RE: Claim No(s): A55-10125 10126

10127, 10128

CECIL D. ANDRUS

GOVERNOR

R. KEITH HIGGINSON

DIRECTOR

ID 83604

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
Water Rights Supervisor
Adjudication Section

Re: Claim No: A55-10125

Dear Gene Davis,

Attached to this letter is an amended claim for the reservoir claimed in section 16, by the rock corral. I calculated the storage capacity to be 11 Acre Feet. The claim was filed for 9 Acre Feet.

In order for me to recommend 11 Acre Feet as the total capacity, please sign the amended claim, (there isn't any additional fee) have your signature notarized and mail it back to me ASAP.

If you have any questions regarding this letter, please feel free to call me at 334-2190.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Ron Howerton', written over a horizontal line.

Ron Howerton
Senior Water Agent

FACT SHEET
FOR
EXCESSIVE IRRIGATION FLOWS

This information is to be submitted with any application for permit or adjudication claim to water right for which the irrigation rate of flow requested/claimed is more than 0.02 cfs per acre. One exception is that 0.03 cfs per acre is allowed for up to five (5) acres.

Soil type and soil profile: Welch-uperuek Loams

Soil water holding capacity: Welch-(9-12) uperuek (6-9)

Soil intake family (if known): 1.5

Field slope: 0 to 3 %

Anticipated crops: mt. meadow

Method of Irrigation: Flood

ADJUDICATION CLAIMS ONLY

Is this method of irrigation the common local practice? yes

Have you changed the irrigated method from the one first developed?

No If yes, describe: _____

REMARKS: _____

INSTRUCTIONS FOR IRRIGATION FLOW RATE QUESTIONNAIRE

The information required in this questionnaire will describe your water delivery system and irrigation methods. This information is essential in order for staff of IDWR to evaluate your irrigation water requirements. Much of the information is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with this form.

Please provide your name, address, and phone number where you may be contacted for further information or clarification. Include the claim number(s) for those claims where the irrigation flow rate is more than 0.02 cfs (1 miner's inch) per acre.

1. provide the total number of acres irrigated for the claims listed.
2. provide a breakdown in acres of the types of crops grown in a typical irrigation season for each of your irrigation system types.

Items 3 through 8 must be completed for each of the irrigation system types you specified in item 2. This information must be completed as accurately as possible. All information must be based on peak water use during the irrigation season.

inflow -

this is the flow of water applied to an individual furrow, border, ditch, etc.; proper evaluation requires good accuracy

spacing or width -

this is the distance between individual furrows, border ridges, sprinkler laterals, etc.

length -

this is the maximum length of run of furrows, corrugations, borders etc.

field slope -

this is the slope of the field in the direction of the run of furrows, borders, etc.; specify in percent or give units if specified otherwise

set time -

this is the number of hours that water is applied during an irrigation set

frequency -

this is the number of days between irrigation start times of the same set of furrows or border(s) etc.

9. complete the appropriate items for the main ditch from the point of diversion to the farm; if this ditch is shared by other water users a more complete description of the system will be required

Items 10, 11, 12, and 13 see questionnaire.

IRRIGATION FLOW RATE QUESTIONNAIRE

THIS INFORMATION IS REQUIRED FOR ANY ADJUDICATION CLAIM(S) FOR WHICH THE IRRIGATION FLOW RATE CLAIMED IS MORE THAN 0.02 CFS PER ACRE (ONE EXCEPTION IS THAT 0.03 CFS PER ACRE MAY BE ALLOWED FOR IRRIGATION OF UP TO 5 ACRES).

