenient for you to accompany me on this exam; however, any person with knowledge of the diversion system can be present. I have talked to Nancy Fretwell who told me that she is leasing this property and has indicated that she is available to accompany me. I will contact her to set up an appointment.

If you have any questions or comments, please feel free to contact me. I would appreciate it if you would return this information, to my attention, as soon as possible.

Sincerely,