CLAIM NO(S). ~~#55-10106~~ ~~#55-10128~~ #55-10125
 NAME Branezy Cattle Co c/o Eric Davis
 ADDRESS #C 85 Box 138 Branezy, Id 83604
 PHONE (208) 845-2762

1. TOTAL IRRIGATED ACRES SHOWN ON CLAIM(S) REFERENCED ABOVE 20 36 ACRES.

2. SHOW THE NUMBER OF ACRES OF CROPS GROWN FOR YOUR IRRIGATION SYSTEM(S) DURING A TYPICAL SEASON

	Border	Furrow	Corrugation	Sprinkler	Contour Ditch	Other <u>Flood</u>
Alfalfa						
Beans						
Field Corn						
Silage						
Spring Grain						
Winter Wheat						
Orchard						
Pasture						
Potatoes						
Sugar Beets						
<u>Other</u> <u>As meadow</u>						<u>20 36</u>

Actual 17 ACRES
rain

PLEASE COMPLETE ITEMS 3 THROUGH 8 FOR EACH OF THE IRRIGATION SYSTEM TYPES SPECIFIED ABOVE

BORDER (COMPLETE BELOW BASED ON PEAK USE)

inflow to border (cfs)	border width (feet)	border length (feet)
field slope (%)	set time (hours)	number of borders per set
frequency (days)		

4. FURROW (COMPLETE BELOW BASED ON PEAK USE)

inflow to furrow (gpm)	furrow spacing (inches)	furrow length (feet)
field slope (%)	set time (hours)	number of furrows per set
frequency (days)		

5. CORRUGATION (COMPLETE BELOW BASED ON PEAK USE)

inflow to corr. (gpm)	corr. spacing (inches)	corr. length (feet)
field slope (%)	set time (hours)	number of corrugations per set
frequency (days)		

6. SPRINKLER (COMPLETE BELOW BASED ON PEAK USE)

average nozzle flow (gpm)	nozzle spacing (feet)
lateral length (feet)	lateral spacing (feet)
number of laterals per set	set time (hrs.)
frequency (days)	

7. CONTOUR DITCH (COMPLETE BELOW BASED ON PEAK USE)

inflow to ditch (cfs)	field slope (%)
ditch length (feet)	distance between ditches (feet)
number of ditches per set	set time (hours)
frequency (days)	

8. OTHER IRRIGATION SYSTEM TYPE (specify) (COMPLETE BELOW BASED ON PEAK USE)

inflow (cfs)	total area irrigated per set (acres)
field slope (%)	set time (hrs.)
frequency (days)	

CONVEYANCE FROM SOURCE TO FARM

UNLINED DITCH-SPECIFY SOIL TYPE _____

1620
length (feet)

18-20 inches
ave. depth from land surface (Inches)

3.5 feet (42 inches)
ave. top width of water surface (Inches)

LINED DITCH-SPECIFY TYPE OF LINING _____

length (feet)

ave. depth from land surface (Inches)

ave. top width of water surface (Inches)

PIPELINE

length (feet)

diameter (Inches)

IS THIS CONVEYANCE SYSTEM SHARED BY OTHER WATER USERS? No

IF YES, PLEASE DESCRIBE OR SKETCH THE SYSTEM SHOWING THE NUMBER OF WATER USERS, LOCATION OF HEADGATES, LENGTHS ETC.

10. ON-FARM DISTRIBUTION SYSTEM-DRAW A SIMPLE SKETCH OF YOUR ON-FARM WATER DISTRIBUTION SYSTEM. AN AERIAL PHOTO/FARM PLAN WITH THE IRRIGATION SYSTEM SKETCHED ON IT MAY BE USED. THIS SKETCH MUST INCLUDE THE FOLLOWING INFORMATION FOR EACH REACH: LENGTH, TOP WIDTH OF WATER SURFACE, DEPTH FROM LAND SURFACE, SOIL TYPE OR LINING, AND PERCENT OF TOTAL FLOW DURING USE.

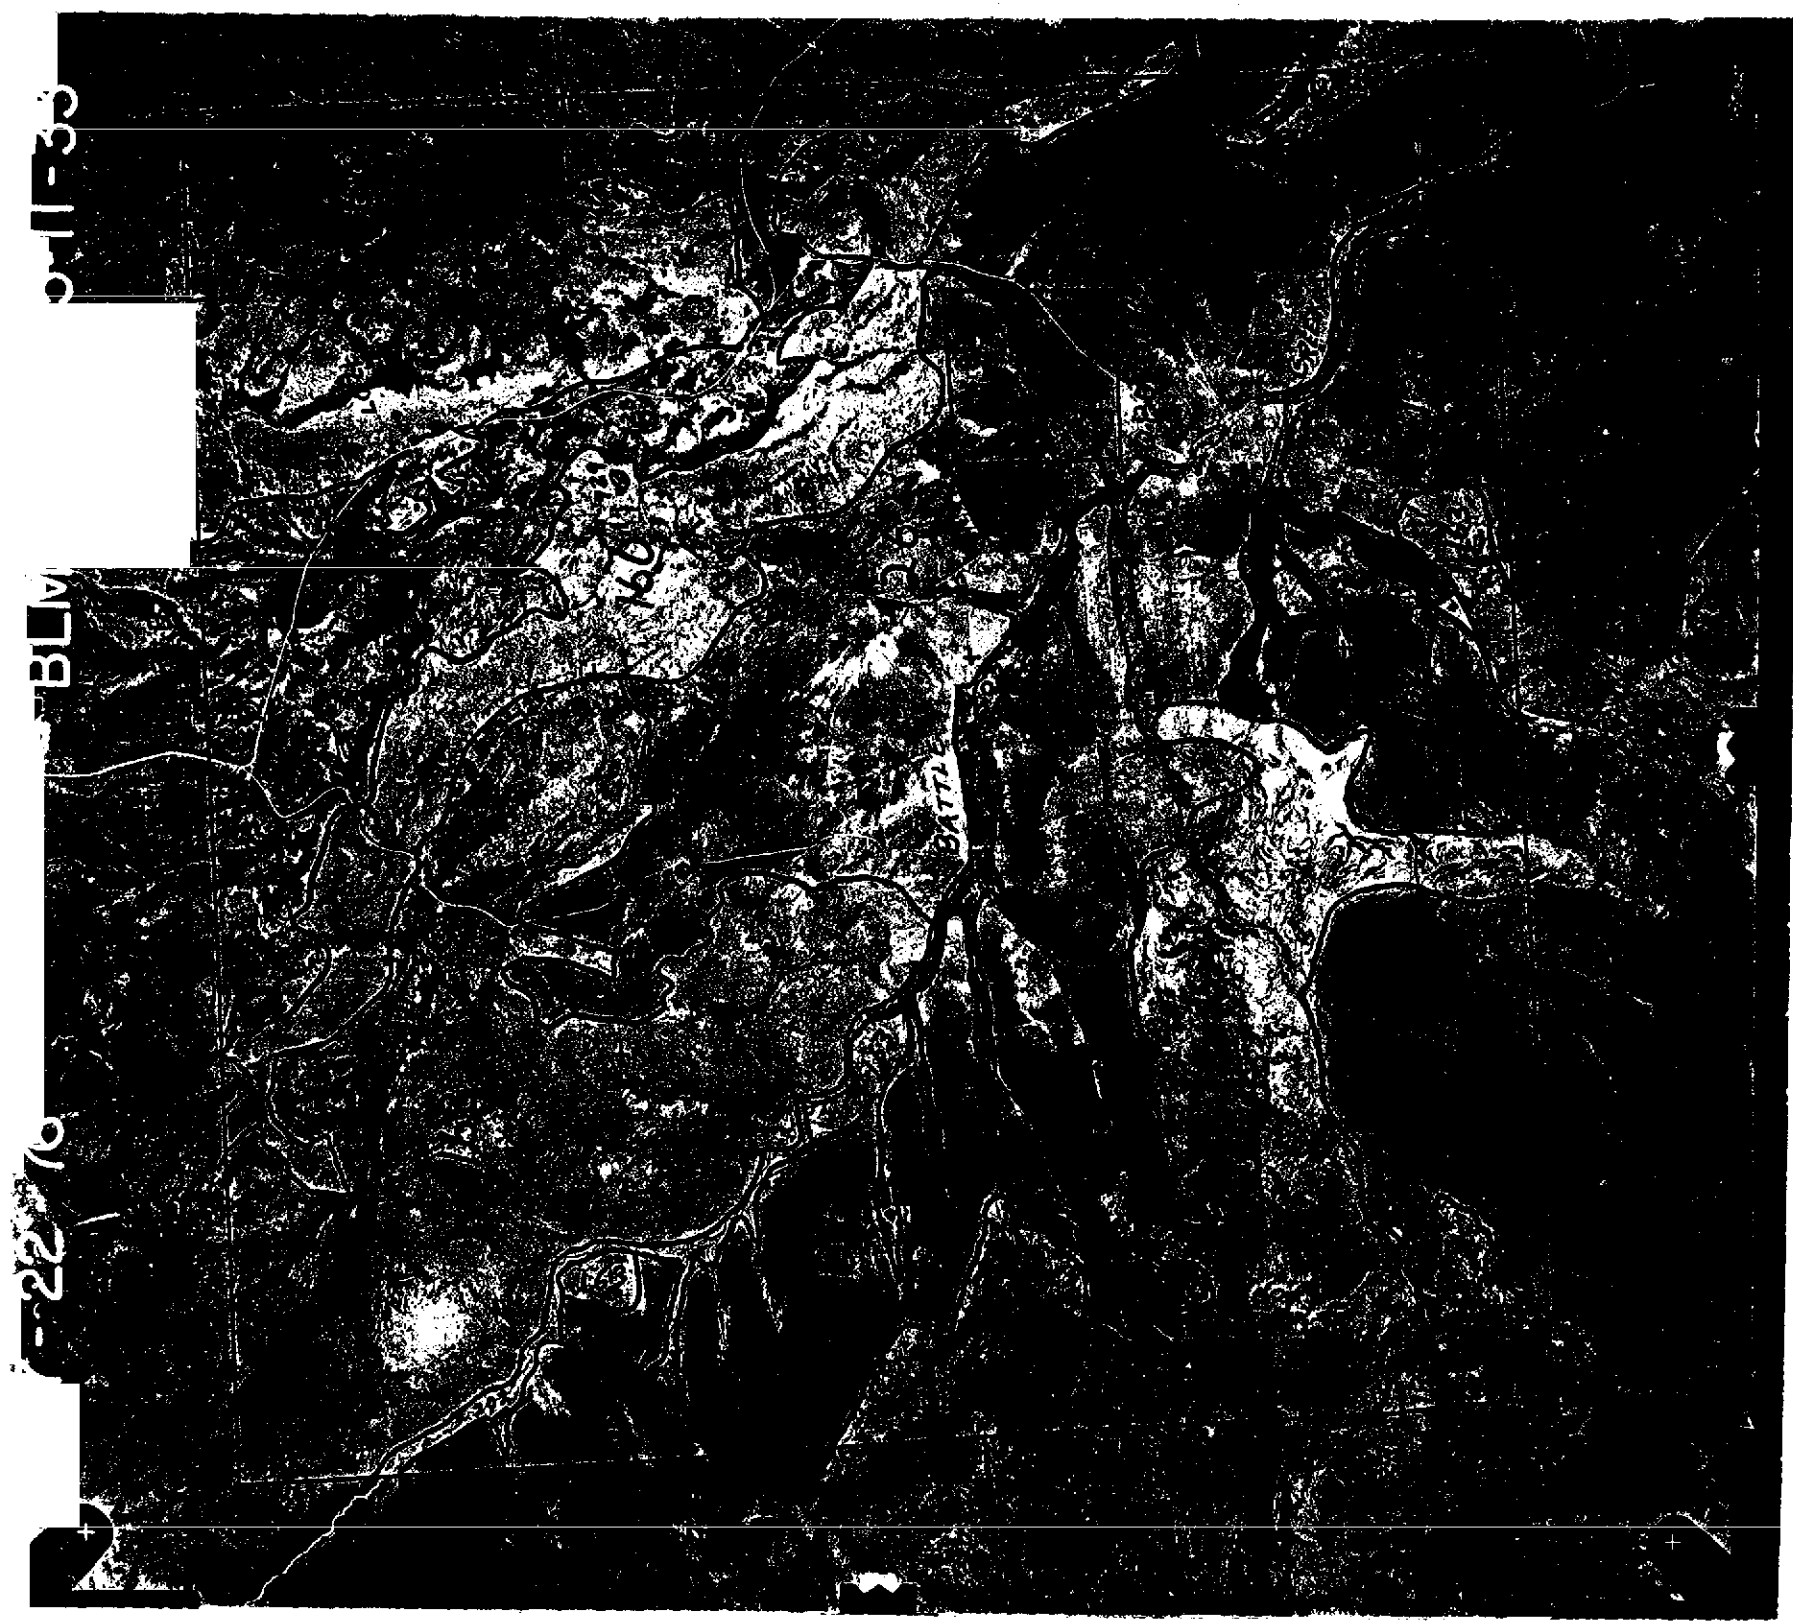

11. HAVE YOU CHANGED YOUR IRRIGATION SYSTEM FROM THE ONE HISTORICALLY USED? (FOR EXAMPLE, LAND-LEVELING, CHANGING LENGTH OF RUNS, CHANGE FROM FURROW TO SPRINKLER, ETC.)

IF YES, PLEASE DESCRIBE:

12. HAVE YOU HAD ANY IRRIGATION SYSTEM DESIGN/EVALUATIONS OR FARM SOIL SURVEYS COMPLETED BY THE SOIL CONSERVATION SERVICE, PRIVATE CONSULTANTS, OR IRRIGATION EQUIPMENT DEALERS?
IF YES, PLEASE DESCRIBE OR ATTACH COPIES

13. PLEASE INCLUDE ANY FURTHER COMMENTS WHICH WILL AID IN THE EVALUATION OF YOUR WATER REQUIREMENTS.

PLEASE RETURN FORMS TO:

- HIGHEST

UNCONTROLLED FLOOD IRRIGATION SYSTEM FOR PASTURE OR MEADOW HAY

This is a spreadsheet designed to calculate and inventory the basic data used in the analysis of uncontrolled flood irrigation systems (wild flooding). The information required to complete this spreadsheet can be obtained from other worksheets, spreadsheets, tables, questionnaires, etc. and should be attached to the completed printout for complete documentation. The data developed here will be used to determine reasonable irrigation diversion requirements for uncontrolled flood irrigation systems based on the methodology presented in Draft Adjudication Memo No. ____.

Date: 03/20/95

By: RDH

Claim: A55-10125

Name: BRUNEAU CATTLE CO

Irrigation Design Application:	2.59 inches
Soil Intake Family (flood):	3
Peak Daily Consumptive Irrigation Requirement:	5.58 mm/day
Actual Irrigation Rotation (include dry days):	12 days
Actual Field Size (include dry areas):	17 acres
Irrigated Acres (exclude dry areas):	17 acres
Actual Ditch Length (along head of field):	1650 ft
Field Slope:	0.03 ft/ft

CALCULATIONS

Theoretical Rotation (design app/CIR):	11 days
Analysis Rotation (greater of actual vs theoretical rotation):	12 days
Percent Irrigated Acres (irrigated acres/actual field size):	100 %
Effective Ditch Length (percent irrigated acres x actual ditch length):	1650 ft
Actual Border Width (actual ditch length/actual rotation):	138 ft
Effective Border Width (1/3 of effective ditch length/analysis rotation):	46 ft
Length of Run (actual field size/actual ditch length):	449 ft

BORDER IRRIGATION PROGRAM INPUTS

The following data should be entered into the program for border system evaluations. Flow rate is varied starting at 0.02 cfs/acre and increased to the minimum flow rate required for a complete

irrigation (recognizing all applicable footnotes).

Beginning Flow:	0.34 cfs
Border Length:	449 ft
Border Width:	46 ft
Field Slope:	0.03 ft/ft
Intake Family:	3
Design Application Depth:	2.59 inches
Inflow Time:	8 hours
Roughness Coefficient:	0.25

GRADED BORDER EVALUATION

Job name: A55-10125
By: RDH

Location: T9S R1E S16
Date: Mar 20, 1995

Roughness coefficient (n)= 0.250 Intake family (If)=3.00
Slope (S)= 0.0300 ft/ft Border width (W)= 46 ft
Net application (Fn)= 2.59 inches Border length (L)= 449 ft
Inflow time (Ti)= 8 hours, 0 minutes

Flow per Border (cfs)	Unit Flow (cfs/ft)	Gross Application (in)	Deep Percolation (in)	Runoff (in)	Application Efficiency (percent)	Notes
1.32		Gross depth is less than required gross application depth				
1.33		Gross depth is less than required gross application depth				
1.34		Gross depth is less than required gross application depth				
1.35	0.029	22.59	19.96	0.03	11.5	(2)
1.36	0.030	22.76	19.96	0.20	11.4	(2)

(2) Erosive stream-- non-sod forming crops.

(Part II)

Excessive Flow Claim(s): Fact Sheet Required
A55-10125 A55-10128

Dear Eric Davis,

PART I

Recently, you submitted the above referenced claims in the Snake River Basin Adjudication. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date". Your claims have not been confirmed by a previous filing with the Department of Water Resources since there is no-license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Therefore, before the Department can make a recommendation to the court for decree for these claims, evidence of the priority date claimed must be submitted. If we do not receive this requested information, these claims will surely be recommended for disallow due to lack of evidence supporting any priority date. I'm enclosing a brochure outlining types of evidence you may submit, and some affidavit examples of what should be on each form. Using this type format with each claim, will give the Department a clearer idea of your claimed priority date for us to consider recommending that date of priority to the court. In addition, if you write about land patent(s) or any other documents referring to your priority date in your affidavit, attach a copy of that document. This supporting evidence makes an affidavit more creditable.

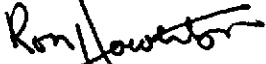

PART II

Also enclosed are 2 fact sheets that you are required to submit for Excessive Flows. The fact sheets are self-explanatory.

Please submit the required evidence supporting the priority dates and the excessive flow fact sheets by June 11, 1993, referencing all documents with the corresponding claim numbers.

A Field Exam to verify other items of the above claim(s) will be needed and scheduled as soon as possible after we receive the "Evidence of Priority" you are required to submit. If you have any questions not covered by this letter, please contact myself or this office **ASAP**.

Sincerely,

Ron Howerton
Senior Water Agent

Testimony By Paul James Black

I am Paul Black and my residence is on Shoo-Fly Creek. My mailing address is P.O. Box 273, Grand View, Idaho, 83624. I was born in Brunneau on October, 9, 1912. I have been asked by Gene Davis to give a statement concerning my recollection of my early days in the Battle Creek Country, in regards to the irrigated meadows in the area of T. 9 S. R. 01 E., better known to me as the Dutch Field, the Groom Field, the School Section Field, and the Vic Henge Place.

My father Joe Black owned a forty acre parcel of land for some years prior to my birth adjacent to the Vic Henge Property, and was in the horse business and cattle business for many years in that area. He bought the Groom's Field in 1915, and other properties in following years.

I grew up in this Country, as did most youngsters in those days, and spent a great deal of time horseback at an early age.

I have numerous pictures of myself being horseback as a young lad of four years old, and also of my father and neighboring cowboys during that time. I clearly recall making long rides with my father long before I started school at the age of six.

MICROFILMED

SEP 29 1992

I clearly remember before starting school of our neighbor Vic Fänge harvesting hay on his meadow with a hand sythe, and a homemade hand rake. Also I recall the irrigated meadows in the above mentioned fields ~~before~~ at my earliest recollection with ditches in place and luxuriant growth of Timothy and Redtop grasses. I clearly feel that I recall the established meadows and ditches prior to my beginning school which would have been in 1918.

The above testimony is factual information that I recall about the area being described.

CECIL D. ANDRUS

GOVERNOR

R. KEITH HIGGINSON

DIRECTOR

ID 83604

Dear Claimant(s):

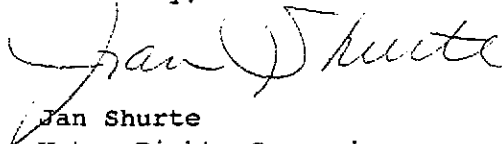

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
